

Sixty years of tea, chat and companionship in Epsom

A charity supporting lonely and isolated older residents in Epsom and Ewell is marking its 60th anniversary.

Re-engage volunteers run monthly free tea parties for people aged 75 and over, alongside a call-befriending service for those who live alone.

“Almost part of my family”

Lesley Renwick, who has led the local group since 2005, said they had supported “hundreds of lonely older people who often don’t see or speak to anyone for long periods”. She added: “Our group is very friendly and they’ve almost become part of my family. It’s lovely seeing the older people enjoy themselves, simply having a chat and a cup of tea.”

Re-engage began in London in 1965 when a young lawyer, Trevor Lyttleton, and friends set out to support isolated older people. Epsom and Ewell was one of the earliest groups to follow. Today the charity has thousands of volunteers running hundreds of tea parties, activity groups and call-befriending sessions for around 6,500 older people nationwide.

‘It was worth the wait’

Phyllis, 91, has been attending the local tea parties since 2011. “I love them,” she said. “The volunteers make you so welcome. We all get to know each other and have a good old chat. I like the companionship. It’s nice to have someone to talk to. I had to wait two years to get into the group because it was so popular but it was well worth the wait.”

Pat, 86, whose husband died 14 years ago, said the gatherings helped lift the quiet moments at home. “There are times when I feel lonely but it helps going to the Re-engage tea parties. I’ve made some friends there and there’s always a lovely spread from the volunteers who are so kind. I get to hear everybody’s news and have a lovely time.”

Calls that make a difference

Jo Kearns, 48, lives in Epsom and volunteers as a Call Companion, making weekly calls to Irene, 79, who lives alone. “She gets very anxious about things. Her friends are dying so she can be a bit isolated but the phone calls seem to help. She’s happier by the time we’ve ended our chat,” she said. “I enjoy the volunteering because I like to help vulnerable people. It must be horrible to be alone and worried so I want to do whatever I can. In fact I’m thinking of taking on another older person after Christmas.”

‘Marvellous job’

Jenny Willott, CEO of Re-engage, said: “Our volunteers in Epsom and Ewell do a marvellous job, making sure some of our most vulnerable older people can find new friends and socialise. The fact they have been doing this for 60 years is astonishing.”

Interested in helping?

Volunteer opportunities supporting older people locally and remotely can be found on the Re-engage website.

Nescot students’ artwork brightens Ewell East Station

Artwork by Nescot’s Level 3 Art and Digital Design students is now on display at Ewell East Station as part of Art@theStation, a national initiative bringing young artists’ work into public transport spaces.

Commissioned by The Arts Society Epsom and funded by Govia Thameslink Railway, this is the second collaboration with the college. Their first commission, exhibited in 2024, is still on show at Epsom Station.

“Sense of Place - Ewell”

Students were asked to create portrait-format designs themed around *Sense of Place - Ewell*, using bold silhouettes and bright colours to reflect local landmarks. Four students – Jess, Emma, Cate and Sarah – were selected for display and each received a

certificate and a £25 prize.

Sarah's design features Bourne Hall Museum. She said working collaboratively "just like in the art industry" had been one of the highlights, adding that the digital skills gained at college had been "invaluable". Cate's design, inspired by Bourne Hall Park and the Dog Gate entrance, left her "thrilled" when selected. She said researching the history behind her piece had been fascinating and that seeing her work displayed publicly was "a proud moment".

Jess and Emma, whose pieces depict well-known Ewell Village landmarks, said the project strengthened their digital design skills and that they enjoyed working as a team.

Building skills and confidence

Tutor Demonstrator Miles Merritt said the project offered "a brilliant opportunity" for students to build confidence and professional experience. He praised the chance for learners to work to a live brief and deadline and to enhance their portfolios ahead of further study.

He added thanks to The Arts Society Epsom for providing a platform to showcase student creativity, saying the college looked forward to future collaborations.

