

RAAC's latest victim

11 December 2023

Redhill Library has had to close with immediate effect following further investigations of the known reinforced autoclaved aerated concrete (RAAC) in the building.

The closure of the library will allow more detailed assessments and immediate safety measures to take place to ensure the building is safe to reopen to residents.

We understand the short notice closure of the library will cause disruption for library users and staff. However, as residents would expect, safety is our top priority.

At present, as the discovery of RAAC in the library building is very recent, further urgent work will need to be undertaken before we can provide any details on mitigation measures or timelines for re-opening.

Further announcements and updates regarding Redhill library will be shared via the **Redhill Library web page**.

Merstham Library and **Reigate Library** remain open for residents.

Redhill Library is a Surrey County Council designated warm space, alternative warm spaces in Redhill can be found **here**.

Draft advice may lead to energy savings

11 December 2023

Surrey County Council has been awarded £745,000 of funding through the Local Energy Advice Demonstrator (LEAD) project, to trial new and innovative approaches to tackle residential energy emissions, help residents save money, conserve energy and make homes more energy efficient.

The LEAD project is funded by the Department for Energy Security and Net Zero and is one of the UK's largest energy-based collaborations between a local authority and community groups. The project will run until March 2025 and consist of in-person energy advice and a One Stop Shop.

In-person energy advice will support around 3,000 residents by using thermal imaging surveys, providing basic remedial measures for obvious problems like draughts and heat loss, and signposting to support to help reduce their energy use and bills. Community groups will provide energy surveys to eligible residents which includes those who live in houses with Energy Performance Certificate ratings of D or worse, do not have gas central heating, or may have obstacles to improve the energy efficiency of their homes.

The One Stop Shop is an online platform which will help residents to create an energy efficiency and retrofit plan for their home, based on building type, budget, and potential grants and reductions in cost of technology. This will be delivered by Surrey Climate Commission.

If 5% of the homes receiving in-person energy advice embark on a deep retrofit with the assistance of the One Stop Shop and any available funding, it is estimated to make cumulative savings of around £320,000 every year for Surrey residents. Alongside this the project will deliver carbon reductions of 1,280t CO₂e every year across the life of the measures installed.

Marisa Heath, Surrey County Council Cabinet Member for Environment said: *"This is a fantastic opportunity to build collaboration between the local authority and Surrey's community groups, working together to upgrade housing stock and reduce residential emissions. The project is a great example of how implementing a net zero strategy can be hugely beneficial to residents, and actually help them to save money, make their homes healthier and more modern, and simultaneously tackle climate change."*

"Approximately 300,000 homes in Surrey have energy performance ratings of D or worse, meaning that thousands of residents live in homes which are poorly insulated, and liable to damp or mould. Residential energy accounts for over 30% of Surrey's carbon emissions, a figure which could be significantly lowered through improved energy performance, and reduced energy use."

For more information about the LEAD project, visit the **Surrey County Council website**. To check eligibility for a free home energy survey, visit the **Zero Carbon Guildford website**.

Epsom's leader welcomes more power for Surrey County Council

11 December 2023

Following the Chancellor's announcement in the Autumn Statement regarding the extension of devolution and further County Deals, **Surrey County Council** is engaging in discussions with Government on a Level 2 County Deal.

Councillor Hannah Dalton, Chair of Surrey Leaders' and Leader of Epsom & Ewell Borough Council, said: "This is a great opportunity for Surrey, which I warmly welcome. The devolution of important functions to the county will, over time, support all our local Councils in their work of delivering for our residents".

The proposed County Deal will see the devolution of the following functions to Surrey:

Strategic role in delivering services:

- Host for Government functions best delivered at a strategic level involving more than one local authority e.g. Local Nature Recovery Strategies
- Opportunity to pool services at a strategic level,
- Opportunity to adopt innovative local proposals to deliver action on climate change and the UK's Net Zero targets,

Supporting local businesses

- Local Enterprise Partnership (LEP) functions including hosting strategic business voice,

Local control of sustainable transport

- Ability to introduce bus franchising,

Investment spending

- UK Shared Prosperity Fund planning and delivery at a strategic level (*w.e.f. April 2025: District and Borough Councils will individually have control until then*)

Giving adults the skills for the labour market

- Devolution of Adult Education functions and the core Adult Education budget
- Providing input into Local Skills Improvement plans

Local control of infrastructure decisions

- Homes England compulsory purchase powers (held concurrently)

The invitation does not involve or require any structural reform of local government or unitarisation of any form, and crucially does not require there to be a Directly Elected Mayor (DEM). The 12 Councils (11 District and Borough Councils and the County Council) retain their sovereignty, which aligns with the partnership work already taking place across the county.

