

Bet your boots on skill camps?

12 July 2024

Hundreds of residents across Surrey can fast track their careers for free thanks to a range of courses in nine exciting and growing sectors.

Surrey County Council is offering anyone aged 19 and over the opportunity to gain new skills and boost their earnings via a range of Skills Bootcamps.

These government-funded courses are flexible and can be completed in up to 16 weeks - meaning individuals can learn new skills easily and quickly at a time that suits them. Businesses can also use them as a low-cost way to upskill their current workforce.

More than 500 courses are available across Surrey over the next nine months, in sectors such as health and social care, gaming, cyber, construction and advanced engineering.

For most courses, no previous knowledge of the subject is required.

All offer a guaranteed interview on completion - meaning they are ideal for those looking to progress in their current role or change careers.

The first courses start this month with several Skills Bootcamps providers at the Camberley Careers Fair on Monday (July 15) at Camberley Theatre from 9.30am to 12.30pm.

Anyone can attend the event and discover more about these career-boosting courses, while also getting advice from local organisations on personal finances, starting a business and how to secure a job.

Matt Furniss, Surrey County Council's Cabinet Member for Highways, Transport and Economic Growth, said: "Our continuous support of improving skills in Surrey is essential to our local economy. Whether learning a new skill or upskilling existing skills these free courses will help Surrey residents.

"We are delighted to have been successful in securing £2.7 million from the Department for Education to support residents improve their career prospects through these Surrey Skills Bootcamps.

"Ensuring our residents have the right skills to secure good-quality jobs in growing sectors within Surrey is vital to us maintaining our position as one of the UK's largest regional economies. These free flexible courses are a great way to do that.

"Supporting local people into great careers is good for our economy and good for our communities - ensuring we can offer a better quality of life for all, ensuring no one is left behind."

All of the Skills Bootcamps courses have been developed closely with industry to ensure they meet the future needs of local businesses and the wider economy.

Any adult living in Surrey can sign up to a course, providing they have the right to work in the UK and they can commit to completing the course.

Skills Bootcamps can also be used by local businesses to upskill current employees at a discounted rate.

A full list of courses and start dates can be found on **the Surrey County Council website**.

Register your interest at **www.surreycc.gov.uk/skillsbootcamps**.

- Skills Bootcamps were first launched in 2021 by the Department for Education (DfE).
- Skills Bootcamps are one of several skills products promoted as part of Skills for Life and DfE's **It all starts with skills** campaign. This aims to get **more people to start their skills journey** by increasing supply of and demand for technical qualifications and skills offers among employers, young people and adults.
- Skills Bootcamps are now being delivered at a regional level by Surrey County Council through training providers, allowing local government to identify the skills needed for economic growth and development.
- Within Surrey, training is available across nine key sectors:
 - Cyber
 - Game development
 - Construction - insulation
 - Construction - retrofit
 - Construction - heat pumps
 - Green electrical - electric vehicles and solar panels
 - Sustainability and carbon management
 - Advanced engineering
 - Health and social care

- More information on Skills Bootcamps, including information on how to apply, can be found on the County Council website.
- You must be over 19 years of age, have the right to work in the UK and be available to study according to the cohort start and end dates (March 2025).

Epsom County Councillor win for childminders

12 July 2024

Surrey County Council (SCC) has announced a significant change in the payment system for childminders, following a successful campaign led by Residents' Association County Councillor **Eber Kington** (Ewell Court, Auriol & Cuddington). The new system, which will see childminders receiving monthly payments, comes as a response to overwhelming feedback from the childminding community.

Currently, childminders in Surrey receive 60% of their term's funding upfront at the start of each term, with the remaining 40% plus any necessary adjustments paid by mid-term. This staggered payment system has been identified as a barrier by nearly half of the respondents in the 2024 Early Years Provider Survey. Additionally, SCC's in-person consultation revealed that 95% of childminders favored a shift to monthly payments.

Councillor Kington highlighted the discrepancy in SCC's public messaging, which he argued favored larger group providers over individual childminders. He was approached by a childminder from his division, expressing the need for a spokesperson to advocate for a payment system that supports their financial stability and professional efficacy.

The childminder stated, "It would be good to finally have a spokesperson who can support us in calling for a change and enabling us to make a choice in how we are paid, so we are able to continue doing our jobs to the best of our ability, without worrying how or when we will be able to pay our mortgages."

Councillor Kington emphasized the importance of this change, especially in light of the upcoming expansion of early years entitlement, which will require more childcare places. He argued that ensuring a reliable payment system is crucial for recruiting and retaining childminders.

After lobbying the Council, Councillor Kington raised the issue at the July Council Meeting. In response, Clare Curran, Cabinet Member for Children, Families, and Lifelong Learning, confirmed that SCC is transitioning to a new software system for early education payments. This system, set to be implemented in September 2024, will include the option for monthly payments.

Following the meeting, Councillor Kington expressed his satisfaction with the outcome. "This is excellent news, but it is a shame that childminders have had to work hard to get the change despite the clear evidence of need shown in SCC's own consultation results," he said.

The move to monthly payments aligns SCC with other local authorities, such as the London Borough of Sutton, which already offer this option to their childminders. This change is expected to provide greater financial stability and support for childminders, enabling them to focus on delivering high-quality care without the added stress of managing inconsistent payment schedules.

The cost of sending pupils to school

12 July 2024

Surrey County Council (SCC) has been ordered to pay out £1,500 by the social care ombudsman for a 'service failure' in defaulting its legal duty to provide SEND transport to and from school. The local authority is already predicted an overspend of £7.3m on SEND school transport for its 2024-25 annual budget.

