

“Frackin’-hell!” – in Surrey?

2 October 2022

Epsom and Ewell has so far escaped the grant of licences for shale-gas exploration. Other Boroughs in Surrey are targeted. 25th September Business and Energy Secretary **Jacob Rees-Mogg** announced: “In light of Putin’s illegal invasion of Ukraine and weaponisation of energy, strengthening our energy security is an absolute priority, and – as the Prime Minister said – we are going to ensure the UK is a net energy exporter by 2040. To get there we will need to explore all avenues available to us through solar, wind, oil and gas production – so it’s right that we’ve lifted the pause to realise any potential sources of domestic gas.” Including through new oil and gas licences and shale gas extraction.

Red blocks are areas licensed for shale-gas exploration. Purple triangles are local anti-fracking protest groups. Friends of the Earth has provided a map and statistics showing the areas and licences for shale-gas exploration in Surrey.

Constituency	Number of licences	Licences total area (sq m)	Proportion of constituency under licence
Guildford	2	54,008,711	28.6%
East Surrey	5	122,524,280	47.2%
Mole Valley	3	59,441,785	16.1%
South West Surrey	3	94,052,391	36.7%
Reigate	3	35,937,442	32.1%

Between now and 2040 will Epsom and Ewell's natural resources have to play their part in energy self-sufficiency?
