

A beacon of hope in a troubled world?

7 June 2024

6th June 2024 marked 80 years since D-Day. The massive allied military campaign that signaled the beginning of the end of Nazi tyranny in Western Europe.

The Borough of **Epsom and Ewell** came together on Epsom Downs to celebrate this momentous day. Events organised by Epsom and Ewell Borough Council, the Epsom branch of the Royal British Legion and Epsom Bid Ltd honoured the ultimate sacrifices of a then young generation of servicemen.

About 1500 residents flocked to the Downs, enjoying fish and chips while entertained by a choir and the **Epsom and Ewell Silver Band**. The Grandstand exhibited a gallery of photographs of Epsom and Ewell in wartime. The exhibition will be transferred to Bourne Hall in Ewell in due course.

The Worshipful Mayor of Epsom and Ewell Cllr. **Steve Bridger** addressed the assembled, paying tribute to the fallen and survivors of the historic day. Just before 9.15pm the Mayor lit the great Beacon at the viewpoint car park on Grandstand Road.

Epsom Sports Club £1 million boost

7 June 2024

Epsom Sports Club has been awarded £1 million in funding by Surrey County Council towards constructing a new clubhouse as part of the YourFundSurrey Large Community scheme.

The clubhouse will open up new exterior and interior spaces, creating a shared space in the heart of the community for a wide range of activities, with aims to support new participants to become active, particularly those from inactive and under-represented groups. The clubhouse will be built at Epsom Sports Club's sports facilities space in **Old Schools Lane in Ewell**, where a range of sports and activities already take place such as cricket, croquet, hockey and tennis - to name a few.

As a charity that promotes active lifestyles and community recreation for Epsom and Ewell residents, providing facilities for sports, recreation and other leisure activities, the Sports Club caters to all ages and abilities. Around 800 young people regularly participate in these sports. Walking cricket and hockey have been recently introduced for older members and a disability hockey group is also affiliated with the club.

Planning permission has been granted for a fully accessible single-storey building which will hold four changing rooms, a clubroom for indoor activities, a kitchen and a bar for both participants and spectators.

Simon Everest, one of Epsom Sports Club's Directors, said: "The facility will be open to local community groups to hire and we anticipate that this will be of huge benefit to the Borough."

The funding was granted after the YourFundSurrey panel was presented with the planned community usage of the new clubhouse, which is said to hold activities such as exercise classes, art classes and the card game 'bridge'. The panel was also pleased to hear of potential plans for organisations such as guiding or scouts to make use of the facilities.

Natalia Anda, Chair of Epsom Hockey Club said: "We are so excited and grateful to have received this grant from YourFundSurrey. "The clubhouse will made such a difference to the club in maximising the potential use of our outdoor sports pitches, providing much needed changing facilities and a place to socialise for our members and the wider local community."

Gold star at the end of the Rainbow

7 June 2024

Better's Rainbow Leisure Centre in Epsom has maintained its 'Excellent' status from QUEST - the Quality Scheme for Sport and Leisure. This follows a mystery visit from the organisation in April plus a planned audit in May.

Rainbow's facilities include two pools - full-size and teaching - a sports hall, 100+ station gym, soft play area, spa and a senior activity room.

The centre has approximately 70 members of staff (full and part-time) and around 3,000 members who are mainly families or adults over the age of 66.

QUEST's report commented on the centre's excellent, well-maintained facilities and its extremely warm, friendly and welcoming staff. Emily Simmons, General Manager, comments, "I am immensely proud of the centre and our team. Achieving QUEST Excellent status is no easy task and staff consistently work hard to maintain the high standards they set themselves.

"QUEST is a fantastic tool for evaluating best practice and customer service levels. It sets the standard for leisure centre management and sports development, taking into account programming, facilities, management policies and procedures, staff training and development, and environmental impact. This award means both customers and staff are getting the highest level of service, care and support."

Better's Head of Service in the area Steve Hannen adds, "A huge well done! It's a great achievement for Rainbow to maintain Excellent status. This is not an easy thing to do and the entire centre team should be proud."

Rainbow Leisure Centre is managed by charitable social enterprise GLL under the 'Better' brand. Supporting the wellbeing of local communities is an important part of the organisation's ethos.

GLL press

Student racemakers favourites at the Derby

7 June 2024

Ewell based **Nescot** (North East Surrey College of Technology) were proud to be part of this year's **Epsom Derby** Festival. Our Travel and Tourism students were once again 'Racemakers' and our Animal Management students presented personalised handmade plaques to the grooms of the Betfred Derby runners.

NESCOT on Reigate Road, Ewell is the location for a local HUSTINGS, staged by Epsom and Ewell Times, for the Epsom and Ewell Parliamentary Candidates in the Adrian Mann Theatre at 7pm on Wednesday 26th June. All welcome.

Our Travel and Tourism Level 2 and 3 students were part of the 'Racemaker' team on 31 May and 1 June. They used skills developed within their course to assist visitors with directions and queries, helping to ensure an excellent experience was had by all. The students benefitted from both, the preparation and employment during the event. The experience has allowed them to develop their academic and transferrable skills, from CV development to interviews and onsite advice and guidance with Epsom Downs Racecourse. They received training on the various enquiries they might receive including how to effectively deal with a range of customer service scenarios.

