

Defibrillators delivered by drone?

10 October 2025

A groundbreaking project testing how drones could be integrated into the UK's 999 emergency response system to deliver defibrillators to out-of-hospital cardiac arrest patients has been launched by the **University of Surrey**, **Air Ambulance Charity Kent Surrey Sussex**, and the **South East Coast Ambulance Service NHS Foundation Trust (SECAmb)**.

Funded by the **National Institute for Health and Care Research (NIHR)**, the 16-month initiative will explore how drones can rapidly deliver Automated External Defibrillators (AEDs) to the scene of an emergency — potentially saving lives where every second counts.

The research will take place in two phases. The first will simulate 999 call handling, Air Traffic Control coordination, ambulance dispatch, and drone operations to develop and refine delivery procedures. The second will involve interviews with out-of-hospital cardiac arrest survivors, family members, emergency responders and members of the public to assess perceptions of drone technology, ease of use, and any concerns.

Dr Scott Munro, Lecturer in Paramedic Practice at the University of Surrey and project co-lead, said:

"This research is the first step towards integrating drone technology into our emergency response systems. Our ultimate goal is to develop and test the procedures needed to seamlessly introduce drone delivery of AEDs into the 999-emergency system."

Professor Kevin Munro, Director of the NIHR Research for Patient Benefit Programme, added:

"Using drones to deliver defibrillators could help emergency teams reach patients faster, improve survival after cardiac arrest, and bring cutting-edge technology directly to the NHS frontline."

Dr Craig Mortimer, Research Manager at SECAmb, said:

"Rapid intervention is vital in managing out-of-hospital cardiac arrests. Integrating this technology into future healthcare systems represents real progress in strengthening the chain of survival and giving patients the best chance of a positive outcome."

With UK survival rates for out-of-hospital cardiac arrest currently below 10%, the research aims to tackle one of the biggest challenges in emergency care: getting a defibrillator to the patient in time.

About NIHR

The **National Institute for Health and Care Research (NIHR)** is the UK's largest funder of health and social care research. It invests in high-quality studies that benefit the NHS, public health and social care, supports researchers and facilities, and partners with patients and communities to improve outcomes both in the UK and globally.

Surrey University

Surrey Uni to open in India after UK PM's visit

10 October 2025

Surrey joins new UK Universities in India Alliance while on UK trade mission to India

The UK's universities can be a "skills and research accelerator" for the potential of the strengthening UK-India trade partnership, which was the focus of Sir Keir Starmer's trade mission this week. This is according to Professor Stephen Jarvis, newly appointed President and Vice-Chancellor of the University of Surrey - and a participant in the trade mission.

On his return from India, where the multi-sector delegation met with Prime Minister Narendra Modi, Professor Jarvis highlighted the strong fit of the University of Surrey's 'purpose-driven' approach to education and research, and the importance of the new Universities in India Alliance, which Surrey was proud to become a founder member of during the trip.

During the visit, the University of Surrey was presented with approval in principle from IFSCA (International Financial Services Centres Authority) to proceed with opening a new International Branch Campus at GIFT City, in Ahmedabad, Gujarat State.

On the trip, the University also celebrated its network of research and education partnerships with Indian universities - including its partnership with the Indian Institute of Science, Bengaluru (IISc) - which will see both institutions partner to drive research and innovation in semiconductor chip design and medical research, with a particular focus on human health and veterinary medicine.

Professor Stephen Jarvis said:

"I was honoured to be invited to join the Prime Minister on his visit to India to celebrate the enormous potential for UK higher education to partner and collaborate in India to drive international skills development and research to solve global challenges. India is an economic and skills superpower - it has its own thriving

higher education sector, but also recognises the value that Britain's globally recognised higher education sector can bring to meeting the extraordinary growth in demand for quality education in India.

"As we move towards opening our new campus in GIFT City, we're delighted to have been invited to become founding members of the nine-strong UK Universities in India Alliance. Education is an immensely important export industry for the UK, and Surrey is proud to be standing shoulder to shoulder with our fellow universities, bringing our own unique brand of purposeful education, as we seek to expand the potential for higher education to be a skills and research accelerator, benefitting both the UK and Indian economies."