Surrey is well-placed to seize this opportunity and work together to realise the full benefits of a Level 2 devolution deal for our residents, economy, and environment.

In response to the invitation, work will continue with a range of key stakeholders, including the District and Borough Councils, businesses, LEPs, Further Education colleges and Universities, bus companies, health agencies and other key stakeholders to build a consensus around a positive response to the opportunity to secure a devolution deal for Surrey. As

part of this, opportunities for potential onward devolution of functions from county council to district/borough councils will also be explored with the District and Borough Councils.

The counties that have been invited include single council areas, that do not have adjacent, neighbouring unitary authorities or 'island' unitary authorities within their boundaries. As such they are not in a position to form Mayoral or County Combined Authorities, which are alternative structures for securing County Deals.

The Levelling Up White Paper published in February 2022, set out three levels of devolution (see Annex A below). A 'Level 2' County Deal does not require there to be a Directly Elected Person, and excludes certain powers reserved to Mayoral and Combined Authority areas.

Government officials have expressed an interest in learning about any additional functions local areas would wish to see devolved over the longer term, the Government have made it clear that in the interests of making progress, the Level 2 County Deals being offered will only include the powers outlined above.

Councillor Tim Oliver, Leader, Surrey County Council, said: "I have always been clear in my determination that the residents of Surrey will not be left behind, and this devolution deal with government is a step in the right direction in helping us achieve that ambition.

"Local government and our local communities are best placed to deliver what Surrey needs. I'm pleased that the government is recognising that, with hopefully further devolved powers to local government in due course.

"More control over things like local growth, skills and careers for our young people, lifelong learning provision, the climate agenda, local public transport, and housing, will enable the county council, and partners, to make positive change in Surrey.

"We look forward to working with the government, and with local partners like district and borough councils, businesses, and education providers, to maximise the opportunities this county deal presents for the benefit of all residents.

"This is a positive step in delivering more power to communities."

Surrey set for the first ever Festival of Skills

11 December 2023

Hundreds of young people are set to be fired up about their futures at Surrey's first ever Festival of Skills.

The free one-day careers event will provide local students with the chance to connect with and learn more about some of the county's brightest businesses and training providers.

Up to 1,500 young people from schools and colleges across Surrey are expected to attend the event later this month (23 November 2023) at Sandown Park Racecourse.

The Festival of Skills will feature more than 60 exhibitors, including Samsung, British Airways, Pfizer, Haleon, and BAE Systems.

Public sector institutions will also be represented with the Animal & Plant Health Agency, NHS, armed forces and Surrey Fire & Rescue among those attending.

The event has been organised and funded by Surrey County Council, with support from the Association of Learning Providers Surrey (ALPS) and Surrey Event Professionals.

Cllr Matt Furniss, Surrey County Council's Cabinet Member for Highways, Transport & Economic Growth, said: "The first-ever Festival of Skills is set to be a day to remember – providing young people with the chance to rub shoulders with major employers and be inspired about their futures.

"Such interactions can change people's paths for the rest of their lives, which is why we are delighted to have so many businesses, public bodies and training providers exhibiting at the event.

"Providing opportunities for employers to connect with the county's future workforce is integral to our wider Skills agenda and achieving our mission to ensure No One is Left Behind."

The Festival of Skills is open to young people in education aged 14 to 18. Those attending will have access to inspirational talks and interactive displays, while also learning about potential career opportunities.

Sectors represented include the creative arts, construction, cyber security, health and social care, technology, engineering, public sector, and hospitality.

The event will also host the official launch of the new **Surrey Careers Hub**, which will work with the county's secondary schools, special schools and colleges to ensure every young person can find their best next step.