A team of four of our Level 2 and 3 Animal Management students also presented unique mementos made from wood off

cuts that bore the names of the horses running in the Derby. These personalised and handmade plaques were presented to each groom. The students were chosen for their consistent hard work and involvement in sustainability projects as part of their course.

Julie Kapsalis, Principal and CEO of Nescot, said, “We are proud of our involvement at the Betfred Derby Festival. Thanks to our staff for creating these collaborative opportunities and to our students for being excellent ambassadors for the College. It has been an incredible experience for them to be part of an internationally renowned premier racing event.

“We are hugely appreciative of Epsom Down Racecourse for inviting our students to be part of this prestigious event. Working with businesses and the community is important to us as a college and we look forward to our continued partnership that will enrich our learners with practical experiences to prepare them for their careers.”

Jennifer Fasad and **Jemma Brodie**, Travel and Tourism lecturers at Nescot also expressed their gratitude. They said, “A huge thank you to the team at Epsom Downs Racecourse who ensured a comprehensive training programme was given to all learners involved. The opportunity to gain first hand customer service skills at an event of this scale offers them an all-important experience as they consider career paths in the travel, hospitality and events industry.”

Zoe Brown, Head of Curriculum, Animal Studies, commented, “Our students were thrilled with the invitation to go behind the scenes in the stables area and meet the people who care for the horses. It’s been an amazing experience for them. Thanks to Epsom Downs Racecourse for organising this opportunity. We are delighted that the personalised plaques were well received and we’ve been asked to provide them next year too.”

Tom Sammes, General Manager at Epsom Downs Racecourse, said “We were pleased to offer students from Nescot the opportunity to be part of the ‘Racemaker’ team at the Betfred Derby Festival. Their enthusiasm and commitment to learn and execute their roles is commendable, and the whole team were professional and dedicated across the two days.

“We were also delighted to help the students present the beautifully designed plaques to the grooms of the Betfred Derby runners and want to thank them for their hard work in the build up to the event.

“Epsom Downs Racecourse is looking forward to offering a range of different projects to support study programmes for young people throughout the rest of the year. Nescot is a huge part of the local community, and we want to help them continue to make a positive impact on the young people that come through their doors.”

Travel and Tourism student Frankie said, “We had such a great time working as part of the Racemaker Team. The guidance and the allocation of roles and locations was clear and organised. This opportunity has allowed me to develop my leadership skills. I was proud to be placed on the radio as a team leader during the second day.”

Another student Josh added, “It was an amazing experience! Helping customers has developed my confidence. I had some fantastic personal moments and even had the opportunity to see the beautiful race horses in the winner enclosure.”

This is the second year that our Travel and Tourism students have worked alongside The Jockey Club as part of the Beacon Project that was set up in in Autumn 2022. This collaboration offers our students work experience opportunities with various projects at Epsom Downs Racecourse to aid with their studies and understanding of the racing industry and career opportunities it presents.

D-Day celebration on Epsom Downs

7 June 2024

A special event to commemorate the 80th anniversary of the D-Day Landings is taking place on Epsom Downs on Thursday 6 June, 7–9.30pm. The event is being jointly run by Epsom & Ewell Borough Council, Go Epsom and Epsom Downs Racecourse.

The D-Day Landings are recognised as the largest naval, air and land operation in history, with more than 150,000 troops landing on five beaches in Normandy and bringing about the liberation of north-west Europe from Nazi occupation. Commemorative events are taking place nationally to remember those who gave their lives during the D-Day Landings.

The public are invited to come down to the Racecourse from 7pm, when the grandstand will open. Refreshments and fish and chips will be on sale, and there will be a range of entertainment on offer. The event is free to attend.

At 9pm, a ceremony will take place at the beacon on Epsom Downs, including a lone piper playing, and at 9.15pm the beacon will be lit. The beacon lighting is part of a national chain of beacons being lit across the country, and along the Normandy coast of France, and is designed to represent the ‘light of peace’ that emerged out of the darkness of war.

Cllr **Clive Woodbridge**, Chair of the Community and Wellbeing Committee at the council, said:

“The beacon lighting event is an opportunity for the community to come together to honour the thousands of people involved in the D-Day landings. Their brave actions enable us all to enjoy the peace and freedom we have today.

“We look forward to welcoming residents and visitors to this special and important event.”

Karen Pengelly, BID Manager at Go Epsom, said:

“Epsom’s beacon was erected two years ago to mark the Platinum Jubilee of Her Majesty the Queen. It is an absolute honour to be involved in the D-Day 80th commemoration. Epsom, just like many other places, played an active part in World War 2; this is our chance to remember the sacrifices made by so many.”

Tom Sammes, General Manager at Epsom Downs Racecourse, said:

“We are honoured and delighted to be a part of the D-Day 80th commemoration. The racecourse was a key part of Epsom’s World War 2 response and we look forward to welcoming the community to remember the brave personnel who risked their lives for freedom and peace.”

Surrey Arts appointed to lead Surrey Music Hub

7 June 2024

Surrey Arts, part of Surrey County Council has been appointed by Arts Council England to lead the Surrey Music Hub from September 2024, as part of an ambitious national programme to provide high-quality music education for all children and young people.

Surrey Arts will receive £1.42 million in funding from the Department for Education to coordinate music education in the local area, plus an additional £469,000 to invest in new musical instruments, equipment and technology tailored to the needs of children and young people in Surrey, including those with special educational needs and disabilities.