A family has received £1,500 after Surrey County Council (SCC) failed to provide a child with complex medical needs school transport adding pressure to the family. The boy missed 27 days of education as well as special needs provision, causing his mother and the wider family "avoidable" distress.

The provider suspended the child's transport after no longer feeling able to meet the boy's change in medical needs, on June 15, 2023. The boy waited for his school transport to pick him up the next morning but it did not arrive to collect him. It was not until lunchtime until the travel provider informed the Council that it had suspended its service.

SCC speedily offered the mum a travel allowance while it explored longer term solutions but she felt 'pressured' into taking this as she did not have the time to recruit carers. The travel allowance is a more cost-effective option than managed transport services.

Report documents detail the "avoidable distress, frustration and inconvenience" that the child's transport withdrawal caused his family. The social ombudsman said "the council did exactly what we would expect in the circumstances it found itself in" and it now has contracts with two ambulance-style providers able to transport children with complex medical needs.

A SCC spokesperson said it would not comment on individual cases and "although the report does recognise that we put appropriate mitigations in place, we accept the findings from the Ombudsman report and sincerely apologise for any distress caused".

They added: "We know how important it is for children and young people to have access to their education setting, however a lack of suitable providers has meant that some children who require specialist provision for high and/or complex medical needs have had to wait longer for appropriate arrangements than we would like. In these circumstances we always work actively with families to find a solution and offer measures such as personal travel allowances in the interim."

The ombudsman demanded the council pay his mother £1,000 in recognition of his missed education and SEN provision during the period he had no transport to school, plus £500 for the 'avoidable distress' it caused her and her family.

An overspend of £7.3m, all based on home to school transport, is already predicted one month into SCC's new budget for 2024-25. In 2023, SCC saw an overspend of £12m on SEND transport, with nearly a third of the transport costs being to independent schools outside of Surrey.

Rising demand, more travel days and anticipated increase in the number of children who need transport have contributed to a pressurised budget. SCC said it is reviewing all discretionary travel arrangements, tightening applications and is actively promoting personal travel allowance to manage costs.

A SCC spokesperson added: "We have seen a 64% increase in education, health and care needs assessment requests across Surrey since 2020, which has naturally had a knock on effect with a year on year increase in demand for Home to School Travel Assistance (HTSTA) as many children and young people with an education, health and care plan require HTSTA. This has resulted in a predicted overspend for this service."

Epsom library to lend an ear on changes

12 July 2024

Epsom Library is being transformed as part of Surrey Libraries modernisation programme and residents are invited to drop in to give their views at the library on Tuesday 9th July from 10am to 4pm.

This is an opportunity to meet library staff, hear more about the improvements and give feedback on the designs for the library.

A separate session especially for children, parents and carers will be held during Story-time from 10:15am to 10.45am. The designs will remain on display in the library for at least 2 weeks following the 9th July, to provide an opportunity for further feedback.

The library changes will include a fully flexible layout with space for events and performances; improved furniture and increased study space; new **Super Access technology** enabling out of hours use and multi-use meeting rooms.

To enable initial set up works to be completed, the library will be closed from 5th August for one week only. It will then re-open from the 12th August within Epsom library's learning centre, still within the Ebbisham Centre, which will be accessed via the cafe.

Customers will be able to access a range of library items, along with computer workstations, printing and the popular Rhymetime and Story-time events, which will still run at a reduced capacity to suit the space.

Work at the library will continue throughout 2024, until the expected final completion date of February 2025. Any further short closures required will be well publicised before they take place.

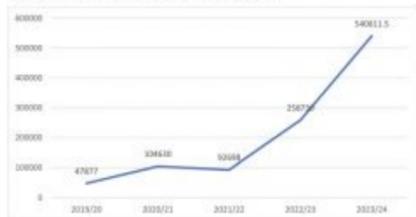

More information on Epsom Library changes will be found at the **Epsom Library page**.

Failing children costs Council taxpayers half-million

12 July 2024

42. During 2023/24 the total amount paid in financial remedies was £540,611.59.

Figure 4: Financial Redress payments year-on-year

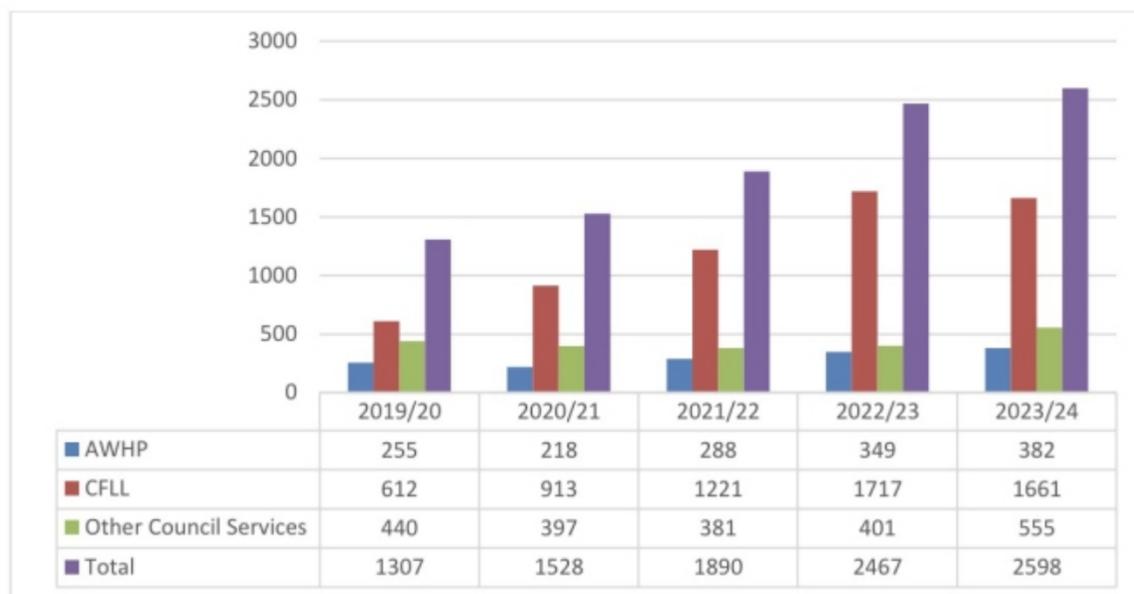

Fines paid out by **Surrey County Council** for repeatedly failing children and young people topped half a million pounds in the past year - more than doubling its previous worst level. The council paid £540,611.59 in the last year to families who raised complaints through the children and social care watchdog.

