

Commemorating a dedicated local Councillor

7 August 2023

On Tuesday 31st July a small group of Cuddington residents gathered at the lawn behind the GP surgery in Shadbolt Park to commemorate the tragic death of **Cllr Rob Foote** on July 31st 2021. Rob was a volunteer race Marshall based at Goodwood and he had volunteered to be a trackside race Marshall at Brands Hatch on that Saturday in 2021. Two cars collided on a bend and one was sent hurtling into Rob's trackside hut. He was killed instantly. He had recently suffered the loss of his wife Rosemarie, after a long fight against cancer and he was slowly getting his life back together helping in the sport that he loved.

Rob was a ward councillor in Cuddington for 18 years and he and his wife were Mayor and Mayoress in 2014-15. The small ceremony was attended by Deputy Mayor Cllr Steven Bridger and his wife Carol together with Cuddington ward councillors Kim Spickett and Phil Neale, RA Chair Wendy Leveridge, RA treasurer David Eames and many local residents.

The bench was donated by Rob's family in Bristol.

Image from left to right – Brian Angus, former mayor and close friend of Rob & Rosie, Deputy Mayor Cllr Steven Bridger and Deputy Mayoress Carol Bridger, Cllr Phil Neale, David Eames-treasurer of Cuddington RA, Wendy Leveridge-chair of Cuddington RA, Cllr Kim Spickett, stand up image of Rosemarie Foote, Margaret Angus and stand up image of Rob Foote.

Cllr **Phil Neale** welcomed the residents, friends and colleagues of Rob And Rosemarie Foote saying “ We thank the Deputy Mayor and Mayoress for representing the Borough at this event and to you all for attending this simple ceremony to mark the second anniversary of the tragic accident on Saturday 31st July 2021 when Rob was killed at Brands Hatch racing circuit whilst volunteering as a safety marshall at the trackside. The whole of the sport, that weekend, recognised the dedication and sacrifice that Rob had made for their sport and spontaneous donations totalled more than £60,000 which went to providing a safety minibus stationed at the Goodwood racing circuit, where Rob was a member of the Safety Marshalls' Club.”

The memorial bench installed in **Shadbolt Park** by Epsom & Ewell BC was donated by the Rob's sister, **Sheree Foote**, which along with a memorial oak tree planted last year will stand as a lasting symbol of the dedication and work that both Rob and Rosemarie gave to the borough in the eighteen years that he was a councillor and mayor and mayoress in 2014-15.

Epsom's child-play hobbled by e-coli

7 August 2023

The popular adventure park off Horton Lane in Epsom known as **Hobbledown** has temporarily closed. This follows reports by the UK Health and Security Agency that three children who had visited the park had developed symptoms consistent with STEC (Shiga toxin-producing Escherichia coli)

Most E. coli strains do not cause disease, naturally living in the gut, but virulent strains can cause gastroenteritis, urinary tract infections, neonatal meningitis and other conditions.

Nick De Candole, the owner, published a statement on the business's website as follows:

“We have been informed by health authorities of a very small number of cases of an E. coli infection in individuals who recently visited the Park. After learning of this we immediately and voluntarily closed the Park as a precaution.

We are in close contact with Epsom & Ewell District Council Environmental Health team and also the UK Health Security Agency and co-operating fully with both on their respective investigations.

I have written to everyone who visited between 11 and 27 July to inform them of the situation and included with this a letter from the UKHSA with further information and guidance.

We are offering those who have booked to visit while we're closed options to reschedule or a full refund, plus 50% off next visit.

I can assure everyone that the wellbeing of visitors to Hobbledown is our absolute priority and we do everything in our power to keep guests safe. We look forward to welcoming everyone back soon."

Epsom and Ewell Borough Council advises "The symptoms of STEC , which include diarrhoea and stomach cramps, usually resolve themselves over a few days, but can occasionally lead to more serious outcomes. If you or someone in your family are showing symptoms of STEC, including bloody diarrhoea, and have visited the farm since 12 July, please contact NHS 111."

Personal injury adviser Claire Glasgow of law firm Field Fisher explains why E.coli must be taken seriously. "Several children involved in past claims for damages for negligent exposure to the E.Coli O157 bacteria subsequently developed HUS (haemolytic uraemic syndrome). HUS can lead to very serious complications including high blood pressure, heart failure, kidney failure, diabetes, seizures, neurological damages, coma, and, in severe cases, brain damage.

"An additional concern for the families involved is the uncertainty of the impact of the infection on their children as they grow up. At the very least, they face regular and ongoing hospital tests and live under the stress of potential long-term health problems."

Urning a big profit on rare Epsom find

7 August 2023

A young Epsom couple will be making a large donation to charity after the miniature vase they purchased in an **Epsom** charity shop for £2.50 sold this weekend at auction for £6300.

The beautiful black Japanese cloisonne 4-inch-high vase by Namikawa Yasuyuki, featuring a cockerel, hen and chicks was created during the late 19th century. The same technique was used to create the taller red vase shown, which I purchased from the Debra charity shop in Ewell Village a few years ago.

Whilst charity shops, like Debra in Ewell and the one in Epsom the young couple visited, are always on the lookout for Asian treasures, due to the profitable Chinese and Japanese antique markets, work of the quality of Yasuyuki rarely finds its way onto the bric-a-brac shelves of charity shops; so it is not difficult to understand how the fine detailed cloisonne work was overlooked and perhaps mistaken for a transfer print. Note how different the red Debra charity shop Japanese cloisonne vase looks to the young Epsom couple's find.