Surrey Arts will deliver high quality music education accessible to all children and young people in Surrey through diverse partnerships between educational, creative and community organisations in the local community and throughout the country.

The appointment is part of a major investment in a new generation of the nationwide network of Music Hubs. This investment will help to deliver the Government’s National Plan for Music Education, and give all children and young people the opportunity to develop their musical interests as far as they wish, including helping them to begin careers in the music industry.

Denise Turner-Stewart, Surrey County Council Deputy Leader and Cabinet Member for Customer and Communities said: “We are delighted that Surrey Arts, part of Surrey County Council will be able to continue its work in leading the music hub in Surrey. The music hub is a network of music organisations and schools working together to bring musical opportunities to young people. This funding will ensure that we are able to continue championing music and support thousands of young people across Surrey to experience the joy and pleasure of participating in musical activities.”

Darren Henley, Chief Executive of Arts Council England, said: “Music education is enormously powerful - it can enrich young people’s lives, help them connect with the people around them, and start them on the pathway to fruitful and fulfilling careers. We are excited to announce this investment in a new generation of Music Hubs, which will support the brilliant work of our dedicated music teachers across the country, and help bring high-quality music education to even more children and young people in every part of England.”

Visit [www.surreymusic hub.com](https://surreymusic hub.com) to find out more.

Notes to Editors

Surrey Music Hub is a network of music organisations and schools working together to bring more musical opportunities to children and young people in Surrey, both in schools and in the wider community. Led by Surrey Arts, the county council’s arts service, the Hub will act as an advocate for music education, encouraging participation in music across the county. They will work to ensure that children and young people from all backgrounds receive music education that is high quality, wide ranging, sustainable and accessible to all and that there are clear routes for progression. **<https://surreymusic hub.com/>**

Arts Council England is the national development agency for creativity and culture. We have set out our strategic vision in **Let’s Create** that by 2030 we want England to be a country in which the creativity of each of us is valued and given the

chance to flourish and where everyone of us has access to a remarkable range of high-quality cultural experiences. We invest public money from Government and The National Lottery to help support the sector and to deliver this vision. www.artscouncil.org.uk.

County Councillor Community funding

7 June 2024

Surrey residents can now apply for cash grants to improve their local area through the Your Councillor Community Fund. Last year the Fund supported over 380 community projects via Surrey County Councillors, totalling £404,330.

This community fund is flexibly designed to help with costs that can range from purchasing sports equipment for local clubs, to the creation of websites, providing financial support to community groups and projects that improve the quality of life in for residents in Surrey.

Each year, Surrey County Council's 81 councillors each allocate £5,000 of funding within their local communities. With their deep understanding of the needs and priorities of their communities they can ensure that the funding is targeted to areas where it is most needed and where it can make the biggest impact. It can be used across a variety of projects that help promote the social, economic and environmental wellbeing of their communities.

Surrey County Council Deputy Leader and Cabinet Member for Customer and Communities Denise Turner-Stewart said: *"As a council we are committed to working together with communities to improve the lives of people living or working in Surrey. The Your Councillor Community Fund is a great example of how even a small amount of funding can make a big difference in the communities we serve. These initiatives can help to deliver such things as sports for fitness, places to come together, providing facilities that help improve health and wellbeing and in other cases an improved pride in their local areas.*

"It embodies our commitment to empowering local residents to have a say and make a real difference in their own communities. By supporting initiatives driven by the passion and dedication of our residents, we aim to create vibrant, inclusive communities where everyone thrives".

The Your Councillor Community Fund is open now and closes in January 2025.

To apply for money from this year's Your Councillor Community Fund you should contact your Epsom and Ewell Councillor. They are:

Epsom Town & Downs Steven McCormick Epsom Town & Downs Residents Association Steven.McCormick@surreycc.gov.uk

Epsom West Bernie Muir Epsom West Conservative bernie.muir@surreycc.gov.uk

Ewell John Beckett Ewell Residents Association john.beckett@surreycc.gov.uk

Ewell Court, Auriol & Cuddington Eber Kington Ewell Court, Auriol & Cuddington Residents Association Eber.Kington@surreycc.gov.uk

More information can be found here **Your Councillor Community Fund - Surrey County Council (surreycc.gov.uk)**.

Examples of projects funded last year include:

£1,493 to help make Spelthorne cleaner and greener by providing group litter picking equipment which can be loaned out to encourage individuals, groups and schools to adopt an area for regular picking and to take a pride in their local environment.

£2,000 towards equipment for the 2023 Shepperton Village Fair, including banners, sail flags, display board and cashless payment devices.

£700 towards replacing a 25-year-old table tennis table used by Leatherhead U3A Table Tennis Group, helping to keep

members physically and socially active.

£1,000 towards new uniforms for Godalming Youth Band. The new polo shirts and hoodies are more suitable for events all year round and will be loaned out, much like the instruments, to help keep music-making as accessible as possible.

As well as Your Councillor Community Funding, there is also funding available via Your Fund Surrey for small and large community projects. Visit www.surreycc.gov.uk/yourfund to find out more.