It is an increase of £281,880, or 109 per cent, on 2023's figure - when the council said it was "working hard to improve services". Part of the "notable increase" is due to a change in guidance from the Ombudsman, which encourages local authorities to provide financial remedies earlier, as well as on an ongoing basis for delays to education, health and care (EHC) plans.

The council said it has cut its backlog of delayed care plans and is approaching the national norm.

Opposition members said ombudsman complaints and fines were just the tip of the iceberg and the trauma caused to families has long-lasting effects.

Figure 1: Total complaints received.

Dr **Julia Katherine**, Surrey County Council's interim director of education and lifelong learning said: "We are working hard to reduce spend on fines, which we know is higher than it should be." She added: "However, we recognise that delays in issuing EHC plans have also contributed to missed provision and subsequent fines, and we apologise for any distress caused to the children and families affected.

"As timeliness improves, provision will be put in place within normal service delivery rather than retrospectively through remedies and we naturally expect fines to fall in line with this. We have seen a 64 per cent increase in EHC needs assessment requests across Surrey since 2020, at a time of a national shortage of educational psychologists, and this has naturally had an impact."

Dr Katherine said the council had prioritised how it was addressing timelines and had reduced the number of delayed EHC plan requests from 1,658 in October 2023 to about 100 by the end of May 2024 - and is on track to eliminate the backlog altogether.

She said: "This should ultimately result in improved timeliness of assessments, putting Surrey in line with national levels, from June 2024, and in turn an improved experience for families and a reduction in the need for financial remedies. We are resolute in our ambition to continue to improve services and outcomes for children and young people with additional needs and disabilities so that they are happy, healthy, safe and confident about their future."

According to the council's own figures, £107,102.50 was paid in "symbolic financial remedies" in recognition of the

“distress and anxiety and time and trouble taken in pursuing” complaints, an increase of £19,656.85 (11 per cent) when compared to the previous 12 months.

The council paid £255,318 because of problems in its education services, including a single payout of £12,900 which included missed education and delay. There were also two one-off payments of £12,486 and £12,400 for loss of education provision and delay. Children’s social care shortcomings cost £74,441 with £43,245 to one family to acknowledge financial support errors. The figures were released ahead of the June 5 meeting of its Audit and Governance committee.

Councillor **Catherine Powell**, leader of the residents group at Surrey County Council, said “I’m sad but it doesn’t surprise me. The half a million is devastating for the families, it’s devastating that its money not being spent on services, but it’s all the other families that are not even able to take it to that point. To go through to the ombudsman, you kind of have to have money behind you and there are an awful lot of people who don’t and they just end up sitting in the system.”

She added: “Once you’ve traumatised a child you don’t untraumatise them, they learn to live with it and that’s where the long-term mental health issue can. “The parents of these children are under extreme strain. If we don’t support the parents in the right way, we are actually creating long term health issues for the parents as well because they are burnt out and unable to cope. I hear it’s a very isolating experience.

“If you have a child not in school regularly there are lots of things you can’t do, you can’t work and you have to support the child in an intense day-to-day way. It’s very hard.”

Cllr Powell added (the council) has “put money into educational psychologists and the service believes it will get the backlog down but the reality is not just that, but the support we provide along the way.”

Missed education provision meant the council had to reimburse parents £222,657 in symbolic financial payments to recognise each month missed. These are payments the council should be spending to meet assessed needs irrespective of a complaint being made.

In the past year, Surrey County Council recorded a total of 1,661 complaints in its children, families and lifelong learning service – down from 1,771 the previous year.

Only a “very small number of complaints” escalate to the Local Government and Social Care Ombudsman, the council said, with the vast majority successfully resolved and responded to by the local authority.

Cllr **Will Forster**, leader of the Liberal Democrat Group said: “We have highlighted Surrey County Council’s awful record of protecting vulnerable young people before. All too often the Ombudsman has found the county council wanting. This is an awful way to spend taxpayers’ money, and on lawyers fees fighting these judgements. The cases that come to the ombudsman area only when parents have fought and pushed through the system to get to this point. There will be so many more failures that carers and young people aren’t able to complain about.”

Soni of Stagecoach Epsom lands lead role

12 July 2024

Vishal Soni student of Stagecoach Performing Arts in **Epsom** landed the lead role in the National Theatre’s musical production of Roald Dahl’s **The Witches**.

Vishal fought off strong competition in auditions to land the role of Luke in a rip-roaring musical version of Roald Dahl’s timeless tale. In the original the boy at the centre of the story is unnamed. “Luke” follows the 1990 film version which gave the boy the name.

Performing on stage at the National Theatre for the 11-week production, Vishal shone in his remarkable portrayal of the courageous young protagonist.

The Witches is a rip-roaring musical version of Roald Dahl’s timeless tale, filled with wit, daring and heart. The Witches have come up with their most evil plan yet, and the only thing standing in their way is Luke and his Gran.

