

Fall in Love with the Future

27 March 2026

A workshop-with-a-difference which will guide us in imagining the type of future we'd like to be part, and how to get there. Best-selling author Rob Hopkins (founder of Transition Totnes) leads us playfully in 'Imagination Training'.

The event is open to anyone: members of local sustainability groups, teachers/lecturers, town councils, local businesses, in fact, anyone with an interest in looking in a new way at future possibilities in building networks and connections with fellow residents and community groups. It's a day for people from all parts of the local community - the more 'cross-pollination' the better.