Alison Barrett MBE, Country Director India, British Council, said:

"Congratulations to the University of Surrey on receiving approval in principle from IFSCA (International Financial Services Centres Authority) to establish its International Branch Campus in GIFT City, Ahmedabad, India. This reflects the UK's commitment to accessible, innovative, and inclusive education, but also demonstrates the positive impact of the National Education Policy 2020. Aligned with the shared ambition outlined in the India-UK Vision 2035, bringing Surrey's expertise to India will create exciting new opportunities for students and equip them with the skills needed to thrive in the future."

Not MPs' expenses again!?

10 October 2025

Some Surrey MPs have racked up thousands of pounds in hotel stays or London rent, despite their constituencies being within commuting distance of Westminster.

The rules allow MPs who live outside London to rent a property or book hotels if late-night votes or early starts make the journey "unreasonable". Hotel bills are capped at £230 a night in London. But many Surrey residents might see the distances involved as a "normal" daily commute.

According to the Independent Parliamentary Standards Authority (IPSA), **Zöe Franklin (Liberal Democrat)**, MP for Guildford, has claimed £3,919.42 for 18 nights in London hotels between September 2024 and April 2025 – roughly two stays a month. **Dr Al Pinkerton (Liberal Democrat)**, MP for Surrey Heath, has claimed £4,543 for 22 hotel stays in the same period, including a four-night stint last October costing £780 and five separate nights this April. **Will Forster (Liberal Democrat)**, MP for Woking, spent £367.84 on a two-night stay in February after returning from a parliamentary trip to Ukraine.

Meanwhile, some of their Conservative colleagues have other arrangements. **Greg Stafford (Conservative)**, MP for Farnham and Bordon, has reportedly spent £9,592.52 on accommodation over five months, including nearly £8,000 to rent a London property between November 2024 and March 2025, excluding council tax and utility bills. Travelling from Mr Stafford's constituency office in Farnham and Bordon takes on average 1 hour 25 minutes by car or 1 hour 50 minutes by train. Mr Stafford has been approached for comment.

Under IPSA rules, MPs can claim expenses for renting or staying in London when parliamentary business requires it. Up to £31,800 a year is available for MPs' accommodation budgets in such cases.

Other Surrey MPs take a different approach. **Jeremy Hunt (Conservative)**, MP for Godalming and Ash, owns a London property, while **Claire Coutinho (Conservative)**, MP for East Surrey (Tandridge area), has her own London flat. Neither claims rent or hotel expenses.

A spokesperson for Zöe Franklin said: "Zöe has stayed in overnight accommodation in London after late night sittings in Parliament. This is in line with IPSA guidance. Zöe will continue to focus on working hard and delivering for the people of Guildford constituency."

A spokesperson for Will Forster said: "Will stayed in a London hotel for two nights in February 2025 following his return from Ukraine as part of a parliamentary delegation to mark the third anniversary of the Russian invasion. Debate in the Commons on the following day extended late into the evening."

A spokesperson for Dr Al Pinkerton said: "As Surrey Heath is classed as an out-of-London constituency, Dr Pinkerton is entitled under IPSA rules to claim accommodation costs in London when parliamentary duties require it. Rather than renting a permanent flat, he has chosen to use hotel accommodation on an occasional basis – for example, when late-night votes or early morning meetings make commuting impractical. This approach provides flexibility and ensures costs remain within IPSA's set limits. It also enables Dr Pinkerton to maximise his effectiveness as Surrey Heath's representative by being present and fully engaged in parliamentary business while avoiding unnecessary expenditure."

Poll points to further Conservative decline in Surrey

10 October 2025

Reform UK is in line to win its first Surrey seat, according to a major YouGov poll. The survey of 13,000 people's voting intentions suggests three Surrey MPs would lose their jobs with the Liberal Democrats being the largest beneficiaries in the county - if a General Election was called today.

Nationally, the polls say the United Kingdom is headed for another hung parliament with Reform, the Nigel Farage led party that succeeded UKIP after Brexit, emerging as the largest party. In Surrey voters are leaning a different way.

The three Surrey seats that would switch allegiance would be Spelthorne, Farnham and Bordon, and Godalming and Ash. All three seats are currently held by the Conservatives with Lincoln Jopp, Greg Stafford and Jeremy Hunt projected to lose their jobs as the Tories crumble to just 45 MPs.