Vishal has been a student of Stagecoach Performing Arts in Epsom for nine years and has an impressive resume under his belt, including standout performances in *The Sound of Music* at Chichester, a UK tour of *Les Misérables*, and *The Prince of Egypt* in London’s West End.

His upcoming role in the 2024 film adaptation of musical, *Wicked*, is a testament to his unwavering passion and undeniable talent.

Commenting Rachel Crouch, Principal of Stagecoach Epsom, said: “I’ve always been immensely proud of Vishal. Not only has he gone from job to job, but he has done so with such a professional and humble attitude. He’s an absolute star and

we couldn't be prouder. Thank you also to HF Management, his fabulous agents."

The Witches run at the National Theatre has now closed. Wicked is due to be released later this year.

New Family Centre grows out of Nursery

12 July 2024

For nearly 25 years **Epsom Methodist Nursery** has been providing early years childcare in the heart of Epsom - just two minutes from the town centre. Now the Nursery is entering an exciting new chapter in its history. As well as continuing to offer early years education for two to five year-olds the Nursery will become a **Family Centre**.

Following consultation with parents the Family Centre is planning to offer a broad range of activities and support including:

- A bumps and babies group for new parents providing ante-natal and post-natal support.
- Support groups for parents and carers of toddlers and young children.
- Courses and classes covering areas such as potty training, coping with challenging behaviours and family budgeting.
- Support for speech and language development.
- An affordable after-school club.
- A summer lunch club.

Already the Family Centre is running two stay-and-play groups for parents and young children and in April it is offering a free 'Ready Steady Cook on a Budget' course. With the cost of living rising, the FREE four-week course aims to support parents to provide easy, wholesome and healthy meals for the whole family whilst sticking to a budget.

The course will cover menu planning on a budget, planning the weekly shopping list, hands on experiences of creating easy recipes and top tips for saving money and time. The move to becoming a Family Centre has been made possible by a grant award from the Community Foundation for Surrey (CFS). CFS has arranged for the Netherby Trust and the Epsom and Ewell Community Fund to provide £12,450 which will match a contribution from Epsom Methodist Church. This money will help fund both the employment of a Family Centre Manager for the next year alongside the various activities that are planned.

Commenting on the grant award **Cara Golding**, the manager of Epsom Methodist Church Nursery, said:

"We are delighted to have secured this funding from the Community Foundation for Surrey. Our work with families at Epsom Methodist Nursery has shown us how committed parents are to their children and families and how keen they are to pick up ideas that will help them with the everyday and sometimes complex challenges that parenting can bring. Local agencies and public services are under pressure and services have been cut back. So the more we can do to provide practical help to parents and give children the best start in life the better. That is our mission."

Epsom centre brings hope to youth who need support

12 July 2024

With one of three Surrey centres based in **Epsom** the multi-agency **Hope Service** gets a glowing **Ofsted report**. Published last month the report finds that the Hope Service, provided by Surrey County Council and Surrey and Borders Partnership NHS Trust, 'continues to be an outstanding school' following its previous 'Outstanding' inspection outcome in

2018.

The Hope Service, which is registered as a Pupil Referral Unit, offers a 'Day Programme' with a curriculum comprising education, therapies and activities. This is part of the broader multi-agency **Hope Service offer in Surrey** which supports young people age 11-18 who are experiencing complex mental health, emotional, social and behavioural challenges which cannot be met by one agency alone. The Hope Service works with the young person, their family and wider network to offer support to try and prevent placement breakdown or the need for a psychiatric hospital admission.

In a glowing report, Ofsted inspectors note that 'pupils flourish at this inspirational school' due to the 'nurturing relationships they form with staff as soon as they join'. Inspectors also found that young people receive 'highly specialist support, in every aspect of learning and development' helping them to grow in confidence and in turn 'realise their full potential and aspire to a bright future when they leave school'.

The report also highlights that 'staff take careful steps to construct an ambitious curriculum for every pupil', with pupil voice central to this and pupils' views captured 'at each stage when planning individual curriculum programmes'.

Inspectors found that the school has a 'palpable air of serenity', empowering individuals to have a 'clear sense of self-identity and autonomy' and readying them for adulthood. The school also offers a significant amount of expert advice and support to the wider community via their outreach work and parent and carer support and information sessions, with parents and carers crediting the school for 'giving their child hope for a positive and healthy future'.

Clare Curran, Cabinet Member for Children, Families and Lifelong Learning, said;

"I'm thrilled to see that this incredible school continues to be recognised as Outstanding by Ofsted. One of the priorities in the Surrey Health and Wellbeing Strategy is to support children and young people with their mental health, including focusing on access to early, appropriate support to prevent further escalation of need, and supporting the emotional wellbeing of parents and care givers.

"The outcomes the Hope Service achieves for Surrey children are remarkable, with staff being able to provide the support young people need to meet their emotional and mental health needs, while at the same time providing a top quality education delivered with high levels of personalisation, kindness and belief in each young person.

"Young people and their families come into contact with this service at a challenging time in their lives, and its vital that we and partners are able to provide a high quality service upon which they can rely."

The full inspection report can be found on the Ofsted website: **50234890 (ofsted.gov.uk)**.

You can read more about the Hope Service, including the school offer, assessment and out of hours 'Extended Hope' crisis service, and free fortnightly online parent and carer support sessions on a range of topics on the **Hope Service** website.

Surrey's £1/4 m fines for failing children

12 July 2024

The failings of Surrey County Council's children services has meant the under-fire authority paid more than £250,000 in fines, compensation, and redress payments to families it let down last year. The settlements are published by the social care ombudsman and last week it upheld three more complaints.

The education watchdog found Surrey County Council continues to miss deadlines, and create needless delays for children waiting for psychological assessments and GP advice.

