

Local sewage uploaded

12 December 2022

Epsom and Ewell's **Hogsmill River** and **Green Lanes Stream** feature in the latest sewage report. The Rivers Trust undertake a review of the health of the nations rivers. Recent publication of the statistics for 2021 has prompted a petition to reduce sewage discharges. The main local water supplier is Thames Water. A company that reportedly has not issued dividends to shareholders other than holding companies for several years. The company's earnings before interest, taxes, depreciation and amortisation are about 50% of its approximate £2 billion annual revenue. Yet, in July it awarded its chief executive £727,000 of a reported £3.1 million "golden hello" on top of her £2 million annual salary. The announcement came shortly after a damning report from the Environment Agency about the failure of water companies to stop sewage entering our rivers and waterways.

Images and data courtesy the Rivers Trust

Thames Water stated that the spillages from the Longmead arose due to a faulty sensor.

The Rivers Trust provide things you can do to maintain healthy rivers. [CLICK HERE](#) to its website.

The Rivers Trust is a registered charity and an umbrella organisation of 65 member trusts. The member trust for our area is The South-East River Trust