Inclusive sportsmanship in Worcester Park

7 June 2024

The annual Linden Bridge Football Festival kicked off with a vibrant display of teamwork, camaraderie, and sheer determination. Organized by **Linden Bridge School**, Worcester Park, and led by enthusiastic pupils, this event brought together 15 special educational needs (SEN) schools and over 100 pupils for a day of spirited competition.

The festival, held at **Wandgas Sports Ground**, exemplified the inclusive spirit that Linden Bridge School stands for. Students of all abilities participated in various football matches, showcasing their skills and passion for the beautiful game. From footgolf to mini-tournaments, the atmosphere was electric as players cheered each other on.

One of the festival's highlights was the unwavering support from local businesses. **MetroRod**, a leading drainage and plumbing company, stepped up as the main sponsor. Their generous contribution ensured that every participant received a commemorative medal, a symbol of their hard work and dedication. In addition, MetroRod provided trophies for all participating schools, recognizing outstanding performances and sportsmanship.

Coach Dom, from **KEY Sports Academy**, played a pivotal role in making the festival a success. His expertise in organizing sports events and passion for nurturing young talent shone through. Coach Dom lent equipment and offered valuable coaching tips. His commitment to empowering young athletes was evident as he encouraged fair play and teamwork.

"The Linden Bridge Football Festival is more than just a tournament," Coach Dom shared. "It's about fostering a love for sports, building confidence, and creating lasting memories. These students inspire us all with their determination and resilience."

The **Surrey Special Schools Sports Association (SSSSA)** includes the Linden Bridge Football Festival as a key event in its annual calendar. Linden Bridge School takes immense pride in being an active member of the association. This year alone, Linden Bridge pupils have participated in 25 SSSSA-organized events across various sports disciplines.

"Our students thrive when given the opportunity to compete," said Mr. **Borja Vidal**, PE Lead at Linden Bridge School. "The festival allows them to showcase their abilities, make friends, and celebrate their achievements. We're grateful to everyone who made this day possible."

The Linden Bridge Football Festival reminded us that sports transcend barriers, bringing people together in the spirit of unity and joy.

With the success of this year's festival, Linden Bridge School is already planning for next year. The goal remains the same: to create an inclusive platform where every student can shine, regardless of their abilities. As the festival becomes a cherished tradition, it reinforces the belief that sports have the power to transform lives.

Bed pressures rushing doctors

7 June 2024

Pressure to free up hospital beds can “rush” clinicians to make under-informed decisions and discharge plans, a coroner has found.

A man who tragically died from hypothermia and chronic alcoholism in **Epsom General Hospital** prompted a coroner to raise concerns that demands on beds can put patient safety at risk.

A local man was admitted to hospital three times from October 22 to December 5, 2022. Each time, the underlying cause of his condition was not diagnosed and he was soon after found to be medically fit for discharge. He died on December 12 2022, after being found profoundly hypothermic the previous day.

Coroner **Caroline Topping** found: “Pressure on staff to vacate hospital bed spaces led to inadequate discharge planning and more than minimally contributed to the death.”

It was accepted by the Epsom and St Helier NHS Trust that pressure to vacate hospital bed spaces contributed to the inadequacy of discharge planning. The coroner ruled the need to free up a bed space led to the patient’s rushed release on December 5, 2022 without an adequate care plan being in place.

Nationally, the NHS faces significant pressures to use beds as efficiently as possible. The Trust said it will never willingly compromise a person’s safety by discharging them sooner than it should.

Clinicians and staff discharged the patient without knowing what underlay his deterioration and how his ability to self-care was impacted.

His expressed wish to go home alone was “erroneously” relied on to justify an “unsafe” discharge on the basis he had capacity to make a decision, according to the coroner’s prevention of future death report.

An inquest on March 12 2024, heard how the man was suffering from alcohol related brain damage, impacting his mobility and fluctuating confusion. Malnourished, as a result of his chronic alcohol use, his health had declined and he lost a significant amount of weight over the summer.

Continuing to “abuse alcohol”, he was self neglecting and his ability to live alone was reduced. He developed hypothermia in an inadequately heated flat and had not been eating properly.

Contrary to NHS policy, the man was not identified as a vulnerable patient. Any adult unable to take care of themselves (e.g. alcohol as a risk factor) is defined as a vulnerable adult.

The coroner found there was a lack of information sharing and investigation in relation to the discharge planning for the patient.

Reportedly unaware of the discharge planning policy, staff made decisions in a vacuum. There was no understanding of the man’s recent history of frequent admissions, his diagnosis or sufficient investigation of his home circumstances.

The man’s family was not involved in the discharge planning. Concerns were raised by the family on a number of occasions about his ability to look after himself. No heed was paid to these worries and the man was discharged on December 5 to live at his own flat without an adequate care plan in place. He died a week later.

The coroner’s report states the Trust has already put in place a number of improvements around effective information sharing and recognition of safeguarding issues, including self-neglect.

However, she “remained concerned” that the hospital’s discharge policy remains under review, including how families are involved, meaning it has not been possible to access how effective it is.

The coroner wrote to St George’s Epsom and St Helier Hospital Group and NHS England to raise her concerns, which also included pressure to vacate beds leading to rushed under informed decision making and ability to prepare ‘properly considered’ discharge plans, urging them to take action to reduce the risk of future deaths.

A Trust spokesperson said: “We are deeply sorry that we didn’t give [the man] the care that he and his family were entitled to expect, and our heartfelt apology and condolences go out to [his] family.

