

Family Art Workshops

28 January 2025

Our new family workshops for families are 2-hour sessions designed to bring everyone together for the holidays.

Each family selects their own project or a big collaborative piece, and by the end of the session, you'll take home a beautiful, finished piece of art - We provide all the materials you will need!

Workshop options vary, from clay and canvases, to large collaborative work - there is something for each family to enjoy.

All ages are welcome! Some projects are only appropriate where all members of the family are aged 8+; you will be offered projects applicable to the ages booked in.