Schools and colleges are still able to **sign up to the Festival of Skills for the remaining afternoon slots**, but pre-booking is essential.

A small number of exhibitor stands are also available. Employers interested in attending must **register their interest via the Festival of Skills website**.

For further information visit **www.surreyfestivalofskills.co.uk**.

AI training hub coming to Surrey

11 December 2023

Surrey is set to become home to a high-quality training hub in Artificial Intelligence (AI), a move which could have transformative impacts in the way vulnerable residents engage and access public services.

Government announced last week that the **University of Surrey and the StoryFutures unit at Royal Holloway, University of London (RHUL) will be the home of a new Centre for Doctoral Training (CDT) in AI for Digital Media Inclusion**.

The funding will help establish a unique creative industry hub for high-quality training in responsible AI, inclusive design, and creative skills within the county.

In addition to creating 80 PhD posts, the centre will look at using AI to transform digital media into intelligent content that adapts to individual preferences, such as age, language, and sensory and physical abilities.

The ambition is to place Surrey – and the UK as a whole – as a world leader in media inclusion.

Surrey County Council is proud to back the bid and keen to work with the new centre to establish how public services could be made more accessible to its 1.2 million residents.

In a letter of support, Cllr Tim Oliver, Leader of Surrey County Council, said: *“We are excited by the Centre for Doctoral Training’s (CDT) proposed approach to responding to the national need for a new community of experts who individually and collectively will deliver resilience for our digitalised Critical National Infrastructure.*

“We recognise and support the CDT’s aim to develop the underpinning research, training, community-building, and knowledge exchange, contributing 80 highly skilled and connected resilience experts to the workforce.

“The funding bid and subsequent CDT and associated research and expertise will have a significant positive impact on our organisation’s ability to deliver high-quality and sustainable services for all.”

Cllr Oliver added the local authority was interested in exploring how new technology could improve the way its most vulnerable residents accessed its services.

There was also potential to look at increasing engagement with businesses, fire prevention, community safety services, and greener futures and net zero.

The Surrey hub will be one of 12 Centres for Doctoral Training in AI across the country that will benefit from £117 million of funding through UK Research and Innovation (UKRI).

It was **announced at the global AI Safety Summit held at Bletchley Park last week**.

Cllr Oliver added that Surrey County Council has an established track record of working successfully with the county’s universities to drive innovation and economic growth.

Last week the local authority’s cabinet agreed to investment £3 million to support the establishment of a new **CoSTAR (Convergent Screen Technologies and performance in Realtime) satellite studio and incubator space** on the RHUL campus.

The new centre for the creative industries – which will have direct links to the national lab based a short distance away at Pinewood Studios – will create 300 jobs, support 200 businesses and contribute £30 million to the Surrey economy.

The Council was also partner in a **successful bid by Surrey’s Guildford Games Cluster and Warwickshire’s Silicon Spa for £1.5 million from Research England**.

The funding will support two of the UK’s biggest gaming clusters to work with higher education to drive innovation, invest in infrastructure and support growth in the wider regional economy through the Games and Innovation Nexus (GAIN) project.

Cllr Matt Furniss, Surrey County Council’s Cabinet Member for Highways, Transport and Economic Growth, said: *“The games industry is one of Surrey’s real success stories, showcasing our county and its talented workforce on a global stage.*

“This funding has the potential to take this growing, innovative sector to new heights, creating high-quality jobs and generating inward investment into our communities – both of which would be good news for our residents.”

Surrey boosts specialist school places

11 December 2023

Surrey County Council is pleased to announce the creation of 230 new specialist school places for September 2023 for Surrey’s children with additional needs and disabilities.

The creation of additional school places has been carried out through the successful delivery of 40 construction projects in schools across Surrey. The building projects included the expansion of existing specialist schools and existing Special Educational Needs (SEN) Units in mainstream schools, the construction of new specialist free schools, and the creation of new SEN Units in mainstream schools.

