# Old Glynonians silver chance in a decade

Epsom & Ewell-based Old Glynonians RFC will take a team bus to Bristol this Sunday 12<sup>th</sup> May to contest the Papa Johns Community Cup Counties 3 South Shield Final.

The side, formed in 2007 by former Glyn School students and still made-up of a number of alumni, will face fellow Surrey side Cranleigh, having dismissed Streatham-Croydon RFC and King's College Hospital in the quarter-final and semi-final respectively.

This will be the 'Ogs' first final since 2012, where they saw off Merton to win the Surrey Bowl, a competition they also won in 2008 and 2009.

**James McFarlane**, Chairman of Old Glynonians RFC, said: "Less than two years ago we were finding our feet again after a COVID-interrupted year or two of on-and-off rugby, so to be heading to a cup final with arguably our strongest ever squad is testament to all the hard work put by so many people at the club.

We'd like to thank The Rising Sun in Epsom, our home pub and clubhouse, for their hospitality this season, our brilliant sponsors, Radford & Sons Butchers in Stoneleigh, without them we wouldn't have any new kit or quality food for out BBQ social events, as well as the brilliant City Skills. Thanks also to Glyn School for continuing to let us use the facilities. Fingers crossed the boys can get the job done on Sunday"

**Tim Laughton-Scott,** Captain of Old Glynonians RFC, said: "Things have really started to click this year. We had a mixed bag of results earlier in the winter, but as the players have gelled, confidence levels have grown and I've got a lot of faith in the team going down to Bristol on Sunday. Funnily enough, we've only recently come off our end-of-season tour to Amsterdam, but we all came home in one piece and everyone should be in good shape for the game."

**James Kennedy-Myers**, Head Coach of Old Glynonians RFC, said: "The boys have already achieved great things this season, including a club-record 10 league wins, and things really have gone from strength-to-strength over the last few months.

"If we turn up with the same energy and commitment we've shown in the previous two rounds of this competition, then there's every chance we can lift the cup."

The match will take place at Shaftesbury Park, the home of Bristol Bears Women and will kick off at 11am.

## **Surrey County Council staff strike poll**

Staff at **Surrey County Council** are voting on whether to go on strike after receiving a revised pay offer which union bosses say is not good enough.

Union chiefs representing workers, including teachers and firefighters, have described the ballot as one of the most important in the branch's history and that it was time to make a stand against low pay.

The ballot papers were sent out to staff on May 7 and run until June 4 - when staff will decide whether to accept the council's revised offer or support the walk out.

Surrey Council leader, Councillor **Tim Oliver** (Conservative) said it was important the authority "lived within its means" and that the offer was final. He said the council remained committed to getting the matter resolved so staff could receive pay increases as soon as possible.

Surrey Pay comprises pay bands PS1/2 to PS14 and pay bands for senior managers PS15 to Chief Executive. The council's original offer of between £1,124 to £1,682 for grades PS3-PS9, was overwhelmingly rejected. Unions had been asking for a £3,500 increase across the board.

In March, workers warned the local authority of a potential walkout after a "record number" of people backed strike action – unless there was a significantly improved pay offer. The council came back and is now offering a £1,800 increase to all staff on PS6 and below, unions have said. Those on between PS7 and PS10 are still on the old deals. Sick pay will return to six months full pay and six months half pay, double its current levels.

Lead negotiator **Paul Couchman** has said this shows the council can be moved. He said: "This is going to be one of the most important votes in our UNISON branch history. The council has already shown that we can move them. We believe we can get a better, fairer, offer if we get a result in this ballot.

"Last year we were just 40 votes short of reaching the legal minimum of 50 per cent of members voting. This is the year we make a stand."

Earlier this year a consultative online ballot was held with 53 per cent of members responding, 87 per cent of whom voted to reject the offer and 91 per cent saying they would support strike action if there wasn't a significantly improved offer.

The Strike Committee felt the council has not moved far enough and has moved to a full postal legal strike ballot. The two general trade unions representing employees said members were being left behind - both national pay awards as well as most other local councils.

According to the unions about a thirds of Surrey staff are paid below a 'minimum standard of income', based on research provided by the Joseph Rowntree Foundation.

The revised offer would see the lowest hourly rate of pay would be £12.04, higher than both the Real Living Wage and Statutory National Living Wage.