“We took immediate steps to review our discharge process, adding in additional checks, greater contact with families of vulnerable patients and we have also improved safeguarding training for our staff.”

Epsom and St Helier Hospital added they will respond fully to the coroner’s concerns within the set timeframe, by June 12, 2024.

Rated as ‘good’ in an inspection in 2019, the Care Quality Commission (CQC) said it has received the coroner’s report on the hospital. The CQC said, as always, it will utilise the information during its forthcoming engagement meetings with the Trust.

County lines of trees

7 June 2024

Surrey County Council has worked with residents and community groups to plant over 36,000 new trees across the county. The council remains on track to plant 1.2 million trees by 2030, marking one for every resident.

Since the launch of the initiative in 2019, over 510,744 trees have now been planted across the county. This year, 1952 metres of new hedgerows have been planted during this year's tree planting season, offering habitats for wildlife.

A range of community projects have also been undertaken to support our ambitions to improve air quality and biodiversity. These include:

- A group of 180 community members came together to plant over 7300 hedgerow trees at Bocketts Farm to support birds, mammals and other wildlife.
- 42 trees were donated to Bronzefield Women's Prison in Ashford and the tree Planting and Establishment team delivered a workshop to those women who were undertaking horticultural qualifications.
- 2625 native broadleaf trees were planted in The Priory C of E School in Dorking using an experimental planting technique, Miyawaki/Tiny Forest. This technique of dense tree planting restores naturally occurring native species and speeds up natural ecological succession.

The new webpages have also been developed to include an interactive tree map, tree planting advice and tips for how residents can get involved. More details are available [here](#).

Marisa Heath, Surrey County Council Cabinet Member for the Environment, said, *"I'm delighted that we are progressing our ambition to plant 1.2 million new trees in Surrey as we work to both meet net zero targets but also make our county as green and beautiful as possible.*

*"This is not something we can deliver alone and we will continue to work with our partners and communities to achieve this target. I encourage residents to visit our new **webpages** to find out how they can get involved."*

Tarbuck's luck comes to Epsom

7 June 2024

Comedian **Jimmy Tarbuck** popped into Epsom General Hospital recently - and made a serious bit of business great fun.

He was in the Urology Department to present a "new toy", a £10,975 TULA Laser Machine on behalf of Epsom Medical Equipment Fund (EMEF).

Surgeons love new toys and this one saves lives. The comic heard from Consultant, **Deji Akiboye** how this new treatment for bladder cancer helps treat cancers without the need for sedation or anaesthetic. Patients come in and have their condition treated, pain free and walk out of hospital in less than one hour. The tiny laser goes through a flexible telescope inserted into the bladder.

The consultant added: "We use this laser to fry abnormal areas in the bladder which are cancerous. Traditionally this involved a full anaesthetic and a stay in hospital, sometimes with a catheter.

“With this treatment, it means we can do away with all those things and treat people far more quickly, painlessly and let them get back to normal living faster. It is fast, efficient and effective – plus it’s also great fun to use for us surgeons who love new toys.”

Charlotte Druce, General Manager, Surgery & Endoscopy Surgery Directorate, Epsom and St. Helier University Hospitals NHS Trust thanked EMEF organiser, **Bess Harding** for helping to make this particular dream come true.

Bess added: “With the support of the local community, we raised the money for the TULA which is an important part of the treatment”.

Find our more and donate to EMEF.

Community fund open for bids

7 June 2024

Epsom & Ewell Borough Council is inviting community groups and organisations to bid for neighbourhood funds raised by the Community Infrastructure Levy (CIL), to deliver projects that will support new development and benefit Epsom & Ewell residents across the borough. Bidding opens on 7 May for six weeks, closing on 18 June.

The CIL raises funds from developers in recognition that new development creates pressure on local infrastructure. It is spent on the provision, improvement, replacement, operation, or maintenance of local infrastructure. Epsom & Ewell Borough Council has invested more than £210,000 from the 2022/23 Neighbourhood CIL Fund in community infrastructure projects including:

- Replacing playground equipment in Rosebery Park and Alexandra Recreation Ground
- Repairing pathways in Nonsuch Park to ensure they are safe and accessible
- Upcoming works to support biodiversity and improve visitor experience, including an additional new bench, at Stamford Green Pond.

Councillor **Steven McCormick**, (RA Woodcote and Langley) Chair of the Licensing and Planning Policy Committee, said “I strongly urge local community groups and organisations to take this opportunity to bid for funds for community projects and initiatives that can improve quality of life for residents in Epsom & Ewell.

The Neighbourhood Community Infrastructure Levy Fund offers us the chance to deliver projects that have a real impact on our communities, for example enhancing access to the countryside, improving accessibility and facilities in our parks and open spaces, improving health and safety for example by installing public water fountains, and more.”

The bidding process is designed to be as clear as possible. Information on the process can be found in section 6 of the CIL Spending Protocol.

Bids will be shortlisted using the criteria set out in section 7 of the CIL Spending Protocol. Shortlisted bids will be presented to the Licensing and Planning Policy Committee for approval and, for any spend over £50,000, then to the Strategy and Resources Committee.

From blow your hair to blow your mind?