Cloisonne is the technique of creating designs on metal vessels with coloured glass paste which is placed within enclosures made of copper or bronze wires attached to the vessel. Then the vessel is fired in a kiln at a temperature of about 800C.

Although there were markings on the base of the black cloisonne vase, it would have taken an expert to understand the significance of these, which is why the young Epsom couple contacted Canterbury Auction Galleries who succeeded in selling the much sought after vase today. The auction house had sold a larger vase by Yasuyuki for £29,000 in April 2019.

The Epsom couple that found the Yasuyuki cloisonne vase have generously pledged to make a large donation to the Epsom charity shop they purchased the vase from.

The finders intend to treat themselves to a well-deserved holiday with the remaining sale proceeds.

DEBRA was established in 1978 by Phyllis Hilton, whose daughter Debra had epidermolysis bullosa (EB), as the world's first patient support group for people living with EB. Epidermolysis bullosa is the name for a group of painful genetic skin conditions that cause the skin to become very fragile and tear or blister at the slightest touch.

The local branch can be found at 78 High St, Ewell, Epsom KT17 1RE

Nonsuch girls solving tomorrow's problems

7 August 2023

Samsung Electronics Co. (UK) Ltd has revealed today the winners of its third Solve for Tomorrow: Next Gen Competition, with a refreshed set of resources for 2023 on the theme of inclusivity.

593 secondary schools across the UK and Ireland signed up to receive free online resources including an interactive video tutorial to help inspire the next generation of innovators. Through the lesson, students aged 11-15 learn the basics of Design Thinking and receive insight into creative STEM careers such as design and marketing.

Samsung colleagues also volunteered their time to support with delivering the lesson in schools, judging entries and answering questions about their career. Students then entered their tech-for-good ideas to help design a future where everyone belongs into the Solve for Tomorrow: Next Gen Competition.

Dimanya, Dora and Marina from **Nonsuch High School for Girls**, (located Ewell's borders) were awarded 1st place in the 13-15 category with 'Signify', an app that helps people with hearing impairments by educating the public about sign

language and how to communicate considerately with this community.

In the 13-15 age category, the runners-up were Ella, Mischa and Saliha from Nonsuch High School for Girls - awarded 2nd place for their app 'Beaumatch' to help people with darker skin tones find their right match of makeup, haircare, and skincare.

Commenting on the competition, Soohyun Jessie Park, Head of Corporate Social Responsibility at Samsung Electronics UK, said: "The calibre of ideas that our Solve for Tomorrow: Next Gen participants come up with is mind-blowing, proving world-beating innovations really can come from anyone and anywhere. We were thrilled to receive over 1,000 ideas from across the UK and Ireland this year and will continue to find new ways to support our next generation of innovators. Technology is a brilliant enabler of solutions to many of the issues our world faces, and the entries we receive show that young people are maximising their imagination and learning in abundance."

About Solve for Tomorrow

Solve for Tomorrow originally launched in the US in 2010 and has since seen more than 2.3 million students take part from over 55 countries, in a quest to use technology as a force for good. Every year, the competition is open to young students from all backgrounds with no experience or qualifications needed, empowering the next generation of creators and innovators to imagine a better world, thinking about ways technology can solve some of society's biggest issues.

Less disability by independent living in Surrey

7 August 2023

Purpose-built housing to support people with learning disabilities or autism to lead active and fulfilling lives in the community has been given the go-ahead at three Surrey sites.

Backed by investment of £24million, the three developments - planned for Horley, Byfleet and Cobham - will between them provide housing for 44 residents who will be supported to gain independence and daily living skills.

Planning permission has been granted for the three sites and with Morgan Sindall Construction now lined up to build them, construction is expected to get underway early next year.

The three supported independent living developments - at the site of the former Manor School in Byfleet, the former Coveham Hostel in Cobham and the former Horley Library - are expected to be ready in 2025 for tenants to move in.

The county council is aiming to reduce reliance on traditional residential care for residents with learning disabilities or autism, or both, and is also considering other potential locations for supported independent living. As well as earmarking sites on its own land, the council is working with independent care providers to further boost available specialist housing.

Mark Nuti, Surrey County Council's Cabinet Member for Adults and Health, said: "With a building contractor and planning approvals now secured, we've reached a significant milestone on our way to developing the first three of our planned new housing schemes for people with support needs so they can enjoy a better quality of life."

"With support from trained staff, residents will be able to take control, make choices in their everyday lives, access more opportunities and play an active part in their communities, whether through volunteering, paid work or other activity of their choosing."

Guy Hannell, Area Director for Morgan Sindall Construction in the Southern Home Counties, said: "We're looking forward to continuing our collaborative relationship with Surrey County Council by delivering this batch of three supported independent living developments. Having recently completed several education projects alongside the county council, I know we share a strong commitment to sustainability and achieving high-quality environments that enhance local communities. This is illustrated by the use of our digital carbon assessment tool Carbonica, which allows us to carefully analyse a project's carbon emissions and ensure that we're creating an efficient building design that will provide accessible, futureproof spaces."

"Not only will we be bringing our experience of delivering award-winning residential developments in the South East to this project, but the innovation and insights gained from creating these facilities will inform Surrey's future programme of supported independent living housing."