Unison is asking its members to reject the offer.

It comes as, last February, there was a "catastrophic" Surrey payroll glitch that left workers unable to pay mortgages or afford food for their children "We really do deserve better," a statement from Unison read.

Tim Oliver, Leader of Surrey County Council: "We have made a revised improved final offer and remain committed to getting the matter resolved so that our staff can receive their pay increase as soon as possible. However it's imperative that the offer is within our means.

"The council is not immune to the challenges of the current economic landscape, rising costs and inflation pressures, and we must ensure we remain in a position to deliver vital public services and protect our most vulnerable in our communities throughout."

### Tarbuck's luck comes to Epsom

Comedian Jimmy Tarbuck popped into Epsom General Hospital recently - and made a serious bit of business great fun.

He was in the Urology Department to present a "new toy", a £10,975 TULA Laser Machine on behalf of Epsom Medical Equipment Fund (EMEF).

Surgeons love new toys and this one saves lives. The comic heard from Consultant, **Deji Akiboye** how this new treatment for bladder cancer helps treat cancers without the need for sedation or anaesthetic. Patients come in and have their condition treated, pain free and walk out of hospital in less than one hour. The tiny laser goes through a flexible telescope inserted into the bladder.

The consultant added: "We use this laser to fry abnormal areas in the bladder which are cancerous. Traditionally this involved a full anaesthetic and a stay in hospital, sometimes with a catheter.

"With this treatment, it means we can do away with all those things and treat people far more quickly, painlessly and let them get back to normal living faster. It is fast, efficient and effective – plus it's also great fun to use for us surgeons who love new toys."

**Charlotte Druce**, General Manager, Surgery & Endoscopy Surgery Directorate, Epsom and St. Helier University Hospitals NHS Trust thanked EMEF organiser, **Bess Harding** for helping to make this particular dream come true.

Bess added: "With the support of the local community, we raised the money for the TULA which is an important part of the treatment".

Find our more and donate to EMEF.

### Community fund open for bids

Epsom & Ewell Borough Council is inviting community groups and organisations to bid for neighbourhood funds raised by the Community Infrastructure Levy (CIL), to deliver projects that will support new development and benefit Epsom & Ewell residents across the borough. Bidding opens on 7 May for six weeks, closing on 18 June.

The CIL raises funds from developers in recognition that new development creates pressure on local infrastructure. It is spent on the provision, improvement, replacement, operation, or maintenance of local infrastructure. Epsom & Ewell Borough Council has invested more than £210,000 from the 2022/23 Neighbourhood CIL Fund in community infrastructure projects including:

- Replacing playground equipment in Rosebery Park and Alexandra Recreation Ground
- Repairing pathways in Nonsuch Park to ensure they are safe and accessible
- Upcoming works to support biodiversity and improve visitor experience, including an additional new bench, at Stamford Green Pond.

Councillor **Steven McCormick**, (RA Woodcote and Langley) Chair of the Licensing and Planning Policy Committee, said "I strongly urge local community groups and organisations to take this opportunity to bid for funds for community projects and initiatives that can improve quality of life for residents in Epsom & Ewell.

The Neighbourhood Community Infrastructure Levy Fund offers us the chance to deliver projects that have a real impact on our communities, for example enhancing access to the countryside, improving accessibility and facilities in our parks and open spaces, improving health and safety for example by installing public water fountains, and more."

The bidding process is designed to be as clear as possible. Information on the process can be found in section 6 of the CIL Spending Protocol.

Bids will be shortlisted using the criteria set out in section 7 of the CIL Spending Protocol. Shortlisted bids will be presented to the Licensing and Planning Policy Committee for approval and, for any spend over £50,000, then to the Strategy and Resources Committee.

### First Surrey Borough with no Conservative Councillors

The Conservatives have been wiped out in Woking after voters handed the Liberal Democrats a huge mandate. The final tally tightened the Lib Dems grip on power giving them 24 seats, up four from last year's election – and left the Tories with none and Labour with just one seat on the bankrupt local authority. The remaining five seats are held by independents.

The Conservatives came into the day holding just four of the council's 30 seats but they failed to hold on to any as ward after ward continued to punish the party – which as recently as 2021 had been the borough's largest group.

The result makes it the first council in Surrey not to have a single Conservative councillor and serves as a major warning to the party of a difficult road ahead in the upcoming general election.