Praise from The Arts Society Epsom

Angie Child, Project Lead for Art@theStation, said she was "delighted" with the students' graphic designs, noting their use of vibrant colour to bring clarity and impact to familiar Ewell landmarks. She said each student showed a "mature approach to commercial design" and a clear passion for pursuing creative careers. She also commended Miles Merritt for supporting the students throughout the project.

Supporting young artists

Art@theStation is part of a wider national initiative developed by The Arts Society, giving young artists the rare chance to exhibit work in waiting rooms, ticket halls and on platforms across Britain. The scheme aims both to improve the station environment and to give travellers an unexpected cultural experience.

QEF to Close After 90 Years as Epsom MP Seeks

Answers

The Queen Elizabeth's Foundation for Disabled People (QEF), the long-established disability charity based in Leatherhead, has announced it will enter administration after a 28-day wind-down period, bringing an end to more than nine decades of specialist support for people with disabilities in Surrey and across the country.

QEF said the decision follows "severe financial challenges" and comes after a year of exploring options to stabilise its position. The charity supports nearly 10,000 people annually through neuro-rehabilitation, mobility services and specialist residential care.

Founded in 1934 with the support of the then-Duchess of York (who became Queen Elizabeth The Queen Mother), QEF has been a significant presence in the local community for generations. Its closure raises immediate questions about the future care of residents and clients who rely on its services, and about the national pressures facing the disability-care sector.

Local Epsom and Ewell MP Helen Maguire said she was "deeply saddened" by the announcement, calling QEF "a cornerstone of our community in Leatherhead" and praising the "wonderful person-centred care" provided by its staff. She said she had seen the charity's impact first-hand during a visit earlier this year.

According to QEF's own statements, the organisation has faced rising staffing costs, recruitment pressures, and funding constraints from statutory bodies. The charity reported that despite efforts to improve its financial position, "there wasn't a viable solution" to meet the scale of the challenge.

Mrs Maguire said she has been in "regular conversation" with QEF leadership in recent days to see whether a last-minute solution was possible. "It was conveyed to me that, sadly, the shutdown process is already fully in motion," she said. She confirmed she has written to the Health Secretary, Wes Streeting, seeking an urgent meeting to discuss the circumstances of the closure and the wider lessons for the sector.

Her immediate focus, she said, is "ensuring continuity of care for both patients and staff". QEF has said the 28-day wind-down period is intended to give time for residential clients to be found suitable alternative placements.

The charity's closure will leave a notable gap in specialist provision in the region. QEF employed around 250 people and operated from modern facilities in Leatherhead after a major redevelopment earlier in the decade. Its departure will add pressure to already stretched NHS and social care services that rely on external specialist providers.

Epsom and Ewell Climate Action Network launches with community events and initiatives

A new community movement is taking shape in the borough with the launch of the Epsom and Ewell Climate Action Network (eeCAN) - a local volunteer group working to empower residents through inclusive projects that build resilience to climate change.

EECAN's mission is simple but ambitious: to help communities adapt and thrive in a changing world. Its projects focus on practical solutions, awareness-raising, and supporting climate-friendly policies. Everything the network offers at the moment is totally free and open to all, ensuring that everyone can take part in building a more sustainable, climate-resilient Epsom and Ewell. Users of the services will be given the opportunity to make any donations they feel they can afford if they want to help the charity do even more for their community.

"Epsom and Ewell Climate Action Network has grown so much in the last 12 months as a result of the energy and commitment of volunteers wanting to help their local communities reduce Climate risks while saving money" says William Ward the Chair and co-founder of the group.

Epsom and Ewell Library of Things

Launching to the public in spring next year, this innovative "Library of Things" will allow residents to borrow items instead of buying them, reducing waste and promoting sharing. From carpet cleaners and wallpaper steamers to pressure washers and gazebos, residents will be able to borrow tools and equipment for free, thanks to donated items. Donations of nearly new equipment are now being sought. Those able to help are asked to contact eeClimateActionNetwork@gmail.com or visit <https://eecanlibraryofthings.myturn.com/library>.

eeCAN is developing this initiative in partnership with Surrey County Council Library Services (for front of counter service) and with Epsom & Ewell Borough Council, in association with The Epsom Repair Café, who ensure that all electrical items are safe to use.