Architects' images show how the three housing developments could look. They will be homely rather than institutional and include shared spaces such as landscaped gardens. Support workers will provide care and support tailored to people's needs.

Each development will comprise self-contained one-bedroom apartments. Two developments, in Horley and Byfleet, will

also include, for those who would prefer a group living environment, five-bedroom shared houses. Tenants will be able to make choices about their living arrangements.

The accommodation is part of a wider Surrey County Council programme to enable older people and others with care and support needs to live independently in the community knowing that care is close at hand. It includes:

- **Extra care housing** - plans for 725 new homes across a number of Surrey sites which will give older people the freedom and independence of their own front door and the reassurance that care is on hand if they need it
- **New short breaks accommodation** - two new purpose-built short breaks centres to give adults with learning disabilities or autism, or both, a change from their daily routine and their families a break from their caring roles
- **Mental health needs** - new supported independent living accommodation for people with mental health needs which for some would be a permanent base and for others a shorter stay, to avoid a hospital admission or until they recover

UCA expands at its roots

7 August 2023

Local councillors from the borough of Epsom and Ewell have granted the University for the Creative Arts (UCA) Epsom planning approval to change the use of two centrally located buildings for educational purposes.

The Wells Building on Church Street and Parkside House on Ashley Road signify an expansion of UCA's estate, providing more than 40,000 square feet of additional space and delivering high-quality teaching, learning and social spaces.

The building on Church Street marks a return to UCA's roots, as it is adjacent to no. 1 Church Street, which was previously home to Epsom Technical College and School of Art, its predecessor institution.

Investment in the buildings' construction and reconfiguration is likely to reach around £13 million.

By utilising existing office buildings close to its Epsom campus, UCA will be able to deliver these retrofitted spaces rapidly, in an environmentally friendly way and with minimal disruption to the community, student and staff experience.

The projects will also enhance collaboration with Epsom and Ewell Borough Council, the local community, and residents as the new buildings will provide opportunities and spaces for creativity and innovation and blaze a trail for greater engagement in the town's activities.

UCA's Chief Operating Officer, Mark Ellul, said: "This is a massive step forward in growing our Epsom campus and building on our global reputation as a centre for Fashion & Textiles and Business School for the Creative Industries.

"We must have facilities and functions in place for us to deliver the very best creative education and adding two new buildings to our estate will create a creative learning environment that is fit for the 21st Century."

Works will commence later this year and the plan is to occupy the buildings in 2024/25.

Emma Cook UCA

Reviving nature by the M25 in Leatherhead

7 August 2023

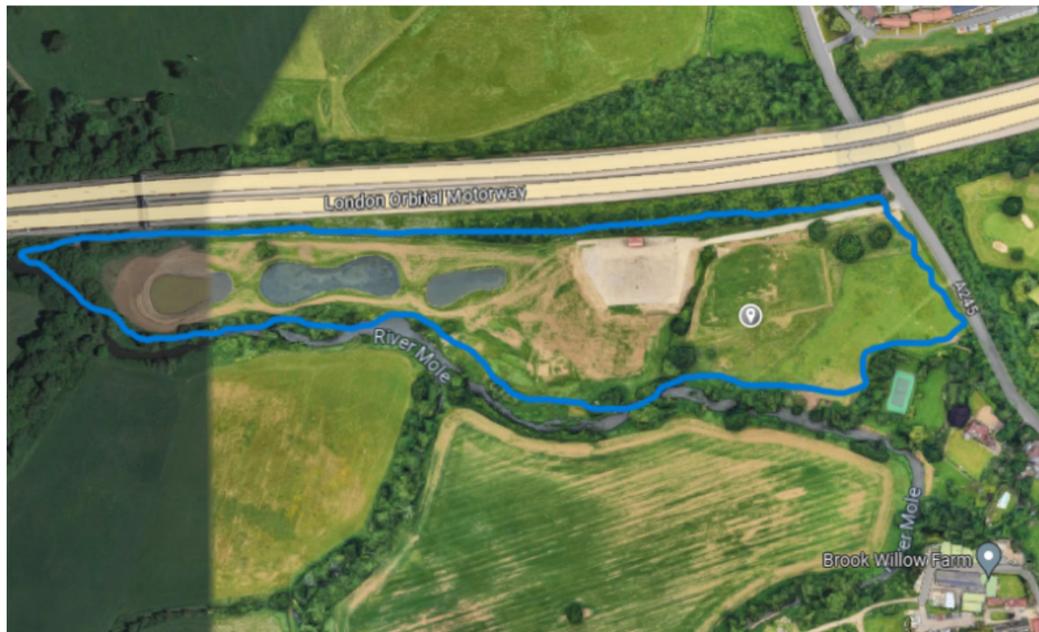

A £2.8million grant has been awarded to a wildlife charity as it aims to fulfil its founder's last wishes. The **Wildlife Aid Foundation**, based in Leatherhead, was founded 40 years ago by **Simon Cowell**.

The money, which **Surrey County Council's** cabinet approved today (Tuesday 25th July) will be used to build a community hub for hosting school, college and community groups, as well as family sessions and talks. The £2.8m represents just less than a quarter of the project cost, with the remainder being raised by the charity.

The Wildlife SOS star, who was diagnosed with terminal cancer in 2022, launched a Simon's Last Wish appeal to help the charity after his death.