The latest rulings meant the authority had to payout a further £1,700 to families with an ongoing £100 a month to one - as an acknowledgement of the "ongoing uncertainty and distress" until a final care plan is issued.

The total paid to families for 2023/24 will likely be published from April but the most recent full year figures showed the county council could have saved itself thousands of pounds - had it got things right.

The council sets itself a target of responding to 80 per cent of initial complaints within 10 working days - though this can be extended to 20 days with its children's, families and lifelong learning department.

In children's services only 59.4 per cent were within timescale.

The figures are even worse for education and home-to-school transport at just 44 per cent and 56 per cent respectively.

The Annual Complaints Performance report read: "Where fault is found following a complaints investigation, financial redress can be recommended where appropriate. All financial awards are approved by the relevant head of service and, if greater than £1,000, in consultation with the relevant cabinet member.

“The Ombudsman can also recommend financial redress if they find fault following an investigation.

“During 2022/23 there has been a significant increase in both the number of complaints attracting a financial remedy and the total amount paid of £258,730.53. This equates to an increase of £166,032.51 when compared to 2021/22.”

Of the payments, the council said, £87,445.65 was paid in symbolic financial remedies to recognise the impact of the fault identified, for example distress and anxiety and time and trouble taken in pursuing the complaint. The balance of £171,284.88 was primarily reimbursed costs to address missed provision which it says were “essentially funds that the council would have needed to spend to meet assessed needs irrespective of a complaint being made.”

Councillor Clare Curran, Surrey County Council cabinet member for children, families and lifelong Learning: “We are not able to comment on any individual children specifically, however we take the findings from the Ombudsman very seriously and apologise for the distress these families experienced.

“I am aware that the Council has not always got things right and that the support and service that some children with additional needs and disabilities and their families receive is not always of the standard that we would expect, and I am sorry about that. We are working hard to improve services, and a recent Local Area SEND Inspection noted progress is underway.

“Despite national pressures we regret all delays and are working hard to reduce any backlogs, and ultimately to reduce spend on fines, which we know is higher than it should be. We have taken several actions to address this including securing an additional £15m of funding to increase the capacity of key teams, extending the use of locum and associate educational psychologists, commissioning external providers for support, and increasing advertising to fill positions.

“A multi-agency recovery plan is also in place with short-term and long-term goals, which Ofsted and Care Quality Commission (CQC) inspectors noted had identified areas that need improving and that actions by the local area partnership to address these are starting to make a difference. We know that communication with parents and carers is an area in need of focus and plans are being developed to address this as a standalone priority workstream within the refreshed Surrey inclusion and additional needs -partnership strategy.

“We are constantly reviewing how we support young people who are unable to attend school, and are implementing our £180million capital programme that is increasing the availability of, and access to specialist provision. We also recognise the significant issues that confront the SEND system nationally. We have seen a 64 per cent increase in education, health and care needs assessment requests across Surrey since 2020, at a time of a national shortage of Educational Psychologists (EPs).

“We are doing our utmost to recruit more to meet this demand, and we are filling this gap as best we can. We have already been able to halve the backlog of EP advices through the steps we’ve taken locally, but we hope to see the national shortage in trained EPs and other issues addressed soon through the government’s improvement plan.

“We remain committed to improving our services and outcomes for children and young people with additional needs and disabilities so that they are happy, healthy, safe and confident about their future.”

Surrey boosts specialist school places

12 July 2024

Surrey County Council is pleased to announce the creation of 230 new specialist school places for September 2023 for Surrey’s children with additional needs and disabilities.

The creation of additional school places has been carried out through the successful delivery of 40 construction projects in schools across Surrey. The building projects included the expansion of existing specialist schools and existing Special Educational Needs (SEN) Units in mainstream schools, the construction of new specialist free schools, and the creation of new SEN Units in mainstream schools.

These projects are a part of Surrey County Council’s £260m Special Educational Needs and Disabilities and Alternative Provision Capital Programme investment to improve the long-term sufficiency of state-maintained specialist educational provision across Surrey, and in turn the experiences of Surrey children. The Council is committed to ensuring that children and young people who have additional needs and disabilities (AND) and require a specialist school placement can have their education needs met closer to home and within state-maintained provision wherever possible. The creation of these new specialist school places will support the Council in delivering this commitment, providing more Surrey young people with additional needs and disabilities with the opportunity to be educated within their own local community.

Surrey County Council’s ambitious Capital Programme aims to deliver 2,440 permanent additional specialist school places in Surrey between 2019 – 2026 to create capacity for 5,760 planned places by 2030/31.

Clare Curran, Cabinet Member for Children, Families and Lifelong Learning said: “The location of these new school places means that Surrey families will have high quality specialist school provision close to where they are, which

enables children and young people with additional needs and disabilities to achieve healthy, independent, and fulfilling lives.

“These additional places are part of the Council’s committed investment to increase Surrey’s estate to 5,760 places overall by 2030 to improve the long-term sufficiency of state-maintained specialist educational provision that meets the needs of communities across the county now and in the future.”

As of the 2023/24 academic year, accommodation for around 917 new specialist school places has been delivered across Surrey at a cost of £41m since the beginning of the programme. As a result of this investment, the planned phasing of places and growth plans agreed with individual schools and Trusts, and where additional places have been commissioned to meet additional local needs, Surrey’s state-maintained specialist education estate has been increased from around 3,320 in 2019 – when the Capital Programme started – to around 4,237 places now.

The programme remains on track to complete the remaining 7 projects planned for 2023/24 in the Spring term.