Josh Brown, the former Conservative councillor who lost his seat in the Byfleet and Byfleet West ward said: "The Woking Conservatives will continue to hold the Liberal Democrats, Independent and Labour on the council to account with regards to increases in council tax and increased borrowing."

He would later add: "People of Woking have clearly had their say and we respect that, but the process going forward is who is going to hold this super majority to account? "I think there will be a muted scrutiny function and that Woking and all of our residents will be worse off."

The biggest swing of the day came in Canalside with the Liberal Democrats overturning a Labour majority of 570 to take the seat.

Leader of the Council Councillor Ann-Marie Barker, who held on to her Goldsworth Park seat said: "It's a huge result for the Liberal Democrats, given the year we've had (referencing the Section 114 bankruptcy notice).

"To get such an overwhelming majority, resulting in existing councillors with increased majorities and gaining four seats. It's a massive responsibility and we've got a huge mandate to take it forward and we've showed that we can do that over the last couple of years. Scrutiny is very important. We still have independent and Labour councillors, but the importance for scrutiny is critical friends and constructive criticism – and that should come from both within and beyond the group.

"First priority is to get the new councillors trained inducted and working on their roles to deliver for residents and clearly finances are in our mind all the time and our work to deliver on our budget and next year's budget."

# Surrey's Police and Crime Commissioner re-elected

The result of the 2nd May 2024 election for Surrey's Police and Crime Commissioner was announced Friday and the Conservative Candidate, **Lisa Townsend**, was re-elected despite a substantial drop in turnout.

The re-elected Commissioner vowed to continue supporting a "back to basics" approach to policing in Surrey. She received 95,538 votes in Thursday's PCC election. **Paul Kennedy** for the Liberal Democrats closed the gap significantly. Trailing by 12% points in 2021 he narrowed Lisa Townsend's lead to 5% points this time round.

**Epsom and Ewell**'s own candidates fared honourably with **Kate Chinn** for Labour narrowly ahead of independent **Alex Coley** with 42, 813 and 42,052 votes respectively. Ms Chinn is Borough Councillor for Court Ward and Mr Coley for Ruxley Ward.

The result was announced in Redhill Friday afternoon after votes from across the county were counted.

Ms Townsend, who has served as Commissioner for more than three years since winning in 2021, vowed to continue supporting Surrey Police's renewed focus on issues that matter most to residents, such as tackling anti-social behaviour, shoplifting, and targeting persistent offenders.

She said the Force now has more officers than ever before, and under the leadership of new Chief Constable Tim De Meyer, they are concentrating on combatting those crimes that matter most to the Surrey public.

Chief Constable Tim De Meyer said: "Surrey Police warmly congratulates Lisa Townsend on her re-election as Police and Crime Commissioner. We look forward to continuing to work with her on challenges such as tackling violence against women and girls, improving our response to calls from the public and bringing more offenders to justice."

Party	Candidate	Votes	%
Conservative	Lisa Townsend	95,538	36.4
Liberal Democrats	Paul Kennedy	82,213	31.3
Labour	Kate Chinn	42,813	16.3
Independent	Alex Coley	42,052	16.0
Turnout		265,682	29.9
Rejected ballots		3,066	
Total votes		262,616	

Turnout was 29.9 per cent, compared to 38.8 per cent in the last Police and Crime Commissioner election in 2021. The total number of verified ballot papers was 265,682 from a total electorate of 888,083.

Clash Over Funding and Priorities in Surrey PCC Race

# From blow your hair to blow your mind?

Nescot college in Ewell, Surrey is investing £650,000 to transform a hair studio on campus into a virtual reality (VR), immersive space for its students. The state-of-the-art technology, currently being installed, will be used across a wide range of courses on offer at Nescot and includes driving simulators and immersive learning spaces which work with a variety of artificial intelligence (AI) tools. This will allow students to gain specialist skills and experiences, like driving a forklift truck, or navigating a busy A&E ward, without even leaving the classroom.

Nescot will have a range of cutting-edge technology, including an Igloo, immersive room, and vehicle simulators. The Igloo is cylindrical, six metres in diameter and features a 360-degree projection system that can 'transport' groups of students around the world. It offers things like virtual field trips, design opportunities and gaming development. It can also recreate complex activities or hazardous environments so students can safely learn.