7 June 2024

Nescot college in Ewell, Surrey is investing £650,000 to transform a hair studio on campus into a virtual reality (VR), immersive space for its students. The state-of-the-art technology, currently being installed, will be used across a wide range of courses on offer at Nescot and includes driving simulators and immersive learning spaces which work with a variety of artificial intelligence (AI) tools. This will allow students to gain specialist skills and experiences, like driving a forklift truck, or navigating a busy A&E ward, without even leaving the classroom.

Nescot will have a range of cutting-edge technology, including an Igloo, immersive room, and vehicle simulators. The Igloo is cylindrical, six metres in diameter and features a 360-degree projection system that can 'transport' groups of students around the world. It offers things like virtual field trips, design opportunities and gaming development. It can also recreate complex activities or hazardous environments so students can safely learn.

A suite of four advanced simulators will provide vehicle handling training for a wide range of machinery, from cranes to fire engines. These simulators, alongside virtual reality headsets, will mean students can work together to refine their driving or operation skills in a realistic scenario where multiple machines or vehicles are in use.

The immersive room has a projection system which equips all the walls with screens. Two of the screens are interactive and respond to touch, creating a hands-on learning experience. Two ultra-high-definition screens are also incorporated, and cameras enable instructors and students to magnify objects of interest and project them onto any of the four screens, facilitating discussion. The technology also brings remote learners into the classroom via a dedicated video call screen.

The facility further cements Nescot's reputation as a hub of innovation, having recently opened robotics, AI and cyber security facilities as part of its Institute of Technology. The staff/student hair studio, which was a commercial salon and not a learning space for students, has already moved out of the space and has been relocated nearby. There is no impact at all on the Nescot hairdressing course, which is still a valued part of the curriculum.

Julie Kapsalis, CEO and Principal at Nescot said "We pride ourselves on innovation, and giving our students the best experience at Nescot, so we're adopting this cutting-edge technology which will be a game changer. It can virtually transport students around the world to learn, allows them to safely practice dangerous scenarios, and is a fun and exciting way to boost motivation, creativity, and engagement. We can't wait to get it installed."

Somayyeh Clifton, Head of Quality Improvement & Innovation at Nescot said "This is not just for students doing IT related subjects, we expect it to be used across the whole curriculum, giving students the skills and experience they need to succeed in the modern world. We've come a long way since teaching from the front of the room and we really value the importance of learning through experience. We're keen to get prospective students along to our open days to find out more about this, and what we'll have to offer in the next academic year."

Julie and Somayyeh are both part of AI in Education initiative, with Julie sitting on the Strategic Board and Somayyeh on the Practitioners Panel. AI in Education aims to support and advise schools and colleges so they can maximise the benefits of AI and minimise the risks.

The funding to create the immersive space has been provided from the Government's Local Skills Improvement Fund, a project which aims to support local people into work. Nescot is working with other local colleges and universities to better support the skills needs of the labour market in key areas identified by local businesses - CreaTech, Advance Manufacturing, Engineering and Construction, Digital, and Employability and Professional skills.

As well as being beneficial for Nescot students, the college will be encouraging local businesses to get involved, by using the technology to train staff. Partnerships with business and enterprise are invaluable for both parties as organisations get to access cutting edge training and learning resources, plus a pool of talented, experienced students who can enter the workforce via apprenticeships, work placements and post-college recruitment.

Nescot offers college courses for school leavers and adults, with a wide range of career-focused vocational courses including Animal Care, Business, Computing and IT, Construction, Performing Arts, Childcare, Health & Social Care and Beauty Therapy. The college has two events coming up, where prospective students can see what's on offer, and learn more about the immersive classroom as it's being built.

- Open evening, Wednesday 22 May 2024, 4.30 - 7.30pm
- Summer fair, Saturday 15th June 2024, 10.00am - 2.00pm

To find out more, call 020 8394 3038, visit www.nescot.ac.uk or email adviceteam@nescot.ac.uk

Local businesses interested in using the immersive classroom for training, or working with the college on apprenticeships, work placements or recruitment should contact businesscentre@nescot.ac.uk or call 020 8394 8593.

Meat-free Mondays coming to all Surrey schools?

7 June 2024

Meat-free and plant-based options could be mandated across Surrey schools every Monday according to new council guidance. Only some Surrey schools currently participate in a form of 'meat-free Monday' so the new food strategy would expand its remit.

The new policy forms part of the so-called Surrey Healthy Schools initiative. The initiative aims to address food insecurity, reduce climate impact of the local food system and support the local population to keep a healthy weight by improving the accessibility and affordability of nutritious food.

Speaking at a Surrey County Council (SCC) meeting on April 29, Officer Marisa Heath said: "I don't think meat-free Mondays is too much to ask for one day a week. We're still giving six days a week for people to make other choices so I don't think it is draconian or heavy handed."

Council officers said the preferred menu would prioritise fruit, vegetables and legumes- rather than processed, plant-based meat alternatives. Only schools signed up to the Surrey Healthy Schools will be part of the initiative, including all SCC public schools and some private schools.

Framing the programme as being to "educate and not dictate", Cllr Mark Nuti (Conservative/ Chertsey) said the policy is empowering individuals and families to make informed and healthy food choices.

The committee discussed the importance of sustainable and locally sourced farming, as well as cutting meat to decrease carbon emissions and environmental resources. It was noted that 'plant-based' food was not always "nutritional", but that children needed fibre from fruit and vegetables.