Documents for the cabinet meeting, which made the decision on awarding the funding as part of the Your Fund Surrey money that community projects can bid for, say the project has the "potential to have a long-lasting positive impact on the environment and wildlife in Surrey".

A planned wildlife centre would restore land bordered by the M25 and the River Mole, and give the charity a future rescuing and rehabilitating animals in Surrey.

The Wildlife area between River Mole and clockwise carriageway of M25

Mr Cowell said the charity had got far bigger than he ever thought it would when he founded it 40 years ago and praised the 400 volunteers at the charity.

He told the LDRS earlier in the year: "They just do an amazing job, and without them we would not be here. It's as simple as that."

On his cancer diagnosis, Mr Cowell said he was in "total denial of the whole thing". He said: "We all think we won't get it, and when you do get cancer, you've got two choices. You sit in the corner and sulk, or you just ignore it and get on with it while you can. So I've done that, basically."

Emily Coady-Stemp LDRS

Epsom and Ewell Times adds:

After the grant was announced Simon Cowell said: "It's an astonishing fact that a third of Surrey's biodiversity is either locally extinct or heading that way. The power of the Wildlife Aid Centre shows that, by all of us working together, we will be able to change this. We will inspire visitors to carry out regular, small actions which will have significant, positive impact on the environment. And by all of us doing it, our joint strength is enormous.

This amazing funding means we can finish creating the habitats and build a visitor centre that will welcome everyone. I am thrilled that Your Fund Surrey is supporting the Wildlife Aid Centre; together we will create a replicable movement for environmental good that is driven by our communities."

Surrey County Council Deputy Leader and Cabinet Member for Communities and Community Safety Councillor **Denise Turner-Stewart** said: "I would like to congratulate the Wildlife Aid Foundation who have been successful in their application to Your Fund Surrey's Community Project Fund.

"This is fantastic news for the Wildlife Aid Foundation and indeed for Surrey's residents. This is a truly ambitious and inspiring community legacy project. The new centre aligns with our ambition to promote a greener future in Surrey, to help restore and protect the future of the county's natural environment and encourage nature and wildlife to thrive. It will also offer huge benefit, opening the doors for people of all ages and backgrounds to learn more about wildlife conservation."

A £2.9m award given to Guildford's Yvonne Arnaud Theatre in June saw the total amount of money given out from the pot reach £10m since its launch in November 2020.

The Wildlife Aid Foundation is a charity dedicated to the rescue, care and rehabilitation of sick, injured and orphaned animals. Based in Leatherhead, Surrey, UK, the centre operates Surrey County's only wildlife hospital (one of the three largest such hospitals in the UK) and maintains a referral service for wildlife hospitals throughout Europe. The organisation also carries out environmental activist and educational roles. Wildlife Aid has attracted media attention for its rescues of photogenic wild animals like young foxes and baby badgers; Animal Planet's TV program *Wildlife SOS* chronicles the activities of Wildlife Aid volunteers as they rescue imperiled animals

Orphans by mental ill-health and war

7 August 2023

Another tragic life that ended in Epsom and a burial in Europe's largest and now abandoned asylum cemetery. The **Friends of Horton Cemetery's** research project is bringing back to life the lives of the 9000 patients.

Kate Bailey née Cheer was born in 1882 in Abingdon, Berkshire to a farming family. Unfortunately, there is little cheer in this family's story, which makes for a very sad read, tinged with a little mystery as to why her life unravelled.

It is most sad because her death in 1914 left two very young children who were then to lose their father later that year at Ypres, fighting in WW1.

Theresa Kenefick-Conway tells the full story on the website www.hortoncemetery.org

About women's dignity. Period.

7 August 2023

Surrey Fire and Rescue Service (SFRS) have launched an initiative aimed at fostering a more inclusive and supportive environment for women and girls across Surrey.

Following a recent menstrual health education session, the SFRS Community Safety Partnership team is now equipped to provide support and period products to women and girls who need them when they are on duty in local communities.

The initiative is a joint collaboration between SFRS and **Binti** - a charity that provides menstrual dignity to girls and women worldwide.

Bernie Beckett, SFRS Chief of Staff, said: *“Addressing the topic of periods and menstruation can be challenging. However, by launching this initiative we aim to break the stigma and, most importantly, provide period products to those who face challenges in accessing them.”*

“We know that many women and girls lack access to the necessary support and education surrounding menstrual health. Surrey Fire and Rescue Service can provide a vital role in ensuring that women and girls in our communities have access to period products when they need them. We’re delighted to be playing our part in Binti’s menstrual dignity mission, contributing to a more inclusive and supportive environment for women and girls in Surrey.”

Manjit K. Gill, CEO and founder of Binti said: *“Manjit K. Gill MBE CEO and Founder of Binti said: “Working with a forward-thinking organisation like Surrey Fire and Rescue Service, especially in a traditionally male-dominated sector, is truly inspiring.”*

“Their commitment to inclusion for their workforce and their willingness to tackle the issue of period dignity head-on sets a remarkable example for others to follow. By breaking down barriers and fostering a more inclusive environment, we are not only empowering women and girls but also challenging societal norms. It is a privilege to collaborate with such a visionary organisation and collectively drive positive change in the pursuit of gender equality.”

The service will be storing period products on some of its Community and Partnership vehicles. An ‘Ask me for period products’ magnet will indicate to members of the public that period products are available when out in the community or

attending events.