These projects are a part of Surrey County Council’s £260m Special Educational Needs and Disabilities and Alternative Provision Capital Programme investment to improve the long-term sufficiency of state-maintained specialist educational provision across Surrey, and in turn the experiences of Surrey children. The Council is committed to ensuring that children and young people who have additional needs and disabilities (AND) and require a specialist school placement can have their education needs met closer to home and within state-maintained provision wherever possible. The creation of these new specialist school places will support the Council in delivering this commitment, providing more Surrey young people with additional needs and disabilities with the opportunity to be educated within their own local community.

Surrey County Council’s ambitious Capital Programme aims to deliver 2,440 permanent additional specialist school places in Surrey between 2019 – 2026 to create capacity for 5,760 planned places by 2030/31.

Clare Curran, Cabinet Member for Children, Families and Lifelong Learning said: *“The location of these new school places means that Surrey families will have high quality specialist school provision close to where they are, which enables children and young people with additional needs and disabilities to achieve healthy, independent, and fulfilling lives.*

“These additional places are part of the Council’s committed investment to increase Surrey’s estate to 5,760 places overall by 2030 to improve the long-term sufficiency of state-maintained specialist educational provision that meets the needs of communities across the county now and in the future.”

As of the 2023/24 academic year, accommodation for around 917 new specialist school places has been delivered across Surrey at a cost of £41m since the beginning of the programme. As a result of this investment, the planned phasing of places and growth plans agreed with individual schools and Trusts, and where additional places have been commissioned to meet additional local needs, Surrey’s state-maintained specialist education estate has been increased from around 3,320 in 2019 – when the Capital Programme started – to around 4,237 places now.

The programme remains on track to complete the remaining 7 projects planned for 2023/24 in the Spring term.

The next phase of Capital delivery in 2024/25 consists of major and medium new build extensions of existing specialist schools which are already in contract, a new specialist free school for autistic children, and two new secondary age SEN Units in mainstream schools for autistic children. Along with the phasing in of additional places from projects delivered in previous years, the programme will create approximately 240 new specialist school places for September 2024. Additional places from these schemes will become available between 2025-2028 in line with growth plans agreed with individual schools. This is because schools need to build their staffing capacity to support the new places.

[Epsom’s Pound Lane Primary School is one of the Surrey state schools sharing the 85 new Mainstream SEN Unit places available as of September 2023.]

Preparing for Winter with true grit

11 December 2023

A total of 38 brand new gritting vehicles are now available to help keep Surrey moving during the colder months.

The new vehicles operate more efficiently, have state-of-the art technology on board and produce less carbon emissions. They will grit Surrey's roads before and during severe weather, using the 10,141 tonnes of salt stored at our four Surrey depots. Winter arrangements typically begin in October and run until the end of March although this period can be extended depending on weather conditions.

Children from Surrey schools are being invited to name the new fleet with winning entries to be announced later this month.

Matt Furniss, Cabinet Member for Highways, Transport and Economic Growth said, *"We're committed to keeping drivers safe here in Surrey and investing in our roads.*

"When temperatures plummet, our highways teams across the county will be ready to work around the clock to keep traffic moving on our primary routes using our new, efficient gritters.

"I'm delighted that our school children are getting involved in naming the new gritters and look forward to seeing their suggestions."

Ed Jennings, Lead Operations Manager for Ringway said, *"We are ready and prepared for winter, with a team of experienced gritter drivers – many of whom have delivered the service for over ten years.*

"Our investment in 38 brand new gritters is a demonstration of our commitment to Surrey and enables us to continue our drive towards a greener future. Our Immediate Response Centre will continue to support communities 24/7 and will work closely with the Met Office throughout the season.

Surrey schools fly their green flags

11 December 2023

Surrey County Council has been confirmed with the highest number of schools awarded with a **Green Flag** of any local authority in England, with its **88 Eco-Schools**, all of which have a Green Flag status – the highest accreditation in the scheme.

Eco-Schools is the largest education programme in the world which helps sustainability become an integral part of school life. Eco-Schools is pupil lead, supports the enrichment of the curriculum and helps unite young people and the wider school community to care more about protecting the environment and making positive changes.

Various projects have been set up across Surrey's schools and have had a positive impact on the environment. Activities that have taken place include:

- Building new ponds to increase biodiversity.
- Creating allotments to grow vegetables.
- Planting trees to encourage more wildlife and improve air quality.
- Running switch off campaigns to save energy.
- Making signs for bins to make sure people use the correct bins, to help increase recycling.
- Building a greenhouse out of plastic bottles to grow plants.
- Following national campaigns such as Walk to School Week.

