

# Green Flag Awards Honour Epsom and Ashtead Commons

31 July 2024

Local communities are celebrating as both Epsom Common and Ashtead Common have been awarded the prestigious Green Flag Award, recognizing them as two of the best-managed green spaces in the UK. This esteemed award, administered by the environmental charity Keep Britain Tidy, sets the benchmark for the management of recreational outdoor spaces across the UK and internationally.

Epsom Common Local Nature Reserve (LNR) has achieved this accolade for the 18th consecutive year, underscoring its continued excellence in environmental stewardship. The site, managed by **Epsom & Ewell Borough Council**, is a haven for biodiversity, featuring oak woods, pasture woodlands, and wetlands that are home to rare species like cotton spotted orchids and purple emperor butterflies. It is also designated as a Site of Specific Scientific Interest (SSSI) due to its significance as a breeding bird habitat.

Councillor **Liz Frost**, (RA Woodcote and Langley) Chair of the Environment Committee, expressed pride in the achievement, attributing the success to the hard work of volunteers and partners, including the Epsom Common Association, the Lower Mole Partnership, and Natural England. "This award is a testament to the dedication of our volunteers and staff who work tirelessly to maintain this beautiful and biodiverse space," she said.

In Ashtead, the Ashtead Common has also been honored with the Green Flag Award, further enhanced by receiving Green Heritage Site Accreditation. This recognition highlights the site's exceptional conservation efforts and its status as a National Nature Reserve since 1995. Managed by the **City of London Corporation**, Ashtead Common is renowned for its ancient oak pollards and diverse habitats, including those supporting rare invertebrates and breeding birds.

**Ben Murphy**, Chairman of the City Corporation's Epping Forest and Commons Committee, noted the significance of the award, stating, "These awards demonstrate the effectiveness of our management plans in preserving open spaces like Ashtead Common for future generations. It also reflects the positive impact of the City of London Corporation's investments in local communities."

Both sites were evaluated on several criteria, including accessibility, safety, cleanliness, community engagement, and efforts to combat climate change. The awards celebrate the commitment of the staff and volunteers who ensure these spaces remain welcoming and well-maintained for the public. The Green Flag Award scheme highlights the importance of well-managed green spaces in fostering community well-being and promoting sustainable living.

The achievements of Epsom and Ashtead Commons underscore the value of preserving natural habitats and providing safe, accessible green spaces for all. As community members and nature enthusiasts enjoy these areas, the Green Flag Award serves as a reminder of the critical role that well-maintained parks and reserves play in our social and environmental health.

## Making Box Hill more accessible on foot

31 July 2024

Access has been vastly improved up to iconic landmark, Box Hill in the Surrey Hills National Landscape thanks to the refurbishment of 300 steps.

Originally installed by volunteers back in the 1980s, the steps had become eroded and difficult to navigate with visitors often detouring off the steps onto slippery and dangerous terrain. The steps, which traverse the steep hillside linking the Stepping Stones path to the summit have been excavated and rebuilt to protect the biodiversity of the site and encourage residents and visitors to access the popular beauty spot in a more sustainable way.

Thanks to funding from the North Downs Way National Trail, through the Interreg Experience Fund, Natural England and Surrey County Council, over £53,000 was allocated to the project. Surrey County Council's Countryside Access Team commissioned, and project managed the extensive works which also included improving additional paths between the river and the steps.

Landscape construction specialists Maydencroft, undertook the work over a 3-month period with the challenging location of the steps meaning much of the construction had to be done by hand rather than machinery with materials carried to the site each day by a team of workers. A floating pontoon was even installed across the River Mole to help get materials to the site.

The new steps have been constructed using around 15 tons of recycled plastic which has been manufactured from a total of 7,731,360 milk bottle tops. This hardwearing material was chosen due to its longevity, helping to reduce future maintenance costs, prevent plastic from going into landfill and the felling of trees for materials. If oak boards had been used instead of recycled plastic a total of five oak trees would have needed to be felled.

**Marisa Heath, Surrey County Council Cabinet Member for the Environment comments:** "This iconic site is much loved by residents and visitors. The refurbishment of these steps encourages everyone to access the site in a more sustainable way, offering the visitor a choice to travel via public transport and safely climb up to the famous viewpoint without the need to bring a car and without disturbing wildlife by coming over the created path. It is also very encouraging to see the use of recycled materials out in Surrey's countryside, helping to not only to reduce the long-term maintenance burden on Surrey County Council but also tackling climate change by the reduction of emissions."

**Peter Morris, North Downs Way National Trail Manager comments:** "It is wonderful to see how successful partnership working has enabled this engineering feat to be completed quickly and efficiently for the benefit of all users. Box Hill, in the Surrey Hills National Landscape is one of the highlights on the North Downs Way National Trail. It is important that everyone has an opportunity to enjoy and experience this 153 mile long-distance trail, so making it accessible is vital. Thanks to all partners including Surrey County Council, the National Trust, Maydencroft and the European Regional Development Fund for supporting the project and helping to secure the future resilience of our natural and cultural assets."

**Stephanie Fudge, National Trust General Manager Surrey Hills comments:** "Since the steps were re-opened to the public, we have had some great feedback about the ease of access along this trail. It is one of the most popular routes at Box Hill and it has improved the experience of walkers. There are a couple of rest points with views that many visitors take advantage of. It has been wonderful working with Surrey County Council and the National Trail on this initiative and we are grateful for the support."

## Community urged to help restore nature in Surrey

31 July 2024

Surrey County Council is seeking support from residents, businesses and community groups to help shape a new 'Local Nature Recovery Strategy' (LNRS).

Developed with partners, the strategy will set out a roadmap for the restoration and enhancement of Surrey's natural environment, ensuring that it is sustainable now and for future generations.

