It is vital to ensure the next generation understands how we can look after our environment and is prepared to make informed, environmentally aware choices. Many young people are passionate about the environment from recycling to air quality, and Eco-Schools provides them with a proven platform to make a real difference in their school and local community."*

Clare Curran, Cabinet Member for Children, Families and Lifelong Learning adds: *"The Eco-Schools programme empowers students to take the lead in environmental action, encouraging them to become champions of positive change both now and in the future. It's fantastic to see this acknowledgement of their efforts from a globally recognised awards programme."*