The new strategy aims to increase children's nutrition and combat obesity, as well as increasing sustainability and environmentally conscious eating. Around 1,210 of 9,355 Year 6 pupils measured in Surrey were classed as obese or severely obese in 2022-23, NHS figures show.

Healthy food, such as fruit and vegetables, are often out of reach for many parents on low incomes who prioritise affordability over nutrition. The amount of vegetables being purchased in the UK has fallen to its lowest level in 50 years, according to The Food Foundation.

"Levelling up is not just about buildings, it's about people," Officer Marisa said. "It's about their wellbeing, mental and physical, and allowing them to reach their [potential]."

Councillors argued the strategy must be adaptable to children who may suffer with eating disorders, have neurodiversity requirements or medical issues, and not be able to eat (or do not want to eat) plant-based food.

In a heated debate, concerns were raised about the policy going 'too far'. Cllr Trefor Hogg (Conservative/ Camberley East) said an extension to adults and elderly people with dementia could mean "being confronted with things they just can't cope with".

He added: "My particular concern of those who are in any form of social care have had their liberties and freedom restricted to some degree. It's very very important that they have a full choice. This is particularly important where there are neurodiverse and mental health issues as well. I think we should be very explicit on the subject. I would be very concerned about the adults and the elderly being confronted with things they just can't cope with."

Meeting documents stated the eating environment should be inclusive and social as restricting to plant based only options may make some feel excluded.

Surrey Uni joins top beam team

7 June 2024

The creation of a first-of-its-kind imaging system at the **University of Surrey** could help the UK lead a revolution in

materials sciences. The new facility promises a better understanding of the effects of pharmaceuticals and could eventually lead to better drug development.

Thanks to a £3 million grant from the Engineering and Physical Sciences Research Council, Surrey will work with the UK SME Ionoptika and the University of Manchester to deliver a new Multimodal Ion Beam Imaging Facility, which will allow researchers and businesses to understand materials at an unprecedented microscopic level.

Professor **Melanie Bailey**, Principal Investigator of the project from the University of Surrey, said:

“The fact that Surrey and, indeed, the UK has the ambition to build this truly unique facility should not only excite researchers in academia and industry, but it signals that we are serious about breaking new ground in a range of scientific areas.”

The facility will house a “multimodal 3D elemental and molecular imaging system at a sub-micron scale”. This highly advanced system, similar to a powerful microscope, will be able to see the tiniest details of materials and molecules, smaller than a speck of dust.

The new system will be the first in the world to use beams of charged particles at high and low energies to measure biological systems and materials. The high-energy beams will be delivered by a particle accelerator at the UK National Ion Beam Centre, a national research facility funded by EPSRC and led by Professor **Roger Webb** at Surrey. The system will produce X-rays, gamma rays, and particles, and the combination of this information will give a detailed map of the elemental and molecular makeup of materials.

Professor Roger Webb, co-investigator of the project and Director of the Surrey Ion Beam Centre, said:

“This is a really exciting development for the Surrey Ion Beam Centre. We have been a national research facility since 1979, and we support over £100 million in funding from more than 30 universities. This is one of several upgrades to our centre, and we are looking forward to opening our doors to researchers across the UK to make the most of this investment.”

Surrey’s new facility is expected to benefit more than 25 UK universities and companies in health, energy, technology, and engineering.

Professor **Paul Townsend**, co-investigator of the project, said:

“There is currently nothing in the world quite like this new facility of ours. It signals to the global scientific community that the UK means business. We are confident that we will attract researchers worldwide to use this facility, giving the UK an edge in materials science.”

Along with medical breakthroughs, Surrey’s researchers believe the facility could help the energy sector create more efficient solar cells and durable batteries. The team also hopes this project will allow them to understand pollutants better and develop new ways to reduce climate change.

Paul Blenkinsopp, Managing Director of Ionoptika, said:

“Ionoptika is delighted to have been chosen to build the new imaging system in collaboration with Surrey. Whilst an SME, we have established ourselves as global experts in ion beam technology over the past 30 years and will be very proud to bring our decades of imaging expertise to this unique facility.”

This project contributes to the United Nations Sustainable Development Goals (SDG), especially SDG 3 (Good Health and Wellbeing), SDG 7 (Affordable and Clean Energy) and SDG 13 (Climate Action).

Epsom UCA alum praised by Taiwan President

7 June 2024

Leo Tsao graduated from UCA in 2017 with a BA (Hons) in Fashion Atelier.

He has just won season 16 of **RuPaul’s Drag Race** as his banana-themed glamazon Nymphia Wind.

Chip Harris, Programme Director in Fashion at UCA, who taught Leo for the entirety of the course and helped manage his final collection, said: “Leo developed a great range of skills on the course and as a very conceptual thinker, he was always ambitious and individual in his approach. Leo’s graduate collection epitomised this, which demonstrated an exceptional technical and creative skillset that was also selected to show at Graduate Fashion Week.

“I am not surprised to see his ascension within the RuPaul’s Drag Race universe, and it is good to see that he used his

skills to showcase amazing costumes, styling and visual narratives.”