**Marisa Heath, Cabinet Member for Environment at Surrey County Council said,** *"We are at a crucial, formative stage of a plan that we hope will create an environment where wildlife can truly thrive in Surrey."*

*"To ensure that everyone embraces the LNRS and to maintain momentum in taking action to help nature, we want to make sure that as many people as possible are involved right from the start. That's why we encourage and welcome insight and opinion on what people want from their natural environment. Whether it's more flower rich grasslands buzzing with life, or a new woodland on your doorstep that will provide future generations with dappled shade and homes for our precious wildlife."*

*"A healthy natural environment provides us with so many undervalued benefits from clean breathable air to protection from the worst effects of climate change such as flooding or drought. Please do get involved and help us shape this vital plan."*

Residents are encouraged to have their say by completing the **online survey** or by attending the in-person 'Surrey Nature Day' event on 28 September 2024. Held at West Horsley Place, the free, family celebration of nature in Surrey will feature performances of an original play, *Wild Walks* – produced, directed and performed by Guildford Shakespeare Company. More information and booking can be found on the **online survey page**. Other events will also be advertised here.

Surrey is one of 48 local authorities nationwide given responsibility for this work by DEFRA, addressing the current nature crisis in England, funded by UK Government.

For more information, see **Have Your Say Today - Local Nature Recovery Strategy - Commonplace**.

## Wet weather kicks into the long grass

31 July 2024

People fed up with long unsightly overgrown grass and verges can use an interactive map to see when their favourite spots are next due to be cut.

The seemingly endless rainfall this year has heavily affected work across the county as the wet weather shuts down the process – Surrey County Council says this is because its machinery will not cut wet grass properly and can, in some cases, even damage the turf.

Urban areas are due to have six cuts a year by the county – unless they have been designated as a blue heart zone. Rural cuts and high speed roads are chopped twice a year.

Blue hearts are part of Surrey's 3,000 miles of grass verges but have been deliberately left to grow as a way of increasing plant and insect biodiversity.

Reducing the amount of times these areas are cut is intended to allow native plant species to thrive – or even to sow native wildflower seeds.

As well as using the map, the county council has published a table covering each area in Surrey and when it estimates to get on with the job.

The council's website reads: "We are experiencing some delays with our planned grass cutting programme dates in parts of the county as a result of the weather and operational issues.

"We are working with our contractors to improve the situation and are sorry for any inconvenience. Thank you for your patience."

The Blue Campaign, founded in 2014 by wildlife filmmaker Fergus Beeley in response to dramatic declining biodiversity in the UK, lets nature take a bit more control, the county council said.

It encourages the rewilding of green spaces in suitable areas and are marked in blue on the map.

Often they can be identified with a blue heart planted in the ground to show residents grass and flowers are deliberately being left to grow – and the council is encouraging residents to identify new sites and gather local support.

Any areas put forward for blue hearts will be reviewed by the county council and, if approved, contractors told to skip the verge unless some safety work is needed.

All verges, including blue hearts are supposed to have a full cut each autumn.

Surrey County Council spokesperson said: "Our new interactive grass cutting map available here shows residents when their area is due to be cut.

"Our grass cutting programme can however be heavily affected by weather. We cannot cut when it is raining heavily or shortly after as the machinery will not cut the wet grass properly and risks damaging the grass itself.

"Weather and ground conditions permitting, urban spaces are cut six times a year and for rural areas, this takes place twice a year."