The next phase of Capital delivery in 2024/25 consists of major and medium new build extensions of existing specialist schools which are already in contract, a new specialist free school for autistic children, and two new secondary age SEN Units in mainstream schools for autistic children. Along with the phasing in of additional places from projects delivered in previous years, the programme will create approximately 240 new specialist school places for September 2024. Additional places from these schemes will become available between 2025-2028 in line with growth plans agreed with individual schools. This is because schools need to build their staffing capacity to support the new places.

[Epsom’s Pound Lane Primary School is one of the Surrey state schools sharing the 85 new Mainstream SEN Unit places available as of September 2023.]

Satellite comms. pass Surrey Uni test

12 July 2024

A satellite company called Eutelsat OneWeb recently made a big advancement. They successfully connected their low Earth orbit (LEO) satellites to a 5G mobile network for the first time. This achievement is a big step towards bringing super-fast internet to people in remote and rural areas.

They were able to do this with the help of a partnership called the Sunrise Programme, which is supported by the European Space Agency. In a test, researchers from the **University of Surrey** used these satellites to connect to a 5G network. These satellites are orbiting the Earth and make up the second-largest satellite constellation in the world.

During the test, they checked things like video calls, streaming videos, online gaming, virtual and augmented reality, and web browsing. With the LEO satellites, they were able to provide fast internet with very little delay, or “low latency.” They also made sure that users could smoothly switch between the satellite network and regular mobile networks, providing a seamless 5G experience.

Barry Evans, Professor of Satellite Communications at the 6G/5G Innovation Centre (6G/5GIC) at the University of Surrey, said: “It was thrilling to see no degradation when using the 5G connection made possible by the LEO constellation. This is a step closer to increasing internet access for more people around the world – a privilege that many of us take for granted. The work performed in the 5G pilot tests has demonstrated the feasibility of 5G backhaul over LEO satellites.”

Eutelsat OneWeb’s technology is similar to what we have with 4G, and they matched the quality of 5G in the mobile network with 4G quality in the satellite network. This allowed them to support all the applications they tested.

Eutelsat OneWeb has also made a deal with Telstra in Australia to support their 4G and 5G networks.

Overall, this is a significant achievement in bridging the gap in internet access and improving connectivity for people in remote areas. It’s also a testament to the Surrey’s leadership in space and telecommunications technology.

Surrey schools fly their green flags

12 July 2024

Surrey County Council has been confirmed with the highest number of schools awarded with a **Green Flag** of any local authority in England, with its **88 Eco-Schools**, all of which have a Green Flag status – the highest accreditation in the scheme.

Eco-Schools is the largest education programme in the world which helps sustainability become an integral part of school life. Eco-Schools is pupil lead, supports the enrichment of the curriculum and helps unite young people and the wider school community to care more about protecting the environment and making positive changes.

Various projects have been set up across Surrey's schools and have had a positive impact on the environment. Activities that have taken place include:

- Building new ponds to increase biodiversity.
- Creating allotments to grow vegetables.
- Planting trees to encourage more wildlife and improve air quality.
- Running switch off campaigns to save energy.
- Making signs for bins to make sure people use the correct bins, to help increase recycling.
- Building a greenhouse out of plastic bottles to grow plants.
- Following national campaigns such as Walk to School Week.

The projects have engaged over 50,000 pupils and are already reaping benefits which include:

- Saving a total of 648,330kwh of electricity
- Diverting 111,645 tonnes of waste from landfill
- Creating 8,322 (m2) of natural habitat
- 7,400 pupils participating in walking and cycling initiatives.

Marisa Heath, Surrey County Council Cabinet Member for Environment said: *"This project is so important and very close to my heart because we know informing and educating the young generation will pay dividends in the future to protect our environment. I am so proud that Surrey's schools are getting behind the green agenda and are encouraging so many young people to play their part to help tackle climate change. We know it's a joint effort and if everyone plays their part, we really can have a positive impact."*

"It's an amazing achievement to be recognised as the highest performing county and hope this also inspires other Surrey schools to find out more and get involved."

Adam Flint, Eco-Schools England Manager from Eco-Schools said: *"In academic year '22/23, schools in Surrey County Council achieved more Eco-Schools Green Flags than any other county council in the country. When it comes to enabling young people and schools staff to make positive impacts on our planet, the region is exemplary. The Council has supported their schools in various, showing a great commitment to the future of their pupils and placing faith in them to lead action on climate change and work for a better future for everyone. It's a phenomenal achievement."*

More information about Eco-Schools in Surrey, including how to sign up can be found on **here**.

Child psychological waiting in Surrey eats savings

12 July 2024

Families are using their “savings and holiday money” to pay for private educational psychologist assessments having been told they would wait two years for an assessment through the council, a select committee has heard.

One councillor said all families who had been told they faced a two-year wait and had opted to fund a private assessment should get their money back and Surrey County Council would fork out for the refund.

Questions were also raised about how well the council was communicating with parents over eligibility and the scheme to refund parents, at a meeting of the county council’s children, families, lifelong learning and culture select committee on Monday (October 2).

The meeting heard about the steps being taken to reduce the wait times for children getting an education, health and care plan (EHCP), which is put in place to ensure children with additional needs or disabilities get the provision they need at school.

In 2022, Surrey was completing just 26 per cent of EHCPs within the legally required 20-week timeframe, down from 65 per cent in 2021. The council is aiming to be back over the target of 60 per cent of EHCPs issued within 20 weeks by the end of May 2024.

For the summer and autumn terms of 2023, a temporary reimbursement offer is in place for parents, up to a maximum of £925, where private advice has been obtained and where no further Surrey County Council professional advice is required.

The offer is part of the steps being taken to try to improve the council’s speed of getting through EHCPs, with a shortage of educational psychologists being one of the factors behind the delays.