Bike Amnesty - Saturday 22 November 2025

Got a bike you no longer use? Donate it! Between 9am and 5pm at Epsom Methodist Church, Scout Hall, Ashley Road KT18 5AQ, residents can drop off unwanted bicycles to be refurbished and passed on to people who need them.

The scheme helps promote active, low-carbon travel while supporting those who might not otherwise afford a bike. Just turn up with your spare bikes. This free service is provided in partnership with Surrey County Council's "Active Surrey" team.

Contact: eeClimateActionNetwork@gmail.com

Climate Conversations - every 2nd and 4th Monday of the month

eeCAN also runs regular Climate Conversations at Birchgrove Lower Mill, Kingston Road, Ewell KT17 2DQ, from 10:30am to 12:30pm. These informal gatherings give residents a friendly space to learn, share experiences, and explore all aspects of climate change together.

One participant said, "I often feel so motivated after one of our meetings!"

The upcoming session on Monday 24 November will feature Dr Kristine Damberg, online presenting "*What can we eat for human and planetary health*", a talk exploring how our food choices affect both personal wellbeing and the planet.

Anyone can join in using this link: <https://meet2.organise.earth/rooms/95o-iug-ems-2p6/join>

Living Rivers Exhibition - April to May 2026

Looking ahead, eeCAN will host a *Living Rivers Art Exhibition* at the Ebbisham Centre, Epsom KT19, in association with The Royal Marsden. Running from 22 April (Earth Day) to 22 May 2026, the free exhibition will celebrate the beauty and importance of rivers and waterways.

Inspired by writer Robert Macfarlane's question "*Is a river alive?*", the exhibition will showcase artwork from local schools, community groups, and individuals.

Submissions (A4 max-sized drawings or paintings) are invited by 27 March 2026, with eeCAN volunteers offering to collect (and return) artworks directly from schools and art groups. Groups will be invited to see their work on display and participate in nature-themed activities.

Email eeClimateActionNetwork@gmail.com for participation details.

A community coming together

From swapping tools and donating bikes to sharing climate ideas and artistic expression, eeCAN's initiatives reflect a spirit of cooperation, creativity, and care for the environment.

Its organisers believe that by taking small, collective steps, Epsom and Ewell can make a big difference — helping local people live more sustainably while building resilience for the future.

For more information, contact eeClimateActionNetwork@gmail.com or follow eeCAN's activities through their upcoming community channels.

Surrey to get a higher level of heart care

Heart patients and the tiniest and most vulnerable babies across Surrey are set to benefit from major investment in local specialist services, following confirmation of a £3.2 million upgrade at Ashford & St Peter's Hospitals NHS Foundation Trust in Chertsey. Although the improvements are centred at St Peter's Hospital, the effects will be felt across the county, including by patients who would typically access services at Epsom.

The investment is being funded largely by Runnymede Borough Council's Community Infrastructure Levy, and will see the cardiac catheter-lab at St Peter's upgraded to deliver more complex and less invasive heart procedures at a faster rate. It will be complemented by a £296,000 refurbishment of the Neonatal Intensive Care Unit, which is the only Level 3 neonatal facility in Surrey. Councillor Robert King, co-leader of Runnymede Borough Council, stated to the BBC's LDRS: "For families, the moments when a loved one needs specialist care are when the NHS matters most. That is why this investment we have championed at St Peter's Hospital is so vital."

Across Surrey, hospitals offer a range of cardiac services. Epsom provides extensive inpatient and outpatient cardiology care, including angiograms, non-complex stenting, pacemakers, complex device implants and heart-failure treatment. However, for confirmed heart attacks and the most complex interventional procedures, patients are transferred to the regional heart-attack centre at St George's in London. Other Surrey hospitals, including East Surrey Hospital and the Royal Surrey in Guildford, also run catheter labs and offer broad specialist cardiology care, though not all services are identical between sites.