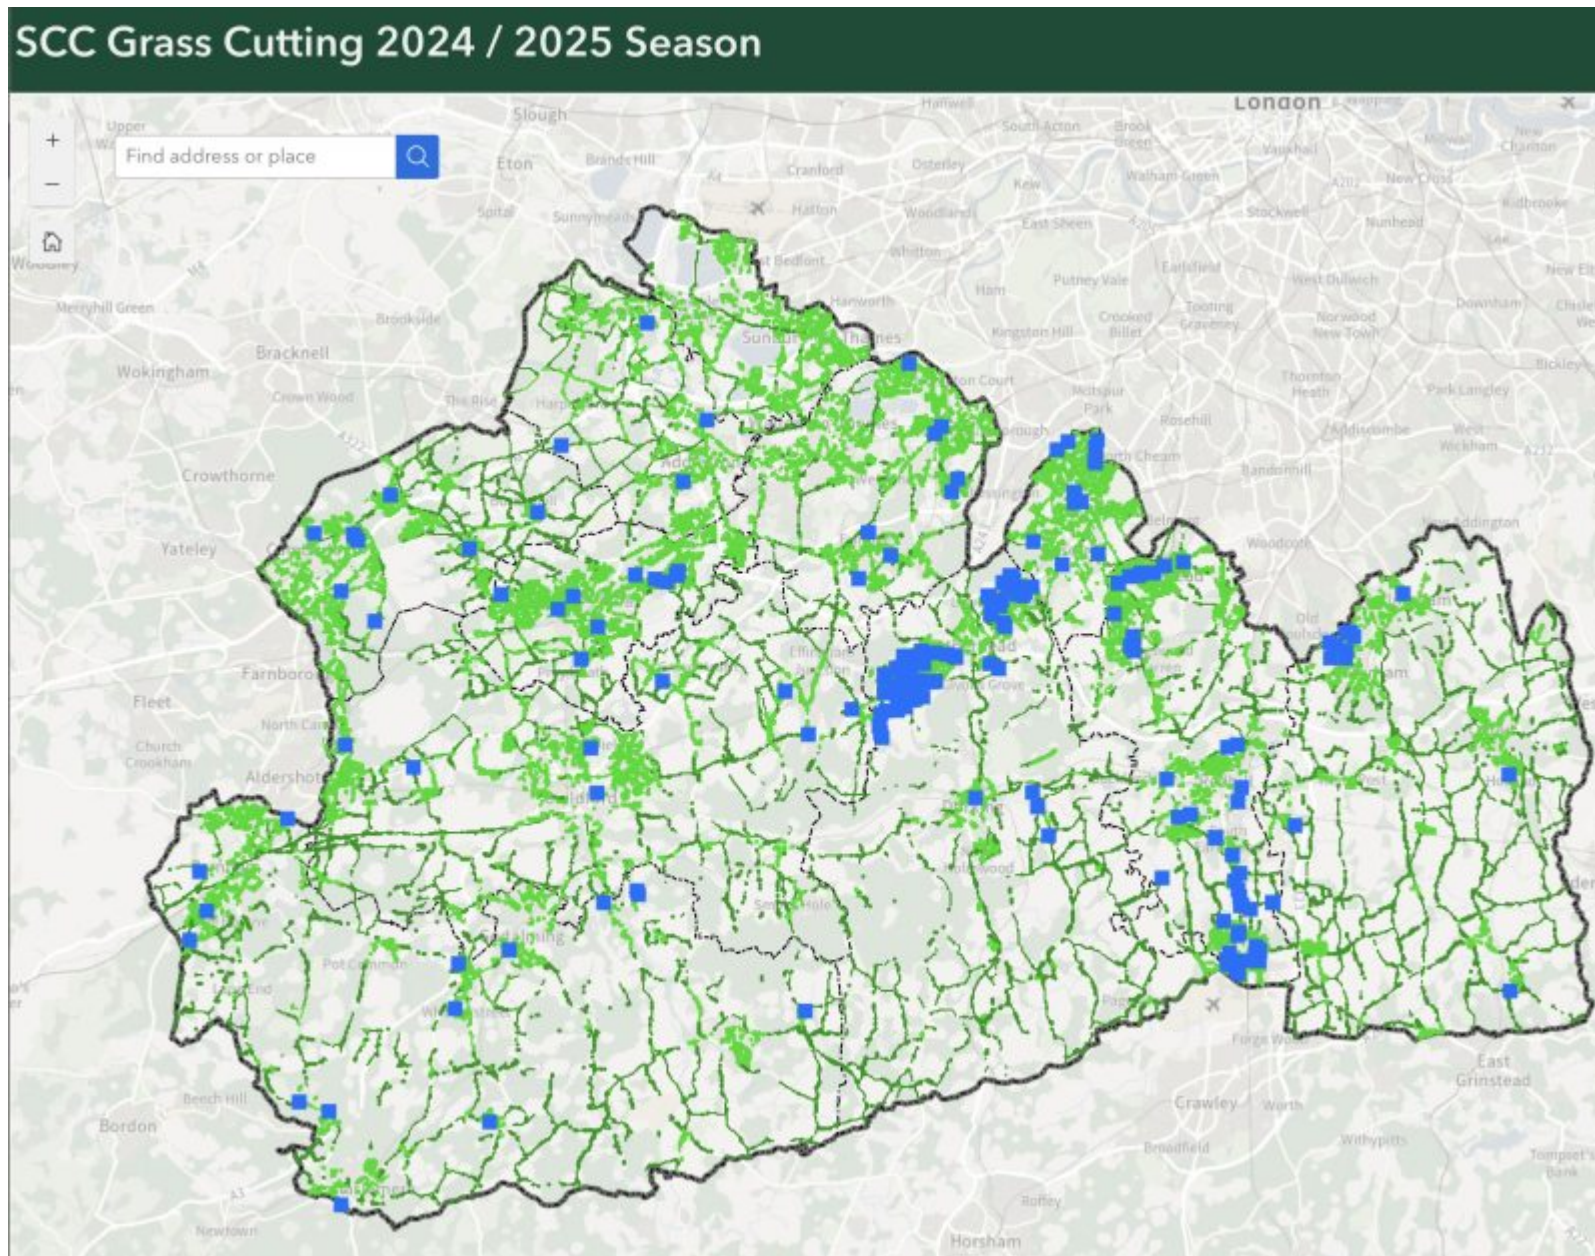

Image: Surrey grass cutting, when your verge is due to be cut. Areas in blue are being left to grow over the summer to encourage biodiversity (image SCC)

# Cleanliness is next to Godliness

31 July 2024

On Sunday, June 9th, around 30 volunteers from ASEZ WAO UK, a local young adult volunteer group inspired by the World Mission Society Church of God in Epsom, gathered to clean along the stream at Longmead Road. The event, joined by Howard Gregory, Chairman of the Epsom & Ewell Tree Advisory Board, aimed to prevent plastic pollution in local waterways.

This litter pick was part of the group's Blue Ocean campaign, which strives to reduce pollution in streams, rivers, beaches, and seas. In just two hours, the volunteers collected a total of 37 bags of litter, removing mainly plastics to prevent them from entering the waterways. Passersby at Longmead Road were pleased and cheered the volunteers, expressing their gratitude.

ASEZ WAO UK conducts cleanups like this almost monthly, fostering a positive mindset and a sense of community.

The World Mission Society Church of God, located on East Street in Epsom, is a global church with

over 7,500 branches and approximately 3.5 million members. The church teaches about God the Father and God the Mother through the Bible.

The group remains committed to keeping the waterways in Surrey plastic-free.

ASEZ WAO UK

## First school art works for Surrey's trees

31 July 2024

An exciting competition kicked off across Surrey on the 1<sup>st</sup> June to encourage young people to celebrate ancient trees and have their artwork featured in a new children's book, 'The Thousand Year Tree'. Children aged between 4 and 11 years are encouraged to head to their local Surrey library to pick up a template and create artwork for the inside covers, known as 'end papers' of the new book. Any art medium can be used, and artwork should be themed around trees and nature.

As England's most wooded county, Surrey is home to some of our nation's oldest trees, many are over one thousand years old. To celebrate these trees, local author Lucy Reynolds and illustrator Katie Hickey, are working with a group of children from Weyfield Primary Academy in Guildford. They have already been involved in a series of creative workshops, school assemblies and educational visits to Newlands Corner in the Surrey Hills National Landscape, to see the ancient yew trees. The children, guided by the experts will create poems and timelines charting the history of ancient trees which will culminate in the creation of a captivating Children's Book. The book will be distributed across all 52 of Surrey's libraries as well as through additional local schools, inviting readers of all ages to learn about ancient trees and how to safeguard their future.