A suite of four advanced simulators will provide vehicle handling training for a wide range of machinery, from cranes to fire engines. These simulators, alongside virtual reality headsets, will mean students can work together to refine their driving or operation skills in a realistic scenario where multiple machines or vehicles are in use.

The immersive room has a projection system which equips all the walls with screens. Two of the screens are interactive and respond to touch, creating a hands-on learning experience. Two ultra-high-definition screens are also incorporated, and cameras

enable instructors and students to magnify objects of interest and project them onto any of the four screens, facilitating discussion. The technology also brings remote learners into the classroom via a dedicated video call screen.

The facility further cements Nescot's reputation as a hub of innovation, having recently opened robotics, AI and cyber security facilities as part of its Institute of Technology. The staff/student hair studio, which was a commercial salon and not a learning space for students, has already moved out of the space and has been relocated nearby. There is no impact at all on the Nescot hairdressing course, which is still a valued part of the curriculum.

**Julie Kapsalis**, CEO and Principal at Nescot said "We pride ourselves on innovation, and giving our students the best experience at Nescot, so we're adopting this cutting-edge technology which will be a game changer. It can virtually transport students around the world to learn, allows them to safely practice dangerous scenarios, and is a fun and exciting way to boost motivation, creativity, and engagement. We can't wait to get it installed."

**Somayyeh Clifton**, Head of Quality Improvement & Innovation at Nescot said "This is not just for students doing IT related subjects, we expect it to be used across the whole curriculum, giving students the skills and experience they need to succeed in the modern world. We've come a long way since teaching from the front of the room and we really value the importance of learning through experience. We're keen to get prospective students along to our open days to find out more about this, and what we'll have to offer in the next academic year."

Julie and Somayyeh are both part of AI in Education initiative, with Julie sitting on the Strategic Board and Somayyeh on the Practitioners Panel. AI in Education aims to support and advise schools and colleges so they can maximise the benefits of AI and minimise the risks.

The funding to create the immersive space has been provided from the Government's Local Skills Improvement Fund, a project which aims to support local people into work. Nescot is working with other local colleges and universities to better support the skills needs of the labour market in key areas identified by local businesses - CreaTech, Advance Manufacturing, Engineering and Construction, Digital, and Employability and Professional skills.

As well as being beneficial for Nescot students, the college will be encouraging local businesses to get involved, by using the technology to train staff. Partnerships with business and enterprise are invaluable for both parties as organisations get to access cutting edge training and learning resources, plus a pool of talented, experienced students who can enter the workforce via apprenticeships, work placements and post-college recruitment.

Nescot offers college courses for school leavers and adults, with a wide range of career-focused vocational courses including Animal Care, Business, Computing and IT, Construction, Performing Arts, Childcare, Health & Social Care and Beauty Therapy. The college has two events coming up, where prospective students can see what's on offer, and learn more about the immersive classroom as it's being built.

- Open evening, Wednesday 22 May 2024, 4.30 7.30pm
- Summer fair, Saturday 15th June 2024, 10.00am 2.00pm

To find out more, call 020 8394 3038, visit www.nescot.ac.uk or email adviceteam@nescot.ac.uk

Local businesses interested in using the immersive classroom for training, or working with the college on apprenticeships, work placements or recruitment should contact businesscentre@nescot.ac.uk or call 020 8394 8593.

# Meat-free Mondays coming to all Surrey schools?

Meat-free and plant-based options could be mandated across Surrey schools every Monday according to new council guidance. Only some Surrey schools currently participate in a form of 'meat-free Monday' so the new food strategy would expand its remit.

The new policy forms part of the so-called Surrey Healthy Schools initiative. The initiatives aims to address food insecurity, reduce climate impact of the local food system and support the local population to keep a healthy weight by improving the accessibility and affordability of nutritious food.

Speaking at a Surrey County Council (SCC) meeting on April 29, Officer Marisa Heath said: "I don't think meat-free Mondays is too much to ask for one day a week. We're still giving six days a week for people to make other choices so I don't think it is draconian or heavy handed."

Council officers said the preferred menu would prioritise fruit, vegetables and legumes- rather than processed, plant-based meat alternatives. Only schools signed up to the Surrey Healthy Schools will be part of the initiative, including all SCC public schools and some private schools.