The enhancements at St Peter's therefore represent a significant expansion of Surrey's own capacity to deliver more advanced, less invasive heart procedures locally, reducing pressure on London hospitals and improving access for patients across the county. In neonatal care, the upgraded Level 3 unit will strengthen Surrey's ability to care for the sickest and most premature babies, with facilities designed to improve comfort, privacy and support for families during long and emotionally demanding stays.

Ashford and St Peter's Hospitals CEO, Louise Stead, stated to the BBC's LDRS: "These improvements will strengthen our ability to deliver timely, life-saving care in modern, purpose-built environments." The funding, described as one of the most significant local healthcare investments in recent years, is expected to deliver the improvements within the next two years.

From Ukraine to Epsom: How Music and Kindness Struck the Right Note

When the Ukraine National Opera arrived in the UK on tour in early 2022, none of its musicians could have imagined how the world, and their lives, were about to change. Two weeks later, Russia invaded Ukraine. Many members of the orchestra, seeing the escalating conflict at home, made the painful decision to remain in the UK and claim asylum. Among them was clarinettist and saxophonist Vlad Voloshyn.

Now living in Epsom with local resident Nina Kaye, one of the founders of the Epsom & Ewell Refugee Network, Vlad has continued to rebuild his life through music. Together with five of his former orchestra colleagues, he formed a brass ensemble called Freedom Pulse, which performs Ukrainian and classical repertoire across Surrey and beyond.

Alongside his performing career, Vlad is in his final year at the British Institute of Modern Music (BIMM) in Fulham, where he studies music and sound production and hopes to work as a sound designer after he graduates.

Recently, an extraordinary act of local generosity brought his story full circle. Vlad had long hoped to buy a tenor saxophone, an instrument essential for his expanding repertoire but out of reach financially. By chance, his host Nina, who also volunteers for Nucleo, a London-based social action charity that helps children from disadvantaged backgrounds have access to music, received an email offering a donated tenor saxophone. Nina runs Nucleo's National Instrument Bank, which matches donated instruments with musicians in need.

The offer came from a donor in the Lake District. Determined and hopeful, Vlad took the long train journey north to collect what he thought was a tenor saxophone. Only on the journey home did he discover it was actually an alto sax, an instrument he already owned. Disheartened, he returned to Epsom unsure how to continue his search.

A few days later, Vlad was performing at a Ukrainian Music Evening in Epsom, attended by His Worshipful The Mayor of Epsom & Ewell, Councillor Robert Leach. Sitting beside the Mayor, Nina recounted Vlad's misadventure with the saxophone. Without hesitation, Councillor Leach said, "I've got a tenor sax at home which I haven't played for 30 years and he would be welcome to have it, if I can find it."

True to his word, after the concert Vlad was welcomed to the Mayor's home and given the instrument which left him both astonished and grateful.

What began as a story of loss and exile has become one of connection and kindness. From the national stage in Kyiv to community halls in Surrey, Vlad's journey shows how music continues to build bridges where politics and geography divide.

When Vlad plays his tenor sax in Freedom Pulse's performances, he will know that even in times of war and displacement, the power of human generosity, and of music itself, resonates far beyond borders.

Surrey's Satellite bio-diversity project promoted at COP30 Brazil

Surrey's Space4Nature project, which uses satellite data and community science to protect biodiversity across the county, is currently being showcased by the UK Government at the COP30 UK Pavilion in Belém, Brazil (10-21 November 2025). The display forms part of the UK's official presentation of research and innovation tackling global climate and nature challenges.

Co-led by the University of Surrey's Centre for Environment and Sustainability (CES) in collaboration with Surrey Wildlife Trust, Buglife, and the Painshill Park Trust, Space4Nature brings together scientists, local communities and conservation groups to map and monitor key habitats across Surrey - from chalk grasslands to heathlands and acid grasslands that support some of the nation's rarest species.