Lighting up for menstrual dignity

Surrey supports mental health projects

7 August 2023

The Surrey All Age Mental Health Investment Fund (MHIF) has awarded funding to 10 projects providing innovative, community-focused programmes to support the prevention of mental ill health and improvement of emotional well-being across the county.

Established in 2022, the MHIF is an integrated funding programme with a total budget of £10.5m. This allocation consists of a £6.5m contribution from Surrey County Council from the specific **1% precept on Council Tax collected from 2022/2023** and £4m from Surrey Heartlands Integrated Care Board. Additionally, the Council has partnered with the Community Foundation for Surrey and secured just under £1m via a match funding arrangement.

Funding is used to support services which are non-statutory; developed by local, community-based groups. The MHIF is aligned to meeting the outcomes of Priority 2 of the Health and Wellbeing Strategy, which focuses on prevention, removing barriers, and supporting people to become proactive in improving their emotional health and wellbeing.

Round 1 of applications took place in December 2022. There were 55 bids submitted of which 10 were successfully awarded funding totally approximately £530,000.

The projects awarded funding include a gardening space to increase access to nature-based therapy, providing support to life-limited children and their families and expanding the provision of a hub that uses drama to support people with mental health challenges.

All bids were assessed by a panel which represents the Integrated Care Board (ICB), Surrey County Council, Cabinet members, the Voluntary, Community and Social Enterprise (VCSE), integrated commissioning representatives and Public Health.

Mark Nuti, Surrey County Council Cabinet Member for Adults and Health, said: *“I’m delighted that the first round of funding has been allocated to a range of different organisations, all working to tackle mental ill-health with innovative, community-focused projects.*

“The successful bids cover a broad age range and are spread across the 11 districts and boroughs of Surrey. We have also approved funding a large bid investing in primary schools across Surrey as part of Round 1, and I’m pleased to say we have already had significant interest in Round 2 of the fund after going live at the beginning of June.”

Round 2 of funding has just closed and bids are currently being evaluated. Information regarding any future rounds of funding will be communicated via our webpage.

Find out more about the MHIF: **Surrey Mental Health Investment Fund - Surrey County Council** (surreycc.gov.uk)

Round 1 Awards:

- **Merstham Community Facility Trust** - support groups for adults, and for children in Merstham, as well as supporting the recruitment and training of 16 further Health and Wellbeing Community Champions in the local community
- **The Lucy Rayner Foundation** - Counselling service to reach people (14-39 years) preventing them from reaching crisis.
- **Catalyst Wellbeing Garden** - Providing a project co-ordinator and a project assistant to develop the gardening space; establish, programme, and run nature-based therapy sessions, providing time and space for holistic support.
- **Prospero Theatre Community Wellbeing Company** - Prospero is an inclusive theatre company, that uses drama to improve the quality of life for adults and young people with disabilities and mental health challenges.
- **Shooting Star Children’s Hospice** - Aiding the provision of mental health support for life-limited children, their family members (including parents and siblings)
- **Emerge Advocacy** - Community-based support following an A&E attendance to catch young people who have recently been in emotional or mental health crisis.

- **Peer Production** - Two full tours of each of Peer Production's mental health plays (Masking and The Space Between).
- **A2 Dominion** - Provision of 'Mind My Home' an online solutions-based therapy project, targeted at low income/social housing tenants.
- **Appeer Community Interest Company** - A project which aims to address the social isolation of young autistic girls, provide early help and resources and support parents and care givers of autistic daughters.

Change at the top at Epsom's University

7 August 2023

Professor Nick Foskett has been named as the interim President & Vice-Chancellor of the University for the Creative Arts. This includes the campus in Ashley Road, Epsom.

Prof. Foskett, currently an independent member of UCA's Board of Governors, will take over from outgoing President & Vice-Chancellor, Professor **Bashir Makhoul**, upon his retirement from UK higher education in September.

"Having served on the Board of Governors, it was an honour to be asked to cover this interim period," said Prof. Foskett. *"UCA is a wonderful university with endless potential and under Prof. Makhoul's leadership is in a fantastic position. I will ensure his legacy continues and is built on so that UCA can continue its impressive trajectory."*

Prof. Foskett is a graduate of Oxford and Southampton universities and has had a long and diverse relationship with higher education, working at some of the UK's leading universities. He was Vice-Chancellor of Keele University from 2010 to 2015, and Interim Vice-Chancellor of Bath Spa University from 2017 to 2018. For around 20 years he held several positions at the University of Southampton, latterly as Professor of Education and Dean of the Faculty of Law, Arts and Social Sciences. Prior to that his first foray into higher education was at Aston University, working in school engagement and external relations.

An expert in education policy and management, Prof. Foskett has sat on and continues to sit on several boards in the UK and globally and has also made a huge contribution to the development of governance frameworks within the higher education sector.

Prof. Makhoul announced his retirement from UCA and from UK higher education in March of this year, after more than six years as President & Vice-Chancellor. Since joining, Prof. Makhoul has steered the University towards its aim of becoming a global authority on the creative industries, forging significant partnerships at home and abroad. He has overseen a five-fold increase in international students studying at the University's UK campuses and spearheading the opening of the Institute of Creativity and Innovation in Xiamen, China, along with the establishment of the UK's first Business School for the Creative Industries.