UCA President & Vice-Chancellor, **Professor Jane Roscoe**, added: “The whole of UCA, and especially our School of Fashion and Textiles, is celebrating the unique and incredible talent of Nymphia, and her victory in RuPaul’s Drag Race. As ‘America’s Next Drag Superstar’, we are so excited to see what she does next!”

Among the high-profile people congratulating Nymphia on her win, was the **President of Taiwan, Tsai ing-wen**, who said: “Congratulations to you, Nymphia Wind, for being so accomplished in the difficult art form of drag, and for being the first Taiwanese to take the stage and win on RuPaul’s Drag Race. Right after being crowned queen, you said ‘Taiwan, this is for you’. Taiwan thanks you for living fearlessly.”

Equine-Facilitated Psychotherapy: Healing Through Connection

7 June 2024

Sponsored article:

Are you looking for a unique and powerful approach to therapy that incorporates the healing power of horses? Look no further than Equine-Facilitated Psychotherapy (EFP) at D.E.A.P Healing. We have an experienced clinical psychologist and an equine specialist that conduct the sessions along with our herd of 6 Arabian horses.

EFP is a cutting-edge form of therapy that combines traditional psychotherapy techniques with interactions with horses to promote emotional growth and healing.

Horses are incredibly intuitive animals that can mirror human emotions and provide valuable feedback to clients in a non-judgmental way. This can lead to profound insights and breakthroughs in therapy sessions.

At our EFP clinic, our team of licensed psychologists and skilled equine specialists work together to create a safe and supportive environment for our clients. Whether you are struggling with anxiety, depression, trauma, or simply seeking personal growth, EFP can help you connect with your emotions, build self-awareness, and develop valuable life skills.

Through activities such as grooming, leading, and observing horse behaviour, clients can learn valuable lessons about communication, boundaries, trust, and empathy. These lessons can be applied to everyday life and relationships, leading to lasting positive changes.

EFP is suitable for people of all ages and backgrounds, and no prior experience with horses is necessary. Our gentle and well-trained horses are selected for their calm and empathetic nature, making them ideal partners in the therapeutic process.

Experience the transformative power of Equine-Facilitated Psychotherapy and discover new paths to healing and personal growth. We have found in our practice that less EFP sessions are needed than traditional talking therapies because of the profound effect from the horses.

Contact us today to schedule a session and take the first step towards deep healing.

Excellence in aging for LGBTQ+

7 June 2024

More can be done to make sure LGBTQ+ adults age with dignity and their needs are met in the UK, say researchers from the **University of Surrey**. Together with Tonic Housing, the UK's first LGBTQ+ affirmative retirement community, researchers from Surrey are launching The Life House Project - a participatory theatre-based initiative to explore the unique housing and care needs of the LGBTQ+ community in London.

Many LGBTQ+ individuals face anxieties about housing and care as they age. The Life House Project aims to address these concerns by providing a platform for older adults to share their experiences and explore solutions collaboratively.

Through seven workshops and one-on-one interviews, the project will create a space for participants to use creative expression through theatre, scriptwriting, and poetry. This approach will help participants tell their stories and highlight their specific needs and desired forms of support.

Dr **Georgia Bowers**, Lecturer and Programme Leader of Applied and Contemporary Theatre BA (Hons) at the Guildford

School of Acting and lead researcher, said:

“We are particularly interested in how creative methods can support LGBTQ+ older adults to not only share their own experiences but also become advocates for themselves and the wider LGBTQ+ community. By communicating their concerns and aspirations through theatre and creative expression, we hope to ignite a conversation that leads to a more inclusive future for individuals in terms of housing and care.”

Dr **Richard Green**, Surrey Future Fellow at the University of Surrey, said:

“We are excited about the potential of theatre and creative expression to empower LGBTQ+ older adults to share their stories and advocate for better care and housing options.

“This project goes beyond simply collecting data; it’s about creating a space for authentic expression and collaboration. By working together with participants to explore their needs through creative mediums, we aim to amplify their voices and create a lasting impact on how LGBTQ+ care is approached.”

Professor **Andrew King**, Head of Sociology and Co-Director of Surrey’s Centre of Excellence on Ageing at the University of Surrey, said:

“The Life House Project can make a significant contribution to creating more inclusive and supportive housing and care environments for LGBTQ+ people. It provides a new interdisciplinary and creative approach to highlight often hidden inequalities and issues and we hope it will influence policy changes and inspire service providers to create spaces where individuals can truly feel safe, valued, and supported as they age.”

A celebratory event will also be held on Monday 24 June, to coincide with London Pride week. This event will showcase a project film documenting the journey of The Life House Project and its impact on participants. The event will also serve as an opportunity to connect the project’s findings with the broader LGBTQ+ community and discuss potential solutions for creating more inclusive and supportive housing and care environments.

Bob Green OBE, Head of Operations at Tonic Housing said:

“Tonic is very excited to take part in the University of Surrey’s Life House Research Project. The use of theatre and drama to examine the themes of housing and care in later life has piqued the interest of many residents and it has attracted other older LGBT people from outside Tonic.

“We are particularly interested to learn about residents’ experience of living in the UK’s first LGBT+ Retirement Community as well as how housing and care services for older LGBT people can be improved.

“Some older LGBT people have had terrible experiences in the past but having worked with University of Surrey researchers, we value their inclusive approach and supportive attitude, so we look forward to exploring challenging incidents safely and positively.”