The projects have engaged over 50,000 pupils and are already reaping benefits which include:

- Saving a total of 648,330kwh of electricity

- Diverting 111,645 tonnes of waste from landfill
- Creating 8,322 (m2) of natural habitat
- 7,400 pupils participating in walking and cycling initiatives.

Marisa Heath, Surrey County Council Cabinet Member for Environment said: *“This project is so important and very close to my heart because we know informing and educating the young generation will pay dividends in the future to protect our environment. I am so proud that Surrey’s schools are getting behind the green agenda and are encouraging so many young people to play their part to help tackle climate change. We know it’s a joint effort and if everyone plays their part, we really can have a positive impact.*

“It’s an amazing achievement to be recognised as the highest performing county and hope this also inspires other Surrey schools to find out more and get involved.”

Adam Flint, Eco-Schools England Manager from Eco-Schools said: *“In academic year ‘22/23, schools in Surrey County Council achieved more Eco-Schools Green Flags than any other county council in the country. When it comes to enabling young people and schools staff to make positive impacts on our planet, the region is exemplary. The Council has supported their schools in various, showing a great commitment to the future of their pupils and placing faith in them to lead action on climate change and work for a better future for everyone. It’s a phenomenal achievement.”*

More information about Eco-Schools in Surrey, including how to sign up can be found on **here**.

Painting a rosy picture for recycling

11 December 2023

A pioneering paint re-use shop at the Guildford community recycling centre (CRC), operated on behalf of **Surrey County Council**, launched in 2021 has successfully diverted over 15,500 litres of reusable paint from disposal, raising over £2,000 for **Macmillan Cancer Support** and supporting community projects through the **Surrey Probation Service**.

An estimated 55 million litres of paint are wasted in the UK annually, enough to fill 22 Olympic swimming pools. In autumn 2021, the team at SUEZ, who operate 15 community recycling centres (CRC) on behalf of Surrey County Council, set out to address this problem locally with a circular economy initiative to divert useable paint away from disposal.

To address this issue at the local level, the team at SUEZ opened a paint re-use shop in Guildford where tins of reusable, water-based paint brought to the recycling centre are set aside for residents to have for free, with a suggested donation to Macmillan Cancer Support. In 2023, the team was able to divert even more paint away from disposal by partnering with the Staines Probation Office, providing free paint for use in community projects – up to 200 litres at a time.

Now, nearly two years into operation, the paint shop has diverted over 15,500 litres of paint away from disposal, raised over £2000 for Macmillan and supported more than five community projects through the probation service.

The paint re-use shop offers an eco-friendly alternative to disposal, contributing to charitable causes and supporting meaningful rehabilitation for individuals on probation. The initiative also aligns economic efficiency with environmental responsibility by generating cost savings for Surrey County Council.

Natalie Bramhall, Cabinet Member for Property and Waste said: *“This programme has been a huge success over the last two years and helped divert a significant amount of waste from landfill. To be recognised and shortlisted for a National Recycling Award is great to hear.”*

Gareth Swain, Regional Manager for SUEZ recycling and recovery UK said: *“When we opened the paint re-use shop in late 2021, we set out to reduce the need for disposal and demand for new paint production by transforming waste paint into a community resource. We are incredibly proud of how the project has grown through the partnership with the probation service and we are honoured to be recognized by this year’s National Recycling Awards.”*

Peter Nicholls, Placement Coordinator for the Staines Probation Office of HM Prison & Probation Service said: *“The paint donations from SUEZ have made such a difference to all corners of our community, from Scouting to Schools, charities, and homes for vulnerable people in Surrey to name just a few. The projects that we have completed did not have funding for supplies. It is important work and important for our role in rehabilitating and educating people on probation.”*

Surrey Fire service praised

11 December 2023

Surrey Fire and Rescue Service (SFRS) has received positive feedback for its progress in culture in an official report published today, 13 September 2023.

Following an inspection of the service by His Majesty's Inspectorate of Constabulary and Fire & Rescue Service (HMICFRS) throughout March and April, inspectors praised the 'positive working culture.'

