Green light for MRI scanner at Leatherhead Leisure Centre

12 March 2026

Surrey will get a new MRI machine at Leatherhead Leisure Centre after councillors were “all in favour” of building the musculoskeletal scanner. The new machine will be housed in a temporary building, with the aim of bringing accessible, community-based imaging technology to the area.

The idea has been in motion for the past 18 months after it emerged there was a significant shortfall in MRI access and missed waiting time targets. Leatherhead Leisure Centre, in Guildford Road, Fetcham, was identified as the ideal location to help cut travel distances and relieve pressure on NHS hospitals, papers presented to Mole Valley’s March development management committee said.

The application was not without obstacles as the centre sits on green belt land where new buildings are normally considered inappropriate unless exceptional circumstances can be demonstrated. In this case, the pressing need for new medical facilities available to all patients, together with the temporary five-year nature of the development, proved compelling enough.

Officers told the meeting: “The centre lies within the green belt but in this case the very special circumstances – the need for this type of medical facility and the proximity to the centre, with its car parking space – are strong.” Originally the building was to be navy blue but a change of provider means it will now be white. Two staff members will occupy the site at any one time, with space for a waiting room and a separate scanning area.

Councillor Roger Adams (Liberal Democrat: Bookham West) said: “I am all in favour of additional health facilities in this area.” The plans were approved by nine votes in favour, with no objections and two abstentions.

Questions were raised about whether the land might be reclassified as previously developed green belt land after the temporary building is removed, amid concerns this could open the site to future development. Officers said the five-year nature of the scheme, together with its valued community use, would see the site revert to its original protected status.

Members also pushed for the building to be finished in a colour less likely to show wear and tear, but were told the appearance was determined by the materials available rather than a simple paint choice