Councillor Rachael Lake (Conservative, Walton) said she had been in contact with a family who were told in summer 2022 there would be a two-year wait, and challenged the policy of only allowing reimbursements in specific circumstances. Cllr Lake said: “Last summer when this family was told that it was a minimum two year waiting list, in writing, they chose to use their family savings and holiday money for an assessment which Surrey County Council has accepted in its totality and has acted upon, for which they are extremely grateful. Had they not spent this money, they would be one of the people still waiting this summer with another year to go.”

She said she thought it was “wrong” that this family could not apply for the money to be given back to them, saying she thought any family told they would have a minimum of two years to wait should be eligible.

One parent spoke to the select committee and said they only became aware that private assessments could be considered on September 22, when they were told by the caseworker helping with their daughter’s request.

The parent was sent a link to a web page which no longer existed and said she had only found out that there had been an extension to the eligibility criteria when asking questions ahead of the select committee meeting.

She said: “I commend the committee’s efforts to try and reduce waiting lists, but without effective communication, both internally to your staff and externally, the decisions and policies that you make are meaningless.”

The meeting’s chair said it was clear the council had a “challenge communicating with parents and carers”.

Cllr Fiona Davidson (Residents for Guildford and Villages, Guildford South-East) said: “I’m not sure that we’re really tackling it as effectively as I think everyone would choose. On behalf of the committee, I would certainly ask if there was a renewed focus on those communications.”

Assessments for EHCPs will be carried out in chronological order, starting with those who have been waiting longest, except for more vulnerable children, where there is a safeguarding concern, or where they are due to transfer to the next phase of their education, which are being prioritised for completion on time.

Documents show that in order to catch up with the outstanding EHCPs, the county council will need to issue 330 overdue EHCPs in September, 321 in October and 260 in November.

The number of overdue plans being issued per month will be over 200 until May 2024, when it is forecast to drop to 86, compared to 147 which should be completed on time and meeting the 60 per cent target.

But documents also show that this target can only be achieved if the demand for assessments for an EHCP reduces.

The county council will focus on meeting needs “at the earliest opportunity”, with more language and communication support for reception classes.

The county council’s leader said before the meeting that, with access to appropriate support services at an earlier stage, families might not need to go down the road of getting an EHCP.

Cllr Tim Oliver (Conservative, Weybridge) said “looking through the other end of the telescope” could lead to “low level” support given earlier on and building a “more resilient, preventative system”, as well as allocating funding to those already in the system.

He added: "I accept that it's a challenging process for parents. It's not really their first choice."

While the cabinet member education and learning, Cllr Clare Curran (Conservative, Bookham and Fetcham West), told Monday's meeting she was "really confident" the plan to catch up on overdue EHCPs was realistic and could be achieved. But she said it would be put under pressure if there were a "massive increase" in new requests coming forward, or if there were a large number of staff leaving roles, as happened in 2022.

Surrey's Big Guns ganging up

12 July 2024

Surrey is set to benefit from a deepening of ties between **Surrey County Council** and the **University of Surrey** through a new **Civic University Agreement** being developed between the two institutions.

Opportunities to work even more closely are being discussed at a special event today that hopes to explore new areas for collaboration including initiatives for economic growth, health and sustainability. The event will be opened by University of Surrey President and Vice Chancellor **Max Lu** alongside leader of Surrey County Council, **Tim Oliver**.

Both institutions recognise the huge potential that can flow from more consistently combining Surrey County Council's leadership, capacity and resources with the University of Surrey's research and innovation strengths, enormous economic contribution to the region and multiple global specialisms.

The University of Surrey has a good track record of working in and for the local community from hosting a space industry round table with the Science Minister; delivering air quality research that has benefitted local communities and schools; and carrying out health research that is helping earlier diagnosis of cancers in Surrey residents. The University also makes a significant positive impact on the Surrey economy - supporting 17,500 jobs in the county and contributing £1.3 billion to the county's economy. (Figures taken from a report by independent economic consultants Biggar Economics).

Other examples of current joint working include the Surrey Climate Commission and One Surrey Growth Board - both projects that are key to the sustainable prosperity of the county, and involving significant contributions from academics at the University of Surrey.

Professor Max Lu, President and Vice Chancellor of the University of Surrey, said:

"The University of Surrey is a global community, with our students, staff and collaborators from all over the world, and our research has tremendous global reach and impact. But we are proudly anchored in Guildford and Surrey, and have a symbiotic relationship with our region and county.

"In particular, we have a long and proud record of collaborating with Surrey County Council and many regional stakeholders. The Civic University Agreement that we are launching today will give us a bold and visionary framework for harnessing our world-leading research to help put Surrey on the world map, to help transform lives in Surrey for the better today, and to work together to build Surrey's future prosperity, to enrich lives and protect the planet."

Cllr Tim Oliver, Leader of Surrey County Council, said:

"The University of Surrey has long been a powerful asset and a trusted partner for the County. This agreement will take that to the next level. Combining our own high ambitions for Surrey with the Universities world-leading research strengths will help us bring the best of tomorrow to Surrey today, and to project Surrey's greatest strengths on a global stage. Our residents, our communities and our economy will be the beneficiaries of this deepened partnership with the research and education powerhouse with which we share our name."

The new Civic University Agreement is part of a national movement to elevate to a strategic level the relationships between universities and the communities in which they are based. The agreement will focus on enhancing life in Surrey through:

- driving sustainable economic growth
- tackling health inequalities
- enabling a greener future
- empowering thriving communities.