The report stated that the inspector was 'encouraged' by the cultural improvements that were evident in the service, adding: *"Staff understand the values well and demonstrate positive behaviours. We saw that service leaders have improved their visibility and approachability."*

"There is a positive working culture throughout the service, with staff empowered and willing to challenge poor behaviours."

The findings also highlighted that the service is good at keeping the public informed and has an effective Community Risk Management Plan in place.

The report outlines areas where the service has done well, areas for improvement and a 'cause of concern' regarding the risk-based inspection programme. Surrey Fire and Rescue Service are bringing together an improvement plan to address all of the areas for improvement that have been highlighted in the report.

Chief Fire Officer, Dan Quin said: *"I am extremely proud of the hard work happening across our service and want to thank all of our team for playing their part. As a service we are committed to creating a fully inclusive workplace where everybody feels supported. The improvement of the service's culture was a priority for all staff, so we are delighted to see these efforts recognised."*

He added: *"We know that there are areas where we can still improve and we will address these issues as a priority."*

"While we had expected a more positive outcome in certain areas we recognise the benefits of an independent inspectorate. This is an opportunity for us to reevaluate our current programmes and strategies. Our aim is to address the recommendations and further improve our services. I would like to thank the inspectors for taking the time to learn about our work, for their recommendations and for holding us to account. We remain committed to becoming an outstanding service as we continue to put our communities first."

Surrey County Council's Cabinet Member for Communities and Community Safety, Denise Turner Stewart said: *"Surrey Fire and Rescue Service Leadership Team have put in place programmes of work to improve all areas since the last inspection in 2021. I am delighted that the inspectors recognised the progress made on SFRS' cultural improvement journey."*

"I'd like to thank everyone within the service for their continued dedication and for demonstrating our positive working culture to inspectors. Staff showed exceptional commitment to support the inspection process."

"It's important to acknowledge that there are areas that demand immediate attention. We are fully committed to addressing these areas with diligence. Our goal is to make substantial and ongoing improvement. We look forward to demonstrating these improvements with HMICFRS."

Not such a rosy report on Surrey Fire Service

Surrey's Big Guns ganging up

11 December 2023

Surrey is set to benefit from a deepening of ties between **Surrey County Council** and the **University of Surrey** through a new **Civic University Agreement** being developed between the two institutions.

Opportunities to work even more closely are being discussed at a special event today that hopes to explore new areas for collaboration including initiatives for economic growth, health and sustainability. The event will be opened by University of Surrey President and Vice Chancellor **Max Lu** alongside leader of Surrey County Council, **Tim Oliver**.

Both institutions recognise the huge potential that can flow from more consistently combining Surrey County Council's leadership, capacity and resources with the University of Surrey's research and innovation strengths, enormous economic contribution to the region and multiple global specialisms.

The University of Surrey has a good track record of working in and for the local community from hosting a space industry round table with the Science Minister; delivering air quality research that has benefitted local communities and schools; and carrying out health research that is helping earlier diagnosis of cancers in Surrey residents. The University also makes a significant positive impact on the Surrey economy – supporting 17,500 jobs in the county and contributing £1.3 billion to the county's economy. (Figures taken from a report by independent economic consultants Biggar Economics).

Other examples of current joint working include the Surrey Climate Commission and One Surrey Growth Board – both projects that are key to the sustainable prosperity of the county, and involving significant contributions from academics at the University of Surrey.

Professor Max Lu, President and Vice Chancellor of the University of Surrey, said:

"The University of Surrey is a global community, with our students, staff and collaborators from all over the world, and our research has tremendous global reach and impact. But we are proudly anchored in Guildford and Surrey, and have a symbiotic relationship with our region and county.

"In particular, we have a long and proud record of collaborating with Surrey County Council and many regional stakeholders. The Civic University Agreement that we are launching today will give us a bold and visionary framework for harnessing our world-leading research to help put Surrey on the world map, to help transform lives in Surrey for the better today, and to work together to build Surrey's future prosperity, to enrich lives and protect the planet."

