People’s Emergency Briefing

27 March 2026

Last November experts in their field met in London to hold a high-level briefing, calling for the Government to ensure the public is informed, prepared and protected, in the light of the
current risks from climate change.

The film sets out the scale threats to the UK’s food security, health, infrastructure, economy and national security.

St Martin’s is one of many organisations which are showing the 45 minute film and it will be followed by an opportunity for discussion.

This event is free and all are invited – please register to reserve your place.