**Gordon Jackson, Chairman of the Surrey Hills Society said:** *"The Surrey Hills Society is delighted to be involved in this project, supported by a grant from the Surrey Hills Access for All fund. We are extremely grateful for the promotional support of the Surrey Library network. Being a part of the process of creating the book with both Lucy and Katie is inspirational and we very much look forward to seeing the final literary masterpiece. The Society is committed to encouraging people of all ages and abilities to discover and enjoy the Surrey Hills and we are proud to help Surrey's children learn so much about our ancient trees and surrounding countryside."*

**Carolyn McKenzie, Director of Environment at Surrey County Council said:** *"With creativity, education, and community spirit at its core, this project not only celebrates Surrey's ancient trees but also fosters a deeper connection between young minds and the natural world, paving the way for a future generation of environmental stewards. This project highlights even more the importance of Surrey's tree planting scheme, which will plant 1.2 million trees by 2030, the trees of today will become the ancient trees of the future leaving a lasting legacy."*

**Susan Wills MBE Assistant Director Arts, Culture, Heritage and Libraries at Surrey County Council said:** *"What a wonderful opportunity for children to take part in a creative reading project that encourages learning about nature and Surrey's ancient trees. Surrey is England's most wooded county and this project is a wonderful opportunity to educate children in the vital role trees play, from providing habitats for wildlife to absorbing carbon dioxide! All fifty-two of our Surrey Libraries are taking part so wish all the participants the best of luck!"*

The competition runs from 1 June to 4 September and templates can be collected and returned to any Surrey Library. Further details and terms and conditions are available on the Surrey Hills Society website, [click here](#) to find out how you can get involved..

The project is a collaborative effort between the Surrey Hills Society, Surrey Hills National Landscape, Surrey County Council, author Lucy Reynolds, illustrator Katie Hickey, Guildford Book Festival and The Old Dungate Press. With thanks to funding from the Surrey Hills Access for All fund, enabling everyone to love and protect Surrey's National Landscape.

## County lines of trees

31 July 2024

Surrey County Council has worked with residents and community groups to plant over 36,000 new trees across the county. The council remains on track to plant 1.2 million trees by 2030, marking one for every resident.

Since the launch of the initiative in 2019, over 510,744 trees have now been planted across the county. This year, 1952 metres of new hedgerows have been planted during this year's tree planting season, offering habitats for wildlife.

A range of community projects have also been undertaken to support our ambitions to improve air quality and biodiversity. These include:

- A group of 180 community members came together to plant over 7300 hedgerow trees at Bocketts Farm to support birds, mammals and other wildlife.
- 42 trees were donated to Bronzefield Women's Prison in Ashford and the tree Planting and Establishment team delivered a workshop to those women who were undertaking horticultural qualifications.
- 2625 native broadleaf trees were planted in The Priory C of E School in Dorking using an experimental planting technique, Miyawaki/Tiny Forest. This technique of dense tree planting restores naturally occurring native species and speeds up natural ecological succession.

The new webpages have also been developed to include an interactive tree map, tree planting advice and tips for how residents can get involved. More details are available [here](#).

**Marisa Heath**, Surrey County Council Cabinet Member for the Environment, said, *"I'm delighted that we are progressing our ambition to plant 1.2 million new trees in Surrey as we work to both meet net zero targets but also make our county as green and beautiful as possible."*

*"This is not something we can deliver alone and we will continue to work with our partners and communities to achieve this target. I encourage residents to visit our new **webpages** to find out how they can get involved."*

## Should Nonsuch Park go to the dogs?

31 July 2024

Epsom & Ewell Borough Council will launch a six-week consultation on commercial dog walking in Nonsuch Park from Monday 29 April.

The consultation was commissioned by Nonsuch Park Joint Management Committee following concerns raised by visitors about the increase in dog walkers with multiple dogs in the park.

Ahead of implementing any measures to control commercial dog walking, the Committee is keen to consult with the public and stakeholders about this issue to help inform any future decisions.

Officers from Epsom & Ewell Borough Council will also be at Nonsuch Park on the following dates and times to answer any questions the public may have:

- 29/04/2024 - Cheam Gate, 8:30am-10:30am
- 15/05/2024 - London Road Gate, 10:30am-12:30pm
- 22/05/2024 - Sparrow Farm Road Gate, 12:30pm-2:30pm.

Councillor **Julian Freeman**, (Lib Dem College) Chair of the Nonsuch Park Joint Management Committee, said: "We are

aware that Nonsuch Park is hugely popular with dog walkers and while most dog walkers are responsible, concerns have been raised about the growth of commercial walkers with multiple dogs.

“It is important that as many people as possible engage with the consultation, so the Committee can understand park visitors’ thoughts, concerns and suggestions about dog control and commercial dog walking. Their input will help us make informed decisions that balance the needs of both dog walkers and the broader park community.”

The consultation survey is available on the Epsom & Ewell consultations webpage – Consultations | Epsom and Ewell Borough Council ([epsom-ewell.gov.uk](http://epsom-ewell.gov.uk)).

The survey will close on 3 June 2023.

Nonsuch Park is managed and maintained by a Joint Management Committee, comprising an equal number of Councillors from Epsom and Ewell Borough Council and the London Borough of Sutton. The committee Chair rotates between the two councils annually. The two councils fund, on an equal basis, the running of the park, after taking income into account. The committee is covered by the political balance arrangements.

## Ewell’s wetlands to be celebrated on an open day

31 July 2024

The South East Rivers Trust (SERT) is inviting local residents to come and celebrate the newly-created **Chamber Mead** wetlands with a day of family fun, activities and guided tours.

The celebration day on Saturday 20th April will give nature lovers the chance to add plants to this critical pollution buster for the **River Hogsmill**, a precious chalk stream.

Families will also have the chance to learn about the health of the river by taking part in riverfly demonstrations, a scavenger hunt and nature craft activities. Guided tours of the wetlands will also be part of the day, which runs from 11am to 3pm.

The open day begins a fortnight of planting opportunities for schools and community groups. All the plants have been specially selected to absorb pollutants and attract pollinators and an increased range of wildlife across the **Hogsmill Local Nature Reserve**.

The wetlands in **Ewell** now divert urban pollutants from the Green Lanes Stream away from the Hogsmill, one of only 200 chalk streams in the world. Once filtered water is fed back into the river just downstream of the famous Stepping Stones, another 5km of waterway is protected as it flows into south London all the way to the Thames.