Projected to take their places would be two Liberal Democrats and Surrey's first Reform MP. If the voting patterns held true Dorking and Horley, Woking, Guildford, Esher and Walton, Godalming and Ash, Epsom and Ewell, Surrey Heath, and Farnham and Bordon, would all go to the Liberal Democrats to give them eight MPs.

The Conservatives would hold East Surrey, Reigate, Runnymede and Weybridge, and Windsor, to give them four MPs. While Reform UK with 27 per cent is expected to edge out the Conservatives on 25 per cent and the Liberal Democrats on 20 per cent to win Spelthorne.

Nationally YouGov's seat-by-seat analysis indicates Reform UK would secure 311 seats in the Commons, short of the 326 required to demand a majority but far and away the largest party - and 306 MPs more than it currently has. The poll has Labour dropping from its 411 landslide victory in 2024 to 144 with the Lib Dems on 78 and the Conservatives which had been in Government for 14 years prior before losing last year would slip to 45 seats.

YouGov says its seat projections come with uncertainty and that volatility is now the norm in British electoral politics. They say Reform UK would win at least 82 seats by less than five percentage points and that there was a possibility it could lose them all, leaving the party well short of a parliamentary majority rather than within touching distance.

Chris Caulfield LDRS

Businesses get £2 million boost in Surrey

10 October 2025

An economic boost worth millions, scores of new jobs and hundreds of local opportunities will be delivered thanks to funding awarded to dozens of businesses by Surrey County Council.

From vineyards and biotech to manufacturing and AI firms, a diverse range of organisations from across the county have been awarded grants in the first round of the Surrey Economic Growth Fund.

The scheme, launched by the council in April, brings together pooled funding streams including the government's UK Shared Prosperity Fund and Rural England Prosperity Fund. Following a highly competitive process, close to £2 million has been awarded to dozens of recipients, unlocking significant match funding and private investment.

The successful bids are collectively estimated to grow Surrey's economy by £9 million, create or safeguard 300 jobs and bring 1,350 residents into employment.

Local firms supported

Among those receiving funding is Aero Sensor, a technology firm at Dunsfold Industrial Park in Cranleigh, led by former F1 engineer Dr Barney Garrod. The company is one of only three globally developing new aerodynamic measurement probes for automotive and aerospace applications.

The grant will support the creation of a new wind tunnel facility to test its designs, creating highly skilled jobs in the process.

Dr Garrod said:

"The grant enabled us to fully kit out the wind tunnel with the tools and instruments we need. We'll also be hiring new staff and technicians. Having our own wind tunnel means we can halve our turnaround time and massively accelerate our development. It's moved the business forward by about a year."

Other successful bids include Woodlark Nurseries in Hersham, which is creating a new horticultural facility, while Upper Birtley Farm Partnership near Bramley will establish a premium glamping and outdoor education site in the Surrey Hills.

In Godalming, Sammi-Select will develop a 'practice interview' tool adapted from an AI platform to support marginalised jobseekers such as young people not in education or training and those who are digitally excluded.

County-wide initiatives

There are county-wide projects too, including the Surrey Venture Studio scheme, a collaboration between Surrey's three universities to support start-ups, and Source in Surrey, led by the county's Chambers of Commerce, encouraging larger businesses to 'buy local'.

Both are expected to complement existing work through the council's Business Surrey initiative.

Councillor Matt Furniss, Cabinet Member for Highways, Transport and Economic Growth, said:

"The new Economic Growth Fund has generated a huge level of interest from across Surrey, demonstrating the real appetite from our amazing business

community to drive innovation, growth and job creation in our county.

"Round one was highly competitive and we've only supported the highest quality bids which fully met the criteria. This ensures every pound invested delivers genuine growth, meaningful jobs and positive outcomes for Surrey's communities.

"Our ambition is to position Surrey—which already contributes £50 billion to UK plc every year—as one of the UK's leading regional economies, and this fund is one of the ways we're building the foundations to achieve that."

Next round

Round Two of the Surrey Economic Growth Fund is due to launch in October, focusing on Business Growth Grants. Applicants can expect a streamlined, one-stage process supported by a guidance handbook.

For full details visit: businesssurrey.co.uk/innovate/economic-growth-fund

Epsom and Ewell Times reporter adds Epsom winner Lesh Wear (or Lesh), is a maternity and nursing wear company focused on creating comfortable, leak-proof products for mothers, such as their FREEFLO nursing bra, aiming to reduce the use of disposable breast pads. The company, also known as Lesh Wear Ltd, was incorporated in March 2022 and is headquartered in Epsom, Surrey, with the primary goal of making the breastfeeding journey easier.