Using advanced satellite imagery and artificial intelligence trained with data from local volunteers, the project can classify habitats to Level 4 of the UKHab system – producing one of the most detailed environmental maps of its kind. This allows conservation partners to pinpoint where biodiversity is under threat and focus restoration efforts, such as reconnecting fragmented chalk grasslands – often called the “rainforests of Europe” for their carbon storage and rich biodiversity.

Surrey Wildlife Trust plays a central role in Space4Nature, leading the project’s citizen science programme, training volunteers and coordinating the collection of field data that makes its satellite and AI mapping possible. The Trust’s on-the-ground expertise connects technology and conservation, turning local knowledge into invaluable data for protecting Surrey’s landscapes.

Dr Ana Andries, Lecturer in Remote Sensing and GIS at the University of Surrey, and project lead, said:

“We’re using satellite data and artificial intelligence in a way that directly supports conservation on the ground. Citizen scientists help train our machine learning models, thus turning local field data into high-resolution habitat maps that reveal where biodiversity is under threat. To see our work featured on a global stage at COP30 highlights how our region’s innovation and collaboration can help shape the future of biodiversity monitoring.”

Andrew Jamieson, Space4Nature Project Manager at Surrey Wildlife Trust, says:

“It’s time for conservation organisations like ours to step outside traditional boundaries and focus not just on land management and individual species recovery, but also on delivering the tools and partnerships that will drive change on a landscape level. This project exemplifies that approach.”

Space4Nature was among the first projects in the United Kingdom to receive Space for Climate Observatory (SCO) accreditation from the UK’s Space4Climate network, recognising its excellence in using Earth observation data to tackle environmental challenges. This year, it has been selected as one of just 19 organisations featured in the UK Government’s Pavilion at COP30, with a video and QR-linked display presented by government representatives throughout the conference.

Dr Zoe M Harris, Director of Surrey’s Centre for Environment and Sustainability and Co-Director of the Institute for Sustainability, said:

“The Centre for Environment and Sustainability was founded on the idea that solving environmental challenges means bringing disciplines and people together. Space4Nature embodies that vision – combining engineering, data science and community insight to create practical tools for nature recovery. Seeing this work recognised at COP30 highlights Surrey’s role as a global leader in sustainability research and innovation.”

Surrey University

Epsom and Ewell Times adds – the Surrey project is one of only twenty presented by the UK at the COP30 summit. See the full list [HERE](#).

Epsom Hospital braces for strikes amid winter pressures

Further strike action by resident doctors – formerly known as junior doctors – is set to add strain to NHS services just as winter illnesses begin to rise. The British Medical Association (BMA) has confirmed walkouts from 7am on Friday 14 November until 7am on Wednesday 19 November in what will be the latest round of industrial action in a long-running dispute with the Government over pay and working conditions. Hundreds of medics across St George’s, Epsom and St Helier University Hospitals and Health

Group could join the five-day stoppage. The Trust says services are already under pressure from rising flu cases, which have climbed earlier than expected this year. Dr Richard Jennings, Group Chief Medical Officer, warned of disruption ahead and said hospitals are “always very busy at this time of year” and are experiencing “significant pressure” due to the combined impact of seasonal illness and the upcoming walkouts. He said consultant doctors and other staff will work extra shifts “to keep patients safe”, but appointments may still need to be rescheduled to safeguard care for emergency and critically ill patients.

Local impact so far

During the previous round of resident-doctor strikes in July, 144 elective procedures and 1,084 outpatient appointments were rescheduled across the Group. On an average strike day, 211 resident doctors were recorded absent across the Trust’s sites. The public will be contacted directly if their appointment needs to be rearranged, and the Trust emphasises that any appointment not specifically cancelled should be attended as normal. Emergency departments remain open for life-threatening conditions.