**Dr Bella Davies**, Co-CEO of SERT, said: “We’re thrilled to be giving the community the chance to learn all about Chamber Mead wetlands and crucially give people the chance to complete the project. The public have been very supportive of the wetlands from the start and adding plants is a wonderful opportunity to attract new wildlife not only to the water but the wider nature reserve. This will fulfill the potential of the wetlands to become another jewel in the crown of the reserve and make it an even bigger asset for the community. We’re excited to see the results in years to come on the Hogsmill, which should be a haven for brown trout, water voles and native crayfish, among other species which need our help in recovering their numbers.”

Councillor **John Beckett**, (RA Auriol) Chair of the Environment Committee at **Epsom & Ewell Borough Council**, said: “We are overjoyed to be able to join SERT on the Chamber Mead Wetlands Open Day, to celebrate the fantastic work that has been done here to boost biodiversity and reduce pollution in the Hogsmill River. I hope that residents will join us to help complete the project, which will ensure the Hogsmill River Local Nature Reserve is a place where wildlife and nature can thrive, and one that we can enjoy for many years to come.”

Supported by the Hogsmill Catchment Partnership, the project has received funding from The Coca-Cola Foundation, Natural England (through the Species Recovery Programme), the Environment Agency, Surrey County Council, the Rivers Trust, the Zoological Society of London, Garfield Weston Foundation and Thames Water, with in-kind support from the landowner Epsom & Ewell Borough Council. The new wetlands are part of the wider Replenish programme in partnership with the Coca-Cola Foundation and the Rivers Trust. The aim of Replenish is to restore millions of litres of water in this and other local catchments, in turn improving biodiversity.

Speeches will take place at 11:30am- 12noon:

These will be delivered by **Jackie King**, Chief Executive of Epsom & Ewell Borough Council, Dr Bella

Davies, Co-CEO of the South East Rivers Trust, and Borough Mayor Cllr **Robert Geleit** (Labour Court) who will also cut the ribbon to officially open the wetlands.

Plants such as yellow flag iris have been chosen for their ability to take up nutrients such as nitrogen and phosphorous. Meanwhile ragged robin and purple loosestrife will attract species such as butterflies, bees and damselfies, while brooklime, typical in chalk stream settings, will offer shelter for tadpoles and sticklebacks.

Chalking up a victory for the Hogsmill

“Garden of Eden” coming to West Ewell as Wetlands Plan is approved. Will this stop pollution?

Voles let loose on the Hogsmill

About the South East Rivers Trust:

The South East Rivers Trust is an environmental charity bringing rivers and their catchments back to life. Working in 12 river catchments across the South East, the Trust connects communities and mobilises citizen scientists to educate and engage people on the importance of rivers, and supports and challenges stakeholders, businesses and individuals to protect them. The Trust uses data and evidence to target positive action and works with nature to make rivers healthy again. This includes tackling water pollution, addressing water scarcity, reconnecting rivers and restoring habitats.

## Tree felling foul of the law

31 July 2024

The culprits who illegally chopped down more than 100 protected trees and damaged seven others have been fined nearly £20,000, Woking Borough Council said.

A landowner, together with its contractor were prosecuted and fined for the unauthorised felling of the trees near Upshot Lane, Pyrford, after pleading guilty at Guildford Magistrates’ Court.

Burhill Development Ltd admitted it ignored a tree preservation order on its land and was made to pay £15,140, comprising fines of £11,000, a victim surcharge of £2,000 and costs of £2,140.

Their contractor, P&A Services, which carried out the work, also pleaded guilty to the unauthorised felling and causing damage to the protected trees and was ordered to pay a total of £2,900; fines of £1,000; a victim surcharge of £400; and council costs of £1,500.

The action was taken against the two firms by Woking Borough Council. The original hearing took place in October 2023 with the judge issuing sentence in March 2024.

Speaking about the prosecution, Beverley Kuchar, Woking Borough Council’s strategic director for place, described it as an “important case” and welcomed the decision.

She said: “Whether you permit or cause wilful damage to our environment we will take legal action wherever necessary.

“It is important that landowners and their contractors take the necessary steps to understand what consent is required before commencing tree works.

“The status of the borough’s trees can be checked quickly and simply online. If in doubt, our arboricultural team can provide advice in advance of any works commencing.

“There is no excuse and, as in this case, failure to do so can lead to a criminal prosecution and significant fines.”

Tree Preservation Orders protect specific trees, groups of trees, or woodland that benefit the wider community

---

## Chalking up a victory for the Hogsmill

31 July 2024

The **South East Rivers Trust** (SERT) has completed the construction of a 2,000m<sup>2</sup> pollution filter which will bring major benefits to Epsom and Ewell's **Hogsmill** chalk stream.

When planting takes place in the spring, the newly constructed Chamber Mead wetland will protect and improve 5km of river downstream, filtering pollutants and becoming a haven for wildlife.

The project has been carried out in partnership with **Epsom & Ewell Borough Council**, which owns and manages the **Hogsmill Local Nature Reserve**, a popular greenspace which will now benefit from this new community asset.

The wetland is a crucial project for the Hogsmill, which suffers adversely from pollution such as urban road runoff, raw sewage discharges and misconnected plumbing that sends drain water directly into the river. Water from the Green Lanes Stream has been diverted through a sediment trap and two wetlands, with filtered, cleaner water reconnected to the Hogsmill downstream of the famous Stepping Stones.

News about the wetland's completion comes in the week of **World Wetlands Day**, on Friday 2nd February. Dr **Bella Davies**, Co-CEO of SERT, said: "We are delighted that the construction phase of this important wetlands project has now been completed. It is destined to become a jewel in the crown of the Hogsmill Local Nature Reserve. The public has shown great enthusiasm for this project, and we will soon be calling on volunteers and community groups to add the plants that will really make the wetlands flourish as a magnet for wildlife. The water quality improvements that will result from the wetlands are designed to help the river become a healthier place for all, especially wildlife that thrive in a chalk stream, such as brown trout."