External recognition of these achievements includes being named Modern University of the Year by The Times and The Sunday Times Good University Guide in 2019 and being granted Research Degree Awarding Powers by the Office for Students.

Prof. Makhoul said: *"I am delighted Prof. Foskett will be overseeing operations while my permanent replacement is found. He has a fantastic track record and understands UCA's unique position as a champion of the creative industries. I wish him all the best for his interim tenure."*

Jeremy Sandelson, Chair of the Board of Governors, said: *"We are delighted Prof. Foskett has agreed to be our interim President & Vice-Chancellor at UCA. We couldn't think of a safer pair of hands to take the helm, and we offer him every support as he leads the University during this time."*

Emma Cook UCA

Contractors occupying the high-ground

7 August 2023

Ewell school benefits from local highway contractors' social value activities.

Milestone Infrastructure, a part of M Group Services, is committed to supporting the communities in which it operates and was delighted to volunteer its services to **West Ewell Primary School** recently by helping to clear a large, abandoned area of the school playground containing a disused swimming pool and outbuildings.

Milestone Infrastructure is the street lighting contractor for Surrey County Council and, as part of its commitment to undertaking social value activities and events throughout the year, the team formed a Social Value Alliance with the council and other highways contractors including Yunex, Atkins, Ringway and Surrey Skill Mill.

A team of 36 volunteers representing the Alliance met onsite to help remove the old swimming pool and outbuildings surrounding it and cut back overgrown foliage to make the area safe and accessible for the school children to use in future.

Once the ground has been cleared and the overgrown vegetation removed, the area will provide an accessible space for the children to use and enjoy in future.

Vikki Kelly, Strategic Improvement Manager at Milestone Infrastructure, said: "Building social value into what we do and giving back to the local communities where we work is a large part of what we do. It was a rewarding day and, together with our alliance partners, we managed to achieve everything we needed to onsite and more."

James Joyce, Business Manager at West Ewell school, said: "We would like to thank Milestone Infrastructure who organised the event but also the other companies that attended: Surrey County Council, Yunex Traffic, Atkins, Surrey Skill Mill and Ringway. On the day they achieved more than you could expect for a day volunteer event and transformed the area, giving the school a regenerated space that can now be used."

Mia Bennett, Head teacher at West Ewell school, added: "We really appreciate the time, effort and resources your teams invested in making this project a reality. The cleared area is now a blank canvas which we plan to transform into a flourishing wildlife area and outdoor classroom which all our pupils can enjoy, while learning about nature, biodiversity and developing a deep appreciation for our environment."

Milestone's focus on social value is an essential element of M Group Services' environmental, social and governance (ESG) commitments.

Zoë Johnston Corporate Communications Manager | M Group Services

Surrey's triple contribution towards net zero

7 August 2023

The **University of Surrey** is playing a role in three new national energy research centres which will boost knowledge, create innovative green technologies and reduce demand for energy to achieve greener, cleaner domestic, industrial and transport energy systems.

Academics at Surrey will help fairly reduce the energy used in the UK, develop hydrogen and ammonia as alternative fuels, and boost bioenergy production.

Professor **Jin Xuan**, Associate Dean (Research and Innovation) in the Faculty of Engineering and Physical Sciences, said:

"There's no single route to net zero so at the University of Surrey we're involved with a wide range of interdisciplinary projects to find a portfolio of sustainable solutions. This latest funding shows we're at the forefront of creating a sustainable future for everyone."

UK Research and Innovation (UKRI) has today announced a £53 million investment in six research centres which will lead innovation towards a fully sustainable energy sector. Surrey is involved with half of them:

A new national **Energy Demand Research Centre**. Reducing energy use could help meet half of the required reductions we need to reach net zero emissions by 2050 and the University of Surrey is helping ensure that disadvantaged people aren't left behind as the UK's energy demands are reduced. The project is being led by **Dr Lirong Liu** who will use AI to create models to help communities make scientifically informed decisions.

Dr Lirong Liu said: "Our new optimisation model will incorporate multiple objectives to balance society's many needs so we can maximise equity while minimising cost and greenhouse gases. To achieve this, we need to understand technology, economics, environment and behaviour and to recognise different parts of society. It's not just about technological developments, but also about creating a better, more equitable world."

The **Hub for Research Challenges in Hydrogen and Alternative Liquid Fuels**, known as the UK-HyRES Hydrogen Hub. **Dr Qiong Cai**, a research leader in sustainable energy and materials, is working with industrial and academic partners to identify how we can decarbonise transportation and heavy industry by using green hydrogen and hydrogen-based, low-carbon liquid fuels, such as ammonia.

Dr Qiong Cai said: "Hydrogen and alternative liquid fuels, through combustion, can provide clean heat and power sources for decarbonizing heavy industry, aviation, maritime, and haulage sectors that are difficult to decarbonize using electric batteries. We're developing durable and low-cost catalysts to promote ammonia combustion and to enable zero-emission of hydrogen and ammonia combustion. Together with industry partners and academic collaborators, we'll develop innovative solutions that are safe, acceptable, and environmentally and economically sustainable."

The **Supergen Bioenergy Hub**. Surrey's **Dr Michael Short**, one of the technical project leads, will work on the rapid digitalisation of bioenergy, creating a collection of open-source models for enhanced decision-making across the biowaste sector. This will be informed by his work using artificial intelligence to boost biogas production in anaerobic digestors.