Framing the programme as being to "educate and not dictate", Cllr Mark Nuti (Conservative/ Chertsey) said the policy is empowering individuals and families to make informed and healthy food choices.

The committee discussed the importance of sustainable and locally sourced farming, as well as cutting meat to decrease carbon emissions and environmental resources. It was noted that 'plant-based' food was not always "nutritional", but that children needed fibre from fruit and vegetables.

The new strategy aims to increase children's nutrition and combat obesity, as well as increasing sustainability and environmentally conscious eating. Around 1,210 of 9,355 Year 6 pupils measured in Surrey were classed as obese or severely obese in 2022-23, NHS figures show.

Healthy food, such as fruit and vegetables, are often out of reach for many parents on low incomes who prioritise affordability over nutrition. The amount of vegetables being purchased in the UK has fallen to its lowest level in 50 years, according to The Food Foundation.

"Levelling up is not just about buildings, it's about people," Officer Marisa said. "It's about their wellbeing, mental and physical, and allowing them to reach their [potential]."

Councillors argued the strategy must be adaptable to children who may suffer with eating disorders, have neurodiversity requirements or medical issues, and not be able to eat (or do not want to eat) plant-based food.

In a heated debate, concerns were raised about the policy going 'too far'. Cllr Trefor Hogg (Conservative/ Camberley East) said an extension to adults and elderly people with dementia could mean "being confronted with things they just can't cope with".

He added: "My particular concern of those who are in any form of social care have had their liberties and freedom restricted to some degree. It's very very important that they have a full choice. This is particularly important where there are neurodiverse and mental health issues as well. I think we should be very explicit on the subject. I would be very concerned about the adults and the elderly being confronted with things they just can't cope with."

Meeting documents stated the eating environment should be inclusive and social as restricting to plant based only options may make some feel excluded.

# Clash Over Funding and Priorities in Surrey PCC Race

On the eve of the Surrey Police and Crime Commissioner election, candidates are locked in a battle of ideas over funding allocations and the strategic direction of law enforcement in the county.

Independent candidate Alex Coley, former barrister Paul Kennedy of the Liberal Democrat Party, and Kate Chinn representing the Labour Party have all weighed in on the key issues facing Surrey's police force and incumbent Commissioner Lisa Townsend for the Conservative Party responds.

Alex Coley, (Residents Association Councillor on Epsom and Ewell Borough Council for Ruxley Ward) a vocal critic of current spending practices, has campaigned on the issue of financial management within the force. "Over the past six weeks Surrey has been my treadmill, six weeks of walking and talking to residents all over this county," Mr Coley stated. He emphasized concerns raised by residents about the allocation of resources, particularly in light of a significant underspend by the Police and Crime Commissioner (PCC) office. "The number one question from residents has been: 'how are you going to pay for more police?'" Coley highlighted, pointing to unutilized funds that he argues should be directed towards bolstering the police force.

Furthermore, Mr Coley raised eyebrows with his critique of what he termed "casino politics in politing," alluding to financial dealings between the PCC and Surrey County Council. "I don't think residents want a PCC acting like an investment bank that dabbles in the gilt markets, backed by your council tax," he asserted, painting a picture of fiscal irresponsibility that he vows to rectify if elected. Full statement HERE.

In contrast, **Paul Kennedy** of the Liberal Democrat Party takes a different approach, drawing on his legal and financial background to advocate for prudent fiscal management. "The challenge of funding more community policing requires professional

discipline, not simplistic solutions," Kennedy remarked. With experience as a barrister and an accountant, Kennedy positioned himself as a candidate with the expertise necessary to navigate the complex financial landscape of law enforcement.

Mr Kennedy defended the current funding structure of Surrey Police, stressing the importance of maintaining a buffer to address cash flow fluctuations. "Temporary surpluses can't just be run down as some have suggested," he cautioned, echoing sentiments of fiscal conservatism that have resonated with some voters. Full statement HERE.

Meanwhile, **Kate Chinn** (Epsom and Ewell Borough Councillor for Court Ward) of the Labour Party emphasized the human aspect of policing, focusing on recruitment and retention as key priorities. "Of course the budget needs scrutiny and increasing, but as Alex Coley identifies it is ensuring enough officers are recruited and retained that is the real priority," Ms Chinn argued. She outlined a series of measures aimed at bolstering recruitment and supporting existing officers, including streamlining the recruitment process and providing adequate mental health resources.