Recipients of Round One funding

A total of £1,979,982 has been awarded to the following organisations:

- Dorking Distillery, Dorking
- Halt Glass, Guildford
- Emilia JH, Reigate
- Sammi-Select, Godalming
- Molecular Medical, Guildford
- Bonovate, Camberley
- Woven Bio, Woking
- Streetwise Technology
- The Good Bacteria Company, Farnham
- UKIOT, Weybridge
- Lesh Wear, Epsom
- Woodlark Nurseries, Hersham
- Aero Sensor, Dunsfold
- Rhizo PTX, Guildford
- Cambertronics, Cranleigh
- Misty Moon Cider, Farnham
- DIREK, Guildford
- Tiontech, Guildford
- Raw Honey Distillery, Fetcham
- Whitespace Work Software, Godalming
- LenziQ, Horley
- GT Joinery, Molesey
- Source in Surrey (via Surrey Chambers of Commerce)
- Surrey Venture Studio
- Surrey Innovation Board (via the University of Surrey)
- Blakes Lane Farm, Guildford
- Upper Birtley Farm Partnership
- Ivelle Farm, Waverley

Surrey County Council

Surrey gets a sinking feeling over cost of its holes

10 October 2025

Has Surrey become Britain's sinkhole capital? Well, the figures certainly point in that direction.

Surrey County Council is on track to spend a staggering £1.6m fixing the collapsed 65ft hole in a section of Godstone High Street - a bill that dwarfs what most local authorities spend on sinkholes.

Figures obtained through Freedom of Information (FOI) requests show councils across the UK have spent more than £6.2m tackling over 7,000 sinkholes since 2020. But Surrey alone accounts for almost half of that total, shelling out over £3.1m making it by far the country's biggest spender.

The Godstone collapse, which first appeared in February, has left the part of the High Street shut for months and businesses struggling.

Surrey County Council has already spent £850,000 on emergency responses, surveys, roadworks and consultancy fees, including £360,000 on just site establishment.

Another £800,000 is forecast for stabilisation work, filling in the mine tunnels, and further repairs - taking the final bill to £1.65m. This will amount to just over a quarter of the total UK bill on sinkholes for the last five years.

What is driving the cost?

The British Geological Society has stated that Surrey is particularly prone to sinkholes due to the underlying sands in the county, which are weakly cemented.

According to council documents, the ground beneath Godstone sits on the Folkestone Sandstone Formation - a weak, sandy foundation that made the area vulnerable to collapse. CCTV images provided under FOI request confirm the collapse was worsened by an old sand mine tunnel running beneath the High Street.

While the council insists the road should reopen by December 16, locals are not holding their breath. Residents have been struggling for months with the road closure, diversions, fall in trade and general feel of chaos. That being said, an official report shown to SurreyLive by the council does state that the project is tracking towards a final inspection date of December 16th.

A Surrey County Council spokesperson said: "This continues to be a highly complex incident involving a number of investigations led by our Highways Officers and other agencies, including specialist teams and utility companies.

"Work is underway to reconstruct the final footpath affected by the collapse and we're now planning how we stabilise the collapsed area and fill in the tunnel network.

"We are updating local residents and businesses as we progress through each stage of the process and expect the final two residents to be back in their properties by the end of September.

"Once our stabilisation work and the SES works to reconnect and relay the mains through the collapse area are completed, the area will be refilled and repaired permanently. We are currently planning to complete our repairs and reopen the High Street during December."

A nationwide problem

The Godstone collapse may be dramatic, but it's part of a wider and growing problem. Since 2020, sinkholes have been recorded everywhere from Reading to Scotland, with councils spending millions to patch them up.

The top spenders after Surrey include Reading (£976,500), East Sussex (£767,238) and Transport Scotland (£602,000). If you take away the Godstone sinkhole expenditure, Surrey still comes up top with over £2.2m being put towards sinkholes.

Redhill care home put under special measures

10 October 2025

A supported living service in Redhill has been rated "inadequate" and put into special measures after inspectors said they uncovered six legal breaches.