Dr Michael Short said: "We can make so much more of bioenergy, particularly if we can develop better predictive models of the complex reactions in bioenergy systems. If we can increase digitalisation and leverage advances in AI and optimisation, we can have more efficient sustainable energy generation from renewable sources, as well as improved energy security and boosted profits for the companies involved."

Katherine Ingram - Surrey University

Respite for carers in Surrey to increase?

7 August 2023

The chronic shortage of overnight respite places in Surrey could improve if plans to increase the number of available beds by almost 50 per cent are given the go-ahead.

Surrey County Council has submitted two sets of plans for short-stay centres - one in Woking and the other in **Banstead**.

This week, the county council launched its bids to the respective local authorities as part of the consultation process in order to address a care system that is "under significant strain and is facing long and sustained operational and financial challenges".

The plans are to build two sets of eight en-suite bedrooms for short-break accommodation together sensory rooms, living rooms, dining rooms, kitchens, and supporting staff facilities.

Councillor **Mark Nuti**, Surrey County Council's cabinet member for adults and health, said: "These two new centres will enable us to increase considerably the number of carers benefiting from short breaks, which help them recharge their batteries and get a bit of break. We value what carers do incredibly highly, so it's really important we offer our residents these types of facilities. These will be modern places. They will be flexible, adaptable and able to accommodate people with many different disabilities and needs.

"They won't be institutionalised places. They will be comfortable and fit for purpose, and able to accommodate more people than we can at the moment. This is a scheme we can be very proud of."

The Woking site will be on the former Lakers youth centre in Goldsworth Park, Denton Way, with the Banstead site replacing The Squirrels, in the Horseshoe, Bolters Lane.

Currently there are seven registered bed-based short breaks services in Surrey but only five are operational, council documents show. At present they provide a maximum of 33 beds - but this can often be lower if needed by people with "increasingly complex needs", the council said.

Those beds, which are clustered in the centre and east of the county, cover the 1,345 people in Surrey living with family carers.

Council figures show that fewer than 8 per cent of those eligible currently access provision. There is also the problem of increasing demand, with the council predicting a 10 per cent rise in users over the next decade as well as an increasingly “ageing” and “inappropriate service”. Combined, the new sites would offer 16 additional places, bringing the total overnight short-break places available to families from 33 up to 49.

Once they are both built, the council said, “the two centres will meet Surrey’s accommodation needs, Lakers meeting the needs within the west of Surrey, Squirrels continuing to serve the east”.

Doctors’ strike: advice

7 August 2023

A wave of back-to-back strikes will severely impact hospital services over the coming week – and will follow the busiest month of 2023 for one hospital group.

St George’s, Epsom and St Helier hospitals have faced significant pressure in recent weeks, with emergency attendances in June ramping up. Last month about 880 people visited one of the Group’s three emergency departments (EDs) daily – about 10% more than is usual.

The emergency departments also saw extraordinary demand some days – including one record-breaking Monday when they had their busiest day ever. Now, ahead of this week’s junior doctors’ strikes, which get underway at 7 am on Thursday and continue until 7 am the following Tuesday (18 July), members of the public have been warned to expect disruption and longer waits, and to avoid visiting the ED when it’s not an emergency.

There will also be an additional challenge when hospital consultants go on strike just days after the junior doctors’ action ends. That walk-out is due to take place on Thursday 20 July and Friday 21 July.

Dr Richard Jennings, Group Chief Medical Officer for St George’s, Epsom and St Helier University Hospitals and Health Group, said: “June was very busy and that’s also continued into July – which makes it more difficult when we’re trying to prepare for the inevitable challenges strike action brings. Ahead of each round of strikes I’ve urged the public to take steps to help us and to come to our EDs in an emergency only – and I am making the same request again now when it is more important than ever. We have a very tough week ahead and we need your support to ensure we can prioritise care for our sickest and most seriously ill patients.”

The hospital group recognise that it’s going to be the first time this year that a junior doctors’ strike has taken place over the weekend and into a Monday. This has prompted further concern, as Monday is normally the busiest day of the week in the Group’s EDs. This was even more pronounced last month, with 1,000-plus average daily attendances on Mondays – significantly higher than a typical day of 800.

Dr Jennings added: “If people need medical help – during the strikes or at any other time – we would encourage them to contact NHS 111 online for 24/7 advice on where to go and what to do if they have an illness or injury. When it’s a real emergency or life-threatening, of course, people should always call 999 or go to an emergency department.”

Strikes will also impact other services at the hospitals, and will mean that some appointments, procedures and operations may be postponed to ensure emergency care can be prioritised. Patients will be contacted directly if their appointments are rescheduled, and should continue to come forward for care as normal unless they hear otherwise.

NHS 111 online should always be the first port of call when you have a health need that’s not an emergency, as it will direct you to the best place to get help for your symptoms.

Pharmacies, meanwhile, can offer advice and over-the-counter medicines for a range of minor illnesses, such as coughs, colds, sore throats, and aches and pains. Some pharmacies will be open at weekends, and you can find your nearest one here:

<https://www.nhs.uk/service-search/pharmacy/find-a-pharmacy>

In a life-threatening emergency, you should always call 999 or go to an emergency department.

