

Anyone for tennis and computers?

21 October 2022

Pupils at Shawley Community Primary Academy **Epsom Downs** will put their racket skills to the test this half-term and take part in an exciting afternoon of tennis coaching and computer-based learning activities, with education charity, **Rackets Cubed**.

The unique initiative combines racket sports with science, technology, engineering and maths (STEM) lessons at the local Sutton Sports Village, rounded off with a well-deserved and nutritious hot meal for the budding athletes and computer whizzes.

Supporting all children to be healthy, happy and ambitious learners is at the heart of Shawley Primary Academy's approach. The school has partnered with Rackets Cubed to help widen access into sports and STEM learning for more children in the borough, empowering each pupil to realise their full academic and sporting potential.

The charity aims to improve the lives of children and young people across the UK and raise aspirations through its integrated programme of sport, education and nutrition learning. As part of the enriching afternoon, pupils in years 5 and 6 will be getting served with:

- Racket sports - a structured coaching session with a professional sports coach
- STEM activities - one hour of fun and engaging computer-based activities delivered alongside the sports coaching, to complement the core school curriculum
- Nutrition - A healthy and hearty meal will be provided at the end of the session to help the children re-energise, whilst learning about the importance of nutrition for classroom and sporting achievement

While tennis fans bid farewell to old legends such as Serena Williams and Roger Federer this year, the future is looking bright with newcomers such as Naomi Osaka and Emma Raducanu. This makes it a perfect time to introduce more local children to the sport and nurture the next generation of diverse tennis talent.

By providing pupils with the opportunity to try extracurricular opportunities that otherwise might not be easily accessible, Shawley and Rackets Cubed are working to help children dream bigger, develop their skills and discover new passions.

Sports Lead at Shawley Community Primary Academy, said:

"We are very excited here at Shawley to begin this partnership with Rackets Cubed and help break down barriers to sports and STEM learning. The positive growth and self-fulfilment of our pupils is central to what we do, so being able to align ourselves with a charity that is also driven by these aims was incredibly important to us. Sports can create an infinite number of opportunities and benefits when it's regularly engaged in, so it wonderful to work with Rackets Cubed and help our pupils access professional coaching and training, which all contributes to their wider success."
