

New SWLP Laboratory Enhances Diagnostic Services for Epsom Hospital and Beyond

South West London Pathology (SWLP) has launched one of the most advanced diagnostic facilities in the UK, with new cutting-edge laboratories set to transform healthcare delivery for patients across its network, including **Epsom Hospital**. The upgraded laboratory at Croydon Hospital marks the first phase of a significant technological overhaul aimed at improving diagnostic speed and accuracy.

Serving over 3.5 million people through five hospital sites, including **Epsom Hospital**, and 450 GP practices, SWLP is integral to the region's healthcare infrastructure. When fully operational, the SWLP network of laboratories will process over 30,000 tests daily, ensuring faster turnaround times and better outcomes for patients in Epsom and the surrounding areas.

The state-of-the-art facility will streamline clinical blood science services, including clinical chemistry, haematology, coagulation, and serology, using cutting-edge pre-analytical automation technology developed in partnership with Beckman Coulter, a global leader in diagnostics.

Simon Brewer, Managing Director of SWLP, said:

"The introduction of Beckman Coulter's advanced analysers at Croydon Hospital marks a transformative step for our diagnostic services. With these technologies soon to be implemented across the entire network, including Epsom Hospital, we are setting new standards in diagnostic efficiency and patient care."

Rob Young, UK General Manager at Beckman Coulter, added:

"By equipping SWLP laboratories with the latest diagnostic technologies, we're enabling healthcare teams to deliver faster, higher-quality results. This advancement will significantly enhance the care provided to patients across the SWLP network, including those relying on Epsom Hospital for vital healthcare services."

The upgraded laboratories will unify diagnostic services across all SWLP sites, enhancing efficiency and ensuring a consistent standard of care. For patients at **Epsom Hospital**, this means improved access to accurate and timely test results, contributing to better overall health outcomes in the local community.

About South West London Pathology (SWLP)

South West London Pathology (SWLP) is an NHS pathology partnership providing integrated diagnostic services to hospitals, GPs, and healthcare organizations across South West London and beyond. Serving over 3.5 million people, including those at Epsom Hospital, SWLP delivers a comprehensive range of tests using state-of-the-art technology to improve patient care.