Cllr Tim Oliver, Leader of Surrey County Council, said:

"The University of Surrey has long been a powerful asset and a trusted partner for the County. This agreement will take that to the next level. Combining our own high ambitions for Surrey with the Universities world-leading research strengths will help us bring the best of tomorrow to Surrey today, and to project Surrey's greatest strengths on a global stage. Our residents, our communities and our economy will be the beneficiaries of this deepened partnership with the research and education powerhouse with which we share our name."

The new Civic University Agreement is part of a national movement to elevate to a strategic level the relationships between universities and the communities in which they are based. The agreement will focus on enhancing life in Surrey through:

- driving sustainable economic growth
- tackling health inequalities
- enabling a greener future
- empowering thriving communities.

University centres of excellence that will contribute to delivery of these priorities include:

- The Institute for Sustainability – which has been founded to be a critical player in the global transition to sustainable living – through research, innovation, partnerships, education and civic engagement
- The People-Centred Artificial Intelligence Institute – which is driving research and innovation that places people at the heart of the future of AI
- The Centre for Sustainability and Wellbeing in the Visitor Economy – focusing on transport, tourism, hospitality and events
- Interprofessional expertise across human and animal health – including the combined strength of the University's School of Veterinary Medicine, School of Biosciences and new School of Medicine
- Surrey Space Centre – which is a key partner with the growing space sector in the region

- 5G/6G Innovation Centre - representing decades of experience at the forefront of high-speed and reliable mobile communications with multiple economic and societal applications.

Today's event is the first step in building closer ties between organisations that share a strong purpose to help society in the local region, and brings together an experienced team from across the University's faculties, schools and institutes, with leaders from all the directorates of Surrey County Council. It is focused on identifying creative opportunities for deeper collaboration, with the potential to deliver transformational change for our community. Other local stakeholders will be invited to join the agreement in the future.

White van man to go green?

11 December 2023

Diesel van owners who drive along the Guildford stretch of the A3 more than three times a week, could be eligible for a grant to replace their vehicle with an electric model.

Surrey County Council is working in partnership with Guildford Borough Council to deliver a £11 million National Highways scheme, aimed at reducing high levels of pollution in the area. Applications can be made here from today (Thursday 07 September) as 'International Day of Clean air for blue skies' gets underway.

Vehicle dealerships that sell and lease qualifying electric light commercial vehicles are also being encouraged to apply to participate in the scheme. Applications can be made at www.surreycc.gov.uk/a3evgrantdealer. A free event is being held for interested dealerships in Guildford on **Tuesday 12 September 2023**. Tickets can be booked [here](#).

Matt Furniss, Cabinet Member for Transport, Infrastructure and Growth said, "Reducing carbon emissions and improving air quality is a major priority for Surrey County Council as we strive to achieve our target to be a net-zero county by 2050. Pollution levels on this stretch of the A3 are unacceptable and we want to do all we can to improve this situation and protect the health and wellbeing of local residents.

"I'm delighted that we are able to offer van owners a financial incentive to replace their diesel vans with electric alternatives and to support small businesses in the switch to lower emissions. We'll also be increasing the provision of charge points near the A3 as we are across the county.

"I encourage franchised dealers who supply light commercial electric vehicles to support this scheme and apply to be an accredited dealership. This is an important first step in our joint work to improve air quality along the A3 and we hope to announce further joint interventions in the near future."

Andrew Bean, Principal Air Quality Advisor at National Highways said, "We are delighted to be working with Surrey and Guildford Councils on this scheme. Not only are we working together to improve air quality around the A3, we are reducing carbon emissions and helping businesses that regularly travel up and down the A3 at the same time.

"We strongly encourage all interested dealers to sign up and help deliver electric vans for local businesses and regular users of the A3".

Cllr Merel Rehorst-Smith, Lead Councillor for Regulatory and Democratic Services at Guildford Borough Council said, "This scheme is one of the new measures we're supporting to help improve air quality along the A3, benefitting Guildford and the surrounding villages. Our officers have worked hard to get this scheme off the ground and obtain the funding for it. We hope that local dealers and businesses will want to get involved."

"Offering diesel van owners financial help to switch to an electric vehicle will be a real incentive for them to use a greener form of transport."

More information is available at www.surreycc.gov.uk/a3evgrantdealer
