Epsom author thinks the unthinkable

7 June 2024

Published on 28th May 2024, **The Unthinkable Truth** by **Epsom** based author **Yona Bouskila** is a gripping thriller that delves into the depths of the human mind and explores how real and seemingly innocent scientific discoveries can spiral into global dystopia.

With the authorities set to rob people of their freedom of choice, in order to create a perfectly obedient and mindless society, The Unthinkable Truth questions whether free will is simply an illusion, and whether our own human nature could be the catalyst to our downfall.

Making use of his extensive background in neuroscience, the author expertly transports us into a world where a team of scientists, other experts and a characterful AI are tasked with solving the most baffling question about the human mind, creating a gripping narrative that will appeal to all.

Yona Bouskila ticks all the boxes for fans of both thrillers and intellectually stimulating reads, but most importantly, readers aren't required to know the first thing about science to enjoy his compelling and thought-provoking novel.

In the hope of distracting himself from his heartache, George Bennet, a mild-mannered professor of theoretical physics, accepts an invitation by UNESCO to join an eclectic multidisciplinary team of experts, tasked with unravelling the enigma of the human mind.

As this seemingly innocent academic investigation twists and turns, George suspects that they are being duped into aiding a sinister plan, which threatens to shatter the very foundations of society. When the unthinkable truth emerges as their

ISSN 2753-2771

final conclusion, and the plan is exposed, George and the team must be silenced. No matter the cost.

What is the unthinkable truth? Will George survive to reveal it? Only one thing is certain: humanity will never be the same.

Drawing on solid scientific research, The Unthinkable Truth is a compelling and intricate thriller that will make readers question their own human nature.

A scientist by training, a thinker by nature, and an author by passion, Yona Bouskila has a particular fascination with the human mind in all its aspects. This enduring passion, together with his penchant for thrillers, served as the driving force behind his novel, The Unthinkable Truth, which he describes as a thought-provoking thriller that culminates in an eye-opening revelation on the mind and humanity. He studied biology (with philosophy) and received a PhD in neuroscience from UCLA.

He is involved in medical research and development. Before that, he conducted brain research at several institutions in the US and Europe. He writes short stories, often with a humorous slant, and his debut novel will be published in May 2024. He lives in Epsom with his wife and pets, where he enjoys the Surrey countryside and contemplating life.