Councillor **John Beckett**, (RA Auriol) Chair of the Environment Committee at Epsom & Ewell Borough Council, said: "The council is committed to protecting and enhancing biodiversity in our borough, as per our Biodiversity Action Plan 2020-30. This partnership project with the South East Rivers Trust will help to ensure that the Hogsmill Local Nature Reserve is a place where nature can thrive; from woodpeckers, hedgehogs and bats - to species whose numbers have dwindled such as water voles, fish and eels. We know our residents cherish this Local Nature Reserve and I hope that many can join the community planting days, which are a unique opportunity to be part of this fantastic project."

SERT is now preparing a series of community planting days, to take place in the Spring. These will give residents the chance to plant the vegetation to help the wetlands counter pollutants.

Schools, community groups and residents will be given opportunities to install plants that have been specifically selected to filter pollution, trap sediments and attract a variety of wildlife. Plants selected include yellow flag iris, ragged robin, purple loosestrife and brooklime.

In time, SERT will also offer guided walks and outdoor education sessions for school children. A nature trail is planned for families to interact with the wetlands as they develop, alongside information boards which will detail the reasons why the wetlands were needed and the types of wildlife that should be attracted.

Supported by the Hogsmill Catchment Partnership, the project has received funding from The Coca-Cola Foundation, Natural England (through the Species Recovery Programme), the Environment Agency, Surrey County Council, the Rivers Trust, the Zoological Society of London, Garfield Weston Foundation and Thames Water, with in-kind support from the landowner Epsom & Ewell Borough Council. The new wetlands are part of the wider Replenish programme in partnership with the Coca-Cola Foundation and the Rivers Trust. The aim of Replenish is to restore millions of litres of water in this and other local catchments, in turn improving biodiversity.

The construction of the wetland is expected to cost £1 million. We are proud to have a good mix of funding for this project, including private funding from Coca Cola, Thames Water and charitable grants, as well as public funding from the Environment Agency, Natural England and Surrey County Council.

It is estimated there are 200 chalk streams across the world, with about 160 of them in England, mostly in the south.

## Grate find in Epsom's Millennium Green

31 July 2024

The Woodcote Millennium Green is unique in Surrey. It comprises of an area of 7 acres, bounded by Woodcote Green Road to the north and the Woodcote Estate to the south and is located at the rear of Epsom General Hospital.

The land forming The Woodcote Millennium Green has passed through the ownership of monks, lords and developers over the last thousand years and now flourishes under the stewardship of a Trust whose members are passionate to retain the character of this landscape gem.

The land was originally part of the estate of the Manor of Horton, owned by Chertsey Abbey until the dissolution of the lesser monasteries in 1536-7. After passing through several owners, the Manor passed to the sister-in-law of John Evelyn, the 17<sup>th</sup> Century diarist. Woodcote House was re-built at this period, on a site which is now just south of the Millennium Green.

Woodcote House was acquired by Sir Edward Northey (1652-1723) in the late 17<sup>th</sup> Century and became the family seat to the Northey family for 250 years. The present house dates mainly from the early 19<sup>th</sup> Century. Photographs of the area show an open wooded landscape with cattle grazing by the pond. The pond is shown on the earliest Ordnance Survey maps of Epsom and surroundings and must pre-date the mid 19<sup>th</sup> Century.

In the late 1930s, Woodcote House and the surrounding land was sold to Earnest Harwood, whose building company developed most of the land for housing, forming The Woodcote Estate. Woodcote House itself was subdivided into flats and has undergone a major refurbishment.

In 1999, the Harwood family donated a large portion of the remaining woodland including the pond to be held in perpetuity by the Trustees of The Woodcote Millennium Green Trust. The Mayor of Epsom and Ewell officially opened The Woodcote Millennium Green in July 2000.

Whilst The Millennium Green was once a 7-acre site of overgrown brambles, it has been transformed by residents and volunteers into the attractive piece of managed natural woodland that it is today.

It was during one of my own walks through the woodland that I discovered a cast iron fire grate close to the rear of Woodcote House that had been unearthed by tree roots. Having obtained permission from one of the trustees of The Millennium Green to remove the fire grate, I contacted Bourne Hall Museum in Ewell and was later informed by one of the curator's contacts that the cast iron fire grate is likely to date to the 19<sup>th</sup> Century and was probably used inside a room of Woodcote House prior to being replaced and buried in the ground at the back of the building.

Four times a year The Woodcote Millennium Green Trust holds maintenance days to help with the upkeep of the green which can be found at the rear of Epsom General Hospital.

It is a great community experience open to all ages and abilities so if you would like to get involved, or make a donation to fund maintenance and improvements, please email:

[info@woodcotemillenniumgreen.org.uk](mailto:info@woodcotemillenniumgreen.org.uk)

## Improving Surrey's rights of way

31 July 2024

Surrey County Council is seeking the views of residents on the county's Rights of Way to help drive improvements.

The county council is responsible for around 2,164 miles (3,482 km) of paths known as 'public rights of way' in both the countryside and urban areas. Accessing these paths is important for residents to enjoy and explore, travel to work or school and for health and wellbeing.

A public right of way is a path that anyone, by law, has the right to use. There are four types:

- Footpaths for walking, mobility scooters or powered wheelchairs
- Bridleways for walking, horse riding, cycling, mobility scooters or powered wheelchairs
- Restricted byways for walking, horse riding, cycling, mobility scooters or powered wheelchairs and horse-drawn carriages
- Byways for all modes including motorised vehicles.

**Marisa Heath, Surrey County Council Cabinet Member for Environment said:** *"This is a fantastic opportunity for*

*residents to share their views and really shape how we manage and improve our rights of way both in rural and urban areas. Exploring the countryside and being close to nature is so important for our health and wellbeing and also to understand the benefits of the natural environment we are doing our utmost to protect, so we want to support everyone by improving our networks."*

Residents are invited to feedback their views on Surrey's Rights of Way network, sharing how they use them, their importance, what if anything may prevent residents from using them and how the council can support their needs. All views will help inform the new Rights of Way Improvement Plan which will be produced at the end of 2024.

The survey is open until 10 March 2024 and can be accessed on the **Surrey Says website**.