Why doctors say they are striking

The BMA has repeatedly argued that resident-doctor pay has been eroded by more than a quarter in real terms since 2008. Representatives say pay restoration is essential both to retain doctors within the NHS and to halt a pattern of experienced staff leaving for better-paid roles abroad. Doctors’ leaders also say the dispute is about patient safety: they claim chronic understaffing means resident doctors are covering too many gaps in rotas, working excessive hours, and taking on responsibilities that stretch beyond their training. The BMA says that improving pay and working conditions would reduce burnout and stabilise the workforce, ultimately shortening waiting lists. The organisation has also expressed frustration that talks with Government have repeatedly stalled, arguing that below-inflation pay offers fall far short of resolving the dispute.

Government position

Ministers have previously said that the level of pay demanded by the BMA is unaffordable in the current economic climate and would divert funds from frontline services. The Government maintains that it has accepted independent pay review body recommendations and has urged doctors to return to negotiations without pre-conditions. Officials also argue that strike action adds further pressure to already stretched NHS services and risks longer delays for patients waiting for operations and specialist appointments.

Advice for patients this week

The Trust is urging the public to continue using NHS services responsibly. NHS 111 online should be the first port of call for non-emergencies, pharmacies can advise on minor illnesses, and GP services are unaffected by industrial action. With flu infections rising, eligible residents are being encouraged to get vaccinated without delay, and people are asked to check in on vulnerable friends and neighbours. Dr Jennings emphasised that anyone with a life-threatening condition must still attend A&E or call 999.

Epsom and Ewell Borough Council gears up for - you know what

It's that time of year again - Christmas is coming to Epsom! Join us on Sunday 23 November for the Christmas lights switch-on in Epsom marketplace, led by the Mayor of Epsom & Ewell and the cast of this year's pantomime at Epsom Playhouse, *Aladdin*. Enjoy a day of festive cheer, with performances from local dance schools and a community choir, family-friendly rides, seasonal stalls, and a special visit from Inka the Polar Bear. The fun starts at 10.30am and the Christmas lights in Epsom marketplace will be switched on at 4.30pm.

Councillor **Clive Woodbridge** (RA Ewell Village), Chair of the Community and Wellbeing Committee at Epsom & Ewell Borough Council, said: "Seeing Epsom lit up for the Christmas season is one of my favourite moments in the community calendar. It's heart-warming to see people from across the borough and beyond come together to enjoy seasonal, festive fun. The day would not be possible without the support of Go Epsom, and local Epsom & Ewell charities and community groups. Thank you to all those who have worked so hard to make it possible for us to hold the event again this year."

The Paparazzi Guys will also join the festivities, providing the perfect opportunity for family Christmas pictures.

Find out about more events taking place in Epsom & Ewell over the festive period, including Christmas activities at Bourne Hall, What's on | Epsom and Ewell Borough Council

Free parking days in Epsom & Ewell

Over the Christmas period, there will be selected days when it will be free to park in Epsom & Ewell Borough Council (EEBC) managed car parks:

- 5 December: Dorset House and Ewell High Street car parks - free from 4pm until 7am on 6 December
- 7 December: EEBC car parks - free all day
- 14 December: EEBC car parks - free all day
- 21 December: EEBC car parks - free all day
- 25 December: EEBC car parks - free all day
- 26 December: Dorset House and Ewell High Street car parks - free all day

Full details about EEBC-managed car parks are available on the council's website. Please note; Hook Road car park is closed on Sundays and bank holidays.

Changes to council services

The Town Hall will be closed on 24, 25, and 26 December 2025 and 1 January 2026, and will close at 3pm on 31 December 2025.

Waste and refuse services

During the Christmas and New Year's weeks, collections must accommodate the public holidays, and at a time when bins are much fuller than usual. Some services may not be available as usual, and your normal collection day may change.