University centres of excellence that will contribute to delivery of these priorities include:

- The Institute for Sustainability – which has been founded to be a critical player in the global transition to sustainable living – through research, innovation, partnerships, education and civic engagement
- The People-Centred Artificial Intelligence Institute – which is driving research and innovation that places people at the heart of the future of AI
- The Centre for Sustainability and Wellbeing in the Visitor Economy – focusing on transport, tourism, hospitality and events
- Interprofessional expertise across human and animal health – including the combined strength of the University’s School of Veterinary Medicine, School of Biosciences and new School of Medicine
- Surrey Space Centre – which is a key partner with the growing space sector in the region
- 5G/6G Innovation Centre – representing decades of experience at the forefront of high-speed and reliable mobile communications with multiple economic and societal applications.

Today’s event is the first step in building closer ties between organisations that share a strong purpose to help society in the local region, and brings together an experienced team from across the University’s faculties, schools and institutes, with leaders from all the directorates of Surrey County Council. It is focused on identifying creative opportunities for deeper collaboration, with the potential to deliver transformational change for our community. Other local stakeholders will be invited to join the agreement in the future.

School transport early term teething problems

12 July 2024

Families have been left without school transport for the start of term despite **Surrey County Council** promising to “learn lessons” after pupils were left stranded last year.

One parent of a 19-year-old with severe learning difficulties said she “stopped mentioning” going back to school to her son once she realised transport probably wouldn’t be in place in time for the start of term.

Georgie Morris said her son, Greg, missed the first four days of his school term, but has now had confirmation that he will be able to get to school on Monday (September 11).

She first had transport approved for Greg, who has a placement at a New Malden college which is the nearest suitable place for him, in June.

But having waited through the summer for details to be confirmed she claims she was told the day before Greg was due to go back on September 5 that there was no transport in place.

Having spoken to someone at the county council on Thursday, September 7, Georgie then had Greg’s transport confirmed.

Despite some families not having transport sorted for the start of the new term Surrey County Council bosses say “significant improvements” have been made since last year but admitted there were issues with finding providers for a small number of children who require specialist provision due to their needs.

There are also more than 350 applications waiting for travel arrangements, but a council spokesperson explained these were from 544 applications made in August. So far more than 170 have been dealt with, with the remaining ones on track to be assessed within the 30 day timescales.

But she said Greg, who is non-verbal, has severe learning difficulties and global developmental delay, is bored at home, and needs the stimulation school brings.

She said: “I tell him ‘It’s so many sleeps until school’, so he was geared up to go to school. Once I realised this wasn’t going to happen, I just stopped mentioning it, we just carried on with the holidays.”

She couldn’t drive Greg from her Dorking home to the college, saying she doesn’t always have access to the car, and it would be too stressful for her. But once she had the transport confirmed, she said she “instantly felt okay”.

Georgie told the LDRS: “I’m lucky in the fact that I can chase and I’ve got the wherewithal to kick up a stink and to get things done, but a lot of these parents don’t.”

She worried about other parents, some of whom may have additional needs themselves, or might not know where to turn. While she's sympathetic with staff at the council who have a "very difficult" job to do, she said better accountability and communication were needed.

A county council spokesperson said: "There is a small cohort of children who require specialist provision for high and/or complex medical needs that, due to a lack of suitable providers, are waiting for appropriate arrangements. "We are in direct contact with these families and are actively working with them to find a solution. Measures such as personal travel allowances have been offered in the short-term."

In May, councillors were warned that the county council needed to tackle a £12million overspend on school transport "to avoid adversely impacting services".

A review following issues at the start of the 2022 school year led to 50 recommendations for the authority, as councillors heard that families were turning to food banks in the face of delays and suffering an impact on their mental health.

Councillor **Clare Curran**, cabinet member for education and learning, told a select committee meeting in December she didn't "underestimate" the task at hand, but was "confident" that by this September families wouldn't "suffer the failure" of the 2022 start to the year.

A council spokesperson told the LDRS this week: "Significant improvements have been made regarding the assessment and planning of families' transport arrangements, and addressing the challenges faced previously. We are not currently experiencing any application or travel delivery backlogs, and across the last six months 95% of applications were assessed within our agreed timescales.

"All applications for home to school travel assistance received prior to 31 July were processed, and families had their travel arrangements communicated to them, before the start of the autumn term."

Families with specific complaints and enquiries are urged to call the council's Contact Centre on 0300 200 1004 so it can investigate.

Surrey schools going solar

12 July 2024

Schools across the county are having their outdated end-of-life gas boilers replaced with new solar heating systems to help combat "skyrocketing" energy prices.

The £6million project is split between time-sensitive Government cash coupled with **Surrey County Council's** "greener futures" fund which it says will be "effectively repaid" via £1.6m in overall savings from cheaper fuel bills - or through reduced energy tariffs to schools.

The work will be carried out over the summer and is scheduled to be completed before the start of the new school year. This is not only to minimise disruption but also because the Government contracts are time-bound, meaning if it is not used, the cash is lost.

Surrey County Council's greener futures strategy says evidence that climate change is real is beyond doubt and its effects are already being felt.

It says an increase in man-made greenhouse gases will impact on the "health, wellbeing and finances of Surrey's residents, businesses, landscapes and biodiversity for many years to come" and as such, the county intends "to play its part by reducing its dependency on fossil fuels".

The Tuesday, July 25, environment meeting heard from lead councillor **Marisa Heath** who said one of the chosen schools told her they were "absolutely thrilled because they've got skyrocketing energy prices and can't even get the temperature right". She said: "They're really excited that we're working with them on this. It's a great program proposal. We need to move it on as we've been successful in getting government money."

The first set of schools to benefit from the new heating panels are: Beauclerc Infant School, in Sunbury, Kingswood Primary School, in Lower Kingswood, St Peters Centre, in Englefield Green, Worplesdon Primary School, in Worplesdon,

and Park Mead Primary School, in Cranleigh.