## Dedicated Epsom tree-man

31 July 2024

Dedication event at Alexandra Recreation Ground honours local hero Mike Ford Epsom & Ewell, 3rd December 2023. In a heart warming event volunteers from Friends of Alexandra Park and the Epsom & Ewell Tree Advisory Board (EETAB), local councillors Steven McCormick, James Laurence and Bernie Muir, the Epsom & Ewell Tree Officer and the Mayor, Councillor Rob Geleit gathered on December 3rd at Alexander Recreation Ground to pay tribute to a beloved local figure, Mike Ford, affectionately known as 'Mr. Tree.'

Mr. Ford has been a cornerstone of our community, dedicating countless hours to the preservation and enhancement of our natural environment. His unwavering commitment to the cause of tree conservation and environmental stewardship has left an indelible mark on Epsom & Ewell.

The dedication event served as a poignant moment to recognize and express gratitude for his exceptional contributions.

The event was opened by Howard Gregory the chair of EETAB with words from Kevin Greening and Simon Alford, EETAB members, before introducing the Mayor of Epsom & Ewell. The Epsom and Ewell Tree Officer then presented Mike with a collection of photographs taken when the original copse was planted.

In his speech Mayor Rob Geleit said "Mike is firmly rooted in his conviction that planting a tree today is an investment for the whole community, combating climate change and helping biodiversity as well as a thing of beauty in itself. His and the Epsom & Ewell Tree Advisory Board's aim is ensure that they pass on to future generations a borough that is at least as leafy as the one we have all inherited."

As well as speeches, the event included a symbolic tree layout for the planned rejuvenation of the Ford copse, and the unveiling of a commemorative plaque to forever mark Mike Ford's contributions at Alexander Recreation Ground.

The event concluded with a sense of community pride and a commitment to carrying forward Mr. Tree's legacy.

## Surrey Hills now a "National Landscape"

31 July 2024

All designated Areas of Outstanding Natural Beauty (AONBs) in England and Wales are becoming National Landscapes, including the **Surrey Hills National Landscape**. The new name reflects their national importance; the vital contribution they make to protect the nation from the threats of climate change, nature depletion and the wellbeing crisis, whilst also creating greater understanding and awareness for the work that they do.

This is a significant milestone for the UK and the next step in fully realising the National Landscapes' vision to be the leading exemplars of how thriving, diverse communities can work with and for nature in the UK: restoring ecosystems, providing food, storing carbon to mitigate the effects of climate change, safeguarding against drought and flooding, whilst also nurturing people's health and wellbeing.

The Surrey Hills National Landscape was designated an Area of Outstanding Natural Beauty in 1958, the second to be designated in the country. It covers around a quarter of Surrey, the most wooded county in England, and is situated within the London Metropolitan Greenbelt with 1.5 million people living within 10km of the landscape. With rising national pressures regarding climate change, the biodiversity emergency the mental health crisis, the Surrey Hills as a National Landscape will better protect precious habitats such as heathland, downland and woodland which are home to important species, as well as providing space for people and nature to thrive.

**Kathy Atkinson, Chair of the Surrey Hills National Landscape says:**

*"There's often a healthy scepticism around talk of "re-branding" and people might reasonably ask, "What's the point?" in calling the Surrey Hills a National Landscape instead of an 'AONB'.*

*Firstly, the legal status of the Surrey Hills as an Area of Outstanding Natural Beauty is unchanged. This amazing area retains the same protections in law as a National Park. As set out by the Glover review in 2019, AONBs are fragmented, misunderstood and often see even greater pressures with less resource. Glover recommended not only a renaming of 'AONBs' to National Landscapes, but the power which could follow in terms of a strengthened network, with increased funding, governance reform, and new shared purposes to help us fight against the challenges our protected landscapes may face.*

*We need to use this rebrand as a step change to how we connect with our protected landscapes. To excite and engage the widest possible public in the task of protecting the Surrey Hills, a cherished landscape that is under threat like never before. This is a critical decade for our natural world, and National Landscapes brings the opportunity to collectively reduce the impact of substantial threats from a National and localised perspective. So, I urge everyone to embrace our National Landscapes vision as a tool to help us support a healthy and thriving landscape, for nature and for people."*