If you need mental health support in a crisis, and live in Kingston, Merton, Richmond, Sutton or Wandsworth you can call South West London’s 24/7 Mental Health Crisis Line on 0800 028 8000. There’s more information about this service here:

<https://www.swlstg.nhs.uk/patients-carers/crisis-support/mental-health-support-line>

For adults, young people, and children in Surrey and North East Hampshire, 24-hour support is available by calling: 0800

915 4644. There's more information here:

Epsom medics sky-dive for babies

7 August 2023

A team of obstetricians, gynaecologists, neonatologists and nurses who work at **Epsom and St Helier NHS Trust** have raised nearly £10,000 for **Bliss**, the UK's leading charity for babies born premature or sick.

Radhika Viswanatha, Nina Underwood, Ramesh Ganapathy, Demetri Panayi, Salim Yasin, Charlotte Pearse, Vicky Minns, Cristina Arias-Rey and Sharon Young took part in a skydive on 28 May 2023 at the Old Sarum Park in Salisbury.

1 in every 7 babies born in the UK will need specialist care and the group have a special link to Bliss, as they each look after women and their babies during pregnancy and delivery and beyond at Epsom and St Helier Hospital.

Some of the babies they deliver are more vulnerable than others, so are looked after by the hospital's neonatal team.

Demetri Panayi said: "Our charity skydive was born out of moments of madness, midlife crises and irrational personal desire! But it gave us the opportunity to raise money for a cause close to our hearts, and to our patients."

Donations to their skydive are helping Bliss to drive improvements in neonatal care, to ensure that the needs of babies are at the heart of policy and planning for the future, and to provide information and support to all families with a baby born premature or sick.

Richard Moody, Director of Fundraising at Bliss, said: "We are so grateful for the exceptional fundraising efforts of Demetri and his colleagues. Each donation to Bliss is going towards our mission of helping all babies born premature or sick in the UK have the best chance of survival and quality of life.

"This is a great example of how a perinatal team can come together to raise awareness and money for Bliss."

You can find more information and donate here: <https://www.justgiving.com/page/skydive2023>

Epsom and Ewell High getting fitter

7 August 2023

Lifestyle Fitness and Bourne Education Trust have announced they will be working together to provide the leading sports facilities at **Epsom & Ewell High School** to the local community.

Lifestyle Fitness will begin operations at the site from 1st September. Development of this facility will see Lifestyle Fitness take over management of the existing sports amenities, which include outdoor pitches, tennis courts, a brand-new sports hall, and even a sprinting track, whilst also developing a Lifestyle Fitness gym, studio space, and group fitness classes. This combination of sports facilities, fitness suite and group exercise studios will make the club the perfect hub for fitness and wellbeing for students, teachers, and the community.

"We're so thrilled to be opening our 25th site and working in partnership with the Academy to provide these facilities to the community" said Lifestyle Fitness Managing Director, **James Lawrence**. "The facility will be the perfect location for

the town's fitness needs, whether it be to play football or tennis outdoors, or to take a group exercise class or get a workout in at the gym."

The facility, which is situated within Epsom & Ewell High School, forms part of the planned growth and development of both Lifestyle Fitness and the Bourne Education Trust, who currently have a partnership at another school site, located at The Matthew Arnold School in Staines. Students of all ages will benefit from use of the facility during the school day, with the gym floor and sports facilities opening from 4:30pm for the wider community on weekdays, and 9:30am to 5:00pm on weekends.

"After working with Lifestyle Fitness for many years at The Matthew Arnold School in Staines, I am delighted to welcome them to Epsom & Ewell High School to manage the sports facilities on our behalf." said **R. Davey**, Bourne Education Trust Sports Director. "I look forward to seeing the benefit this will have on the local community and surrounding areas in the coming months. We have collaborated with numerous schools and educational trusts over the last forty years."

James continued. "Their positions as vital hubs in the local community that connect students, teachers, parents, and the wider town allow us to do what we do best: create healthier and more active communities, with a focus on well-being. With facilities like these, we can take fitness and wellness to an even wider audience in the local area."

You can follow lifestylefitness.co.uk/club/epsom for any more information and updates on the club's progress. Anyone wishing to join the club ahead of its opening can also do so now online, with memberships from as low as £14.99 per month when using the promotional code 'EARLYBIRD'.

Epsom's University challenges for graduates

7 August 2023

Students from the Class of '23 at the **University for the Creative Arts (UCA) in Epsom** descended upon London's Royal Festival Hall for their graduation ceremony on Tuesday 4 July. This year over 700 students graduated from the Epsom campus of UCA.

Opening the ceremonies, **Professor Bashir Makhoul**, President and Vice-Chancellor of UCA, told graduating students: "*You are stepping out today into a world of great promise - the thriving creative industries - and the opportunities for creative graduates are endless. Be ready to seize them, and to embrace challenges, with an open mind.*"

"I am confident of your drive, unrelenting ambition, and passion for creativity, and I am eager to see how you will apply your talents and make a difference around the world."

During the ceremonies, UCA Chancellor and renowned ceramicist, **Magdalene Odundo OBE** offered this piece of advice: "*Commit wholeheartedly to your goals and trust that your talent will enable you to achieve them. I've had the pleasure of working with some of the world's greatest designers and artists, and they all share a common value: staying true to their vision.*"

In the presence of families, friends and staff across two days of ceremonies, graduates came up to the stage and collected their degree certificates - the culmination of their journey at UCA. Graduating students will now take their place in the global creative community as they embark on the next stage in their creative careers.
