Surrey’s £12 million fund open for your home energy improvements

10 May 2023

Over £12m of grant funding is now available for Surrey residents whose homes are not heated by gas, to make their homes more energy efficient and environmentally friendly.

Residents living in hard to heat homes and on lower incomes could receive up to £38,000 to fund measures that; improve a range of insulation including wall, loft and underfloor; install solar PV, solar thermal and air source heat pumps and ensure ventilation meets the industry standards.

Eligible properties must have an EPC rating of D-G, the primary form of heating must not be mains gas and applicants will need to meet the financial eligibility criteria. Funding is limited and will be on a first-come, first-serve basis. Residents can check if they are eligible by visiting contacting Action Surrey via the website – **www.actionsurrey.org** or calling 0800 783 2503.

Marisa Heath, Surrey County Council Cabinet Member for Environment said: *“It is still a challenging time for many households who are struggling in this cost of living crisis which we are all facing, which is why it’s so important we reach out and help those who need us the most.*

“I’m sure there are many residents who do not realise they are eligible for this funding, which is a great opportunity to reduce their energy bills whilst reducing their carbon footprint. I’d like to encourage all residents living in homes not heated by gas to check if they are eligible and help us achieve our goal to be a net zero county by 2050.”

Lord Callanan, Minister for Energy Efficiency and Green Finance, said: *“This investment will help thousands of households to heat their homes for less, keep them warm for longer and could save hundreds on their annual energy bill.*

“The green energy sector is growing, and this funding will support green jobs and provide the training needed to deliver these vital upgrades to homes.”

Surrey County Council has been awarded Government funding through a second phase of the Home Upgrade Grant. The project will be delivered by Action Surrey – an energy efficiency advice service set up in partnership with Surrey local authorities.

Sign up to the Greener Matters newsletter to keep up to date on Surrey County Council’s progress towards its target of making Surrey net zero by 2050 and find out what you can do to help.