## No reservations to put reserves in “Thames to Downs”

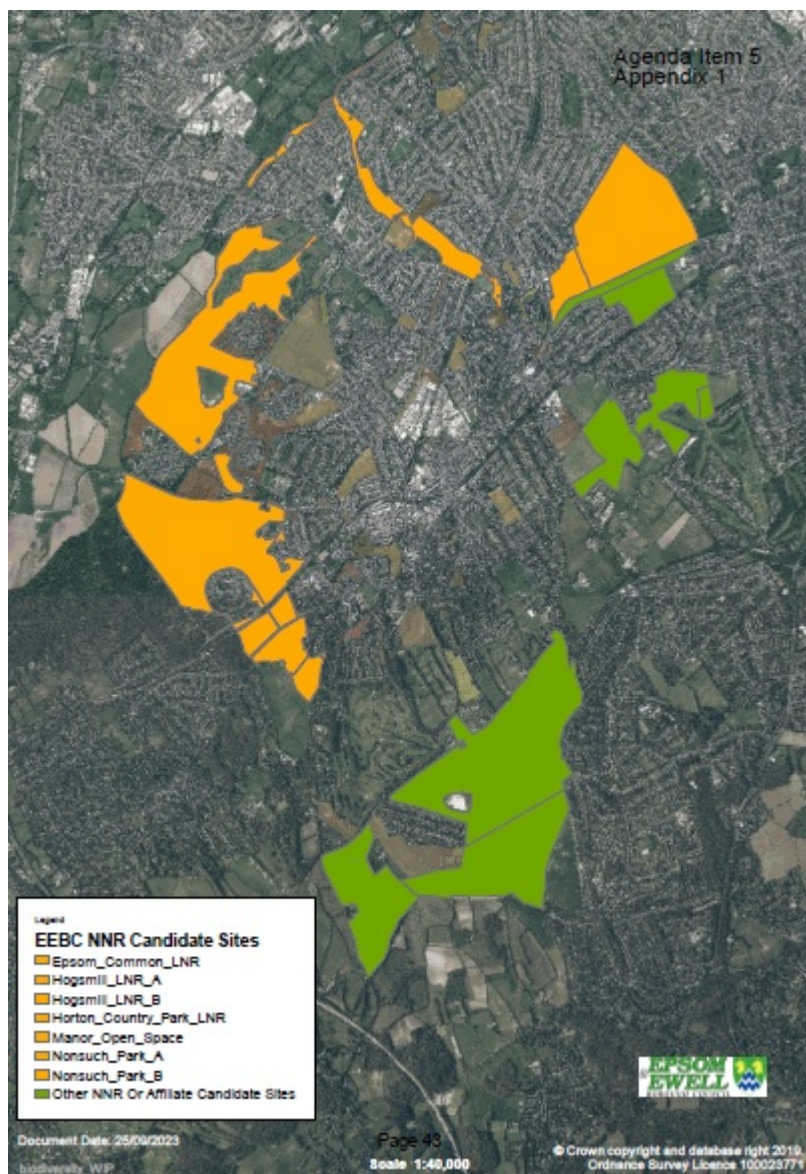

31 July 2024

Epsom & Ewell Council Eyes Inclusion of Local Natural reserves in the 'Thames To Downs' National Nature Reserve.

The Council's Environment Committee 17th October debated an ambitious move to preserve its natural heritage and enhance biodiversity. The Council is considering the inclusion of several of its green spaces within the proposed 'Thames To Downs National Nature Reserve' (NNR). The council plans to report back to the committee if Natural England deems them suitable for this scheme.

The recommendation comes as a bid to consolidate and expand upon the Council's ongoing efforts in managing biodiversity and public access within its open spaces. The move also carries the potential for national recognition, designating the council as an 'Approved Body' known for maintaining its land to the highest environmental standards on a permanent basis.

The NNR management criteria align with the council’s strategy of balancing biodiversity conservation with ensuring public access to these natural sanctuaries. Collaborating as part of the NNR partnership with neighboring landowners is anticipated to attract substantial external funding to aid in long-term land preservation and management.

Furthermore, inclusion in the NNR not only fulfills key service priorities but also demonstrates the council’s commitment to its statutory responsibilities. It aligns seamlessly with the ‘Biodiversity Duty’ and other environmental requirements, such as upcoming Local Nature Recovery Strategies.

The NNR status will not only showcase the borough as an exceptional place to live and work but also contribute significantly to preserving and expanding local biodiversity.

Epsom Common Local Nature Reserve (LNR), a site of national importance for nature, gained recognition as a Site of Special Scientific Interest (SSSI) alongside Ashted Common back in 1955. In the 2005-2015 Epsom Common Management Plan, the council committed to achieving a ‘Favorable’ SSSI condition assessment for Epsom Common. Subsequently, the goal was to apply for National Nature Reserve status, encompassing the entirety of the Epsom & Ashted Commons SSSI as part of a National Nature Reserve.

The endeavor to secure NNR status for Epsom Common LNR is well-documented in the council’s current Epsom Common LNR Management Plan 2016-2116 and the Climate Change Action Plan.

An officer explained to the committee: “We are really keen that Epsom Common joins Ashted Common in being declared a National Nature Reserve. We’ve all been set up for that for over a decade. It’s in the management plan; it’s Council policy to do that. But Natural England has changed its approach to National Nature Reserves in the last two or three years. They have put forward the offer to work with us and other partners to form a much larger, what they would term a super-national Nature Reserve, going from the Thames at Kingston to the North Downs.”

Cllr **Julie Morris** (LibDem College) raised the question what legal status such a NNR would have? Could landowners within them nevertheless develop their land? The officer answered: “Epsom Common, for example, is a Site of Special Scientific Interest, and that’s the strongest legal protection that you can afford a site like that. The other sites that are being put forward are in the Green Belt. They are sites of nature conservation importance. They have ancient woodlands. All of those are material considerations for a planning application. Alistair Helwell, who is the lead person at Natural England for National Nature Reserves, does make a point of saying it is a declaration, not a designation. So it doesn’t afford greater protection, but it does afford a greater level of kudos, obviously”

National Nature Reserves (NNRs) are vital for preserving significant habitats, species, and geology while serving as invaluable ‘outdoor laboratories’ for research. These reserves offer opportunities for schools, special interest groups, and the general public to directly experience wildlife and learn more about nature conservation.

Currently, England boasts 221 NNRs covering over 105,000 hectares of land, approximately 0.7% of the country’s surface. The largest among them is The Wash, sprawling over almost 8,800 hectares, while Dorset’s Horn Park Quarry is the smallest at 0.32 hectares. The five proposed sites in Epsom & Ewell together span an impressive 455 hectares, equivalent to 13.4% of the borough’s land.

A ‘Favorable’ SSSI condition assessment was successfully attained in 2010, prompting the council to commence the NNR application process. Unfortunately, due to funding cuts at Natural England, the application was postponed for nearly a

decade. It was only in 2021 that the council was approached once again by Natural England, offering renewed prospects for an NNR application. In 2022, Natural England's approach evolved, emphasizing the creation of more extensive landscape-scale NNRs in line with the government's 'Making Space For Nature' initiative.

The council has been invited to put forward other sites under its ownership/management for possible inclusion in a landscape-scale NNR stretching from the Thames at Kingston to Box Hill on the North Downs.

Five potential sites in Epsom & Ewell, including Epsom Common Local Nature Reserve (LNR), Manor Open Space, Horton Country Park LNR, Hogsmill LNR, and Nonsuch Park, have been identified. Natural England has suggested an affiliate status for sites primarily designated for purposes other than nature conservation, such as Epsom Downs. It's important to note that the inclusion of Nonsuch Park will require separate permission from the Nonsuch Park Joint Management Committee.

A comprehensive partnership with a variety of landowners is envisioned, including local authorities, Surrey Wildlife Trust, National Trust, Woodland Trust, Crown Estates, Merton College (Oxford), and City of London (Ashted Common).

The unanimous decision of the committee to include the named sites within Epsom & Ewell for consideration will be followed by assessments of their suitability and the council's capability as an 'Approved Body' for managing an NNR.