The health watchdog slammed the service as putting "unnecessary stress" on people by only giving 28 days' notice when required to move out.

Threeways Dom Care, on Brighton Road, which supports adults with learning disabilities, was inspected by the Care Quality Commission (CQC) in July 2025.

The watchdog found "serious leadership failings" which it said left people without dignity, independence or self care.

Roger James, CQC's deputy director for Surrey, said: "Our inspection of Threeways Dom Care exposed serious leadership failings that were denying people dignity, respect, and independence in their care."

Inspectors flagged problems across the board, including poor record-keeping, lack of staff training, and a failure to manage basic health needs like nutrition and epilepsy.

Some staff were found to be unkind, while others ignored health and safety basics. One care staff member was found wearing flip flops which could bring in dirt, and others were discovered to raise their voice at people or ask them to be quiet in what is meant to be their home.

The CQC report also criticised leaders for mishandling the closure of the home. Just one day after the inspection, residents and their families were told the service

was shutting and given 28 days to move out.

Mr James, CQC's deputy director for Surrey, added: "Threeways ignored people's voices, failed to inform them or their relatives of their rights as tenants, and put an enormous amount of unnecessary stress on people as well as making the transfer to a new care service for them more difficult."

He added the service did not promote an open or honest culture, with safeguarding concerns often missed or ignored, leaving people at risk of harm.

But Threeways management has hit back, accusing the regulator of ignoring their side of the story. A spokesperson for the service said: "Families have always been happy with the service and we've had positive feedback from professionals. The service will close once commissioners confirm a move date, and in the meantime, we're doing our best to ensure a smooth transition."

Despite those reassurances, the CQC has placed the service into special measures, meaning it will be closely monitored and expected to make urgent improvements if it wishes to continue operating.

From Epsom to the Big Screen

10 October 2025

Dean Puckett Returns Home with His Debut Feature *The Severed Sun* for a Special Screening and Q&A next week Wednesday 8th October!

A special homecoming event is set to light up the screen at Epsom Picturehouse as local filmmaker Dean Puckett returns to share his debut feature film, *The Severed Sun*. Dean, a former student of Glyn High School and UCA Farnham, moved from London to Surrey as a teenager before embarking on a filmmaking career that has taken him to major international festivals. Now, he returns to Epsom for a screening and Q&A celebrating the launch of his haunting British folk horror debut.

Set in an isolated church community gripped by paranoia and superstition after a brutal murder, *The Severed Sun* is a chilling tale of faith, fear, and folklore. The feature marks the first full-length film from Puckett — produced by Rebecca Wolff (Grasp the Nettle Films) and Jude Goldrei (Lunar Lander Films) — and had its world premiere at Fantastic Fest 2024.

Following screenings at Picturehouse cinemas across the UK, this special Epsom event will feature a post-screening Q&A with Dean, who will share insights into the creative process, behind-the-scenes stories, and what it takes to bring a first feature from script to screen.

"I discovered my love for filmmaking in a small cupboard at Glyn High School in Epsom. This was entirely thanks to one exceptional teacher, Mr Ramasami, who believed in me. Despite struggling academically, he saw that I had a flair for visual storytelling. I lived in Worcester Park from the age of 12 and took countless trips to the cinema in Epsom during my youth, so it's incredibly gratifying and moving for me to return now with my own feature film."

— Dean Puckett, Director of *The Severed Sun*

"It's a real privilege to work with homegrown talent like Dean and to share his debut feature with the community that helped shape his creative journey. Events like this are not only exciting cinematic moments, they're also a chance to show aspiring filmmakers that it is possible to follow your passion and make something special. Community is at the heart of what we do at Picturehouse, and hosting screenings like this — which bring people together and celebrate local success — is exactly what our cinema is all about."

The screening is a chance not only to experience one of the most distinctive new British films of the year but also to celebrate a hometown success story — and discover what it's really like to turn a dream into a debut.

Event Details:

Epsom Picturehouse, Epsom Square, Epsom, KT19 8AG

The Severed Sun: followed by a Q&A with Dean Puckett and filmmakers

Bookham to get new community centre

10 October 2025

After six years of waiting and false starts, Bookham is finally getting a new community centre.

The old Bookham Youth Centre on Lower Road shut its doors in 2019 after falling into disrepair, leaving the area without a dedicated youth and community hub.