Ms Chinn's vision for policing centred on valuing and supporting front-line officers, with a pledge to advocate for fair pay and long-term investment in law enforcement. "A Labour government would ensure police pay recognizes the value of the work our officers do and commit to long-term investment," she asserted, positioning herself as a champion of the men and women who serve on the front-lines of policing. Full statement HERE.

As the candidates make their final pitches to voters, the future direction of policing in Surrey hangs in the balance. With each candidate offering a distinct vision for the role of the Police and Crime Commissioner, residents face a critical decision that will shape the county's law enforcement priorities for years to come.

A response from Conservative candidate and current Police and Crime Commissioner, **Lisa Townsend**, was awaited at the time of going to press and just came in minutes after......

**Lisa Townsend** refutes Mr Coley's claims: "There is no loan to Surrey County Council. The £43m is the amount of cash held at the 31/8/23. This represents reserves of about £30m as well as cash held due to the timing of council tax receipts, grants, payments out, etc. Rather than holding all our cash in a single bank we pool it on an overnight basis with SCC who add it to their spare cash and invest it in overnight money market deposits with many banks. This reduces the risk as this pooled money is spread over a larger number of institutions than if we were to do this alone, and it also reduces the cost of management."

In respect of underspending the Commissioner points out the small underspend in proportion to the total budget and how it arose from a higher staff vacancy rate than expected. Full statement HERE.

# Surrey Uni joins top beam team

The creation of a first-of-its-kind imaging system at the **University of Surrey** could help the UK lead a revolution in materials sciences. The new facility promises a better understanding of the effects of pharmaceuticals and could eventually lead to better drug development.

Thanks to a £3 million grant from the Engineering and Physical Sciences Research Council, Surrey will work with the UK SME Ionoptika and the University of Manchester to deliver a new Multimodal Ion Beam Imaging Facility, which will allow researchers and businesses to understand materials at an unprecedented microscopic level.

Professor Melanie Bailey, Principal Investigator of the project from the University of Surrey, said:

"The fact that Surrey and, indeed, the UK has the ambition to build this truly unique facility should not only excite researchers in academia and industry, but it signals that we are serious about breaking new ground in a range of scientific areas."

The facility will house a "multimodal 3D elemental and molecular imaging system at a sub-micron scale". This highly advanced system, similar to a powerful microscope, will be able to see the tiniest details of materials and molecules, smaller than a speck of dust.

The new system will be the first in the world to use beams of charged particles at high and low energies to measure biological systems and materials. The high-energy beams will be delivered by a particle accelerator at the UK National Ion Beam Centre, a national research facility funded by EPSRC and led by Professor **Roger Webb** at Surrey. The system will produce X-rays, gamma rays, and particles, and the combination of this information will give a detailed map of the elemental and molecular makeup of materials.

Professor Roger Webb, co-investigator of the project and Director of the Surrey Ion Beam Centre, said:

"This is a really exciting development for the Surrey Ion Beam Centre. We have been a national research facility since 1979, and we support over £100 million in funding from more than 30 universities. This is one of several upgrades to our centre, and we are looking forward to opening our doors to researchers across the UK to make the most of this investment."

Surrey's new facility is expected to benefit more than 25 UK universities and companies in health, energy, technology, and engineering.

Professor Paul Townsend, co-investigator of the project, said:

"There is currently nothing in the world quite like this new facility of ours. It signals to the global scientific community that the UK means business. We are confident that we will attract researchers worldwide to use this facility, giving the UK an edge in materials science."

Along with medical breakthroughs, Surrey's researchers believe the facility could help the energy sector create more efficient solar cells and durable batteries. The team also hopes this project will allow them to understand pollutants better and develop new ways to reduce climate change.

#### Paul Blenkinsopp, Managing Director of Ionoptika, said:

"Ionoptika is delighted to have been chosen to build the new imaging system in collaboration with Surrey. Whilst an SME, we have established ourselves as global experts in ion beam technology over the past 30 years and will be very proud to bring our decades of imaging expertise to this unique facility."

This project contributes to the United Nations Sustainable Development Goals (SDG), especially SDG 3 (Good Health and Wellbeing), SDG 7 (Affordable and Clean Energy) and SDG 13 (Climate Action).

Image of Ionoptika's J105