- All planned changes can be found on the council's website: Christmas and New Year collections | Epsom and Ewell Borough Council.
- Christmas week: there will be no refuse collections during Christmas week. Please leave out food and recycling (including glass recycling) only. During Christmas week, collection days may change. Please check the EEBC website for recycling and food bin collection days during Christmas week.
- New Year's week: normal refuse collections start again in New Year's week. However, collection days may change. Please check the EEBC website for collection days during New Year's week.
- Before Christmas, Epsom & Ewell Borough Council will place a label on resident bin handles with collection details for the festive period. If you are an Epsom & Ewell resident, please look out for this reminder about how services will be changing in your road over Christmas and New Year's weeks.

Community support services

Opening times will differ over Christmas and the New Year. Please check the EEBC website for details: Council services over Christmas and the New Year 2025 | Epsom and Ewell Borough Council

Christmas tree recycling

In January, EEBC offer free real Christmas tree recycling for all residents. This is a fortnightly service – check your Christmas bin label for details of when real Christmas tree collections happen in your road. Don't cut up your tree – it's easier to collect whole.

- The Christmas lights switch-on in Epsom marketplace will take place at 4.30pm and there will be local performances from 10.30am. The fun fair and stalls will close at 10pm.
- *Aladdin* will be performed at The Playhouse, Epsom, from Friday 12 December to Sunday 4 January. Book tickets on the website: [Aladdin](#) | Epsom Playhouse

Epsom and Ewell 5th least obese 10 year olds in the UK

Year six schoolchildren in Surrey have some of the lowest obesity rates in the country, with Mole Valley leading the way. The figures were published as part of the Government's National Child Measurement Programme, which covers mainstream state-maintained schools. Children in Year 6 are aged 10 to 11 and the data is based on the address of the child rather than their school.

Mole Valley, at 9.7 per cent, was the only borough in the country where fewer than one in 10 children were classed as obese. Three boroughs, Sandwell and Wolverhampton in the West Midlands and Knowlsey in the North West had rates above 30 per cent.

The complete top ten was:

- Mole Valley – 9.7 per cent
- St Albans – 12.0 per cent
- Richmond upon Thames – 12.1 per cent
- Cambridge – 12.7 per cent
- Epsom & Ewell – 12.8 per cent
- Elmbridge – 13.1 per cent
- Waverley – 13.1 per cent
- South Hams – 13.1 per cent
- Uttlesford – 13.2 per cent
- Guildford – 13.6 per cent

The remaining Surrey boroughs had the following obesity rates among year six children:

- Surrey Heath – 14.5 per cent
- Woking – 15.2 per cent
- Reigate & Banstead – 15.7 per cent
- Tandridge – 16.7 per cent
- Runnymede – 16.9 per cent
- Spelthorne – 18.2 per cent

Councillor Nick Wright, Mole Valley District Council cabinet member for leisure and community assets, said one of their priorities was to support residents to live healthy and fulfilling lives. He said: “These childhood obesity figures, which shine such a positive light on Mole Valley, are very encouraging for parents, carers and young people who live in our district. For our part in contributing towards these low obesity rates, we are proud of the work we do and the initiatives we provide which can only help participating children be healthier and more active. Examples include our popular free summer holiday activities programme, most recently run this past summer, and the wide range of indoor activities – such as the kids swim for a pound offer – available at Dorking Sports Centre and Leatherhead Leisure Centre, both run on our behalf by Better.”

“Our sports club access scheme also provides up to £250 per eligible young person to cover all, or part, of a sports club membership and free taster session at that specific club. “The Mole Valley parkrun and junior parkrun initiatives that we helped to establish also continue to go from strength to strength, most recently highlighted by the junior park celebrating its sixth anniversary. “The funding opportunities we provide, for example our neighbourhood fund, are available for sports clubs or other youth projects to apply for money to help improve existing and build new facilities which young people can benefit from.”

“Our commitment to improving our already impressive range of play facilities, including playgrounds and skate parks, across Mole Valley will always be a high priority for us, and a decision due to be taken by cabinet later this month could see several million pounds of Community Infrastructure Levy funding become available for a major parks and recreation ground enhancement programme.”

Chris Caulfield LDRS