Members agreed to spend £2.8m of existing capital funds to knock down the old building and replace it at a Surrey cabinet meeting on September 24. Councillors said they hope the new multi-purpose building will be ready by March 2027.

Cllr Clare Curran, Conservative member for Bookham and Fetcham West said: "There is real excitement in Bookham that a new centre is going to be delivered."

"This is not just a youth facility [...] The former centre was used by a huge range of community users from everything from the University of the Third Age to challenges with disabled children and an early years provider."

The new centre is set to take the place of three lost facilities - the former youth centre, The Bridge in Leatherhead (closed after RAAC was found in the roof) and the Bookham Family Centre. Day-to-day running of the centre is expected to be handed to a third-party provider, meaning no additional ongoing costs to the council or future unitary authority.

"It has taken some time to get to this point," said Cllr Clare Curran who represents Bookham. "We've had a few false dawns on the journey."

In 2021, councillors promised a shiny new building on the Lower Road Reception Ground, at the cost of £2.5m, with homes alongside to help pay for it. But that plan was scrapped after tougher planning rules on the Green Belt and new biodiversity requirements meant the recreation ground scheme was no longer possible.

Instead, Surrey County Council has shifted its focus back to the old youth centre site. But housing that was meant to come alongside the scheme has been kicked into the long grass, with any decision on new homes delayed until after 2027.

Public consultation and planning approvals are still to come so residents still have an opportunity to have their say.

Epsom and Ewell's NESCOT plumbs the heights

10 October 2025

Nescot's gas and plumbing apprenticeship provision has been awarded a City & Guilds End Point Assessment (EPA) plaque for excellence in apprenticeship delivery.

Elizabeth Akinlaja, City & Guilds Business Development Manager for London, Kent & Sussex, officially presented the award to Principal and CEO, Julie Kapsalis and the plumbing team at the college this week (Monday 22 September). She said: "Congratulations Nescot, it was a pleasure presenting the City & Guilds EPA Excellence plaque to the apprenticeship team. This award is for their dedication and commitment in supporting learners on their Building Services Engineering (BSE) apprenticeship provision, which has resulted in outstanding first-time pass rates, especially in plumbing, an area facing significant skills shortages. Well-done to everyone involved for making such a positive impact!"

Learners on the gas engineering apprenticeship, part of the plumbing apprenticeship department at Nescot achieved a 94% first time pass rate.

The award recognises excellence in Nescot's EPA delivery, which is the final stage of an apprenticeship designed to validate an apprentice's knowledge, skills, and behaviours against the required apprenticeship standard. It signifies the high quality and standard of the college's apprenticeship training, and celebrates the plumbing apprenticeship department's successful and impactful EPA achievements.

Liz Crawley, Head of School, Construction, Engineering & Automotive at Nescot, commented: "It's fantastic to receive such amazing feedback from City & Guilds. Our plumbing team work really hard to ensure the best possible outcomes for our apprentices and local employers."

Sarah Keith, Head of Apprenticeships at Nescot, added: "I am so proud of the teamwork at Nescot across all apprenticeships. This award is a testament to the benefits of working in a strong team that supports our apprentices, employers and each other. It means that our students are fully qualified and industry ready. Well-done to the plumbing team, and everyone involved in apprenticeships at Nescot."

The EPA Excellence award showcases Nescot's commitment to apprentice success and industry standards and reflects the wide range of apprenticeship training available at the college. At Nescot, we offer apprenticeships in carpentry and joinery, commercial catering, gas engineering, plumbing and heating, electrical installation, business administration, customer service, team leading and management, marketing executive, hairdressing, early years, health play specialists as well as laboratory scientists.

Explore the range of apprenticeship courses available on the Nescot website.

Photo: (centre left to right): Nescot Principal and CEO Julie Kapsalis receiving the City & Guilds EPA Award plaque from Elizabeth Akinlaja, City & Guilds Business Development Manager for London, Kent & Sussex along with the Nescot Plumbing team. Credit NESCOT

An EPA Plaque from City & Guilds is an award given to colleges and training providers to recognise their high-quality apprenticeship delivery and the success of their apprentices. The plaque highlights consistent excellence in End-Point Assessment (EPA) performance, based on factors like high pass rates and a large number of Distinction grades achieved by apprentices. It is also a recognition of staff dedication, guidance and support offered to learners.

NESCOT
