Epsom's **University for the Creative Arts** (UCA) offers advice to degree seeking **'A' Level students**. "With over two million jobs in the Creative Industries across the UK, choosing a degree in a creative subject is no longer just about following your passion – it's a sound career choice" says **Julian Henry, UCA's Head of Student Recruitment**.

"If you're looking at courses in Clearing, choosing a creative degree, can help you develop the skills that employers of the future are looking for – innovation, problem-solving and collaboration. You might also be surprised by the types of creative courses on offer, such digital art, games design or even business degrees focused on creative thinking."

A recent graduate from UCA **Alex Rahneva** enthuses.

“UCA gave me the opportunity to become more independent through self-work and be able to adapt to different circumstances. I think the key skill I’ve learnt for my future is the resilience to create independent work. And the advice I would give to students would be, believe in your work and trust your talent. It might be very daunting to put yourself out there but at the end of the day, making connections is all about showcasing your work, your skills, and your creative ability to innovate. Industry experts recognise and value this above all else!

I’ve had plenty of opportunities at UCA to meet and network with people from the creative industries, including amazing networking opportunities with industry experts at Graduate Fashion Week. As well as opportunities to meet and network with companies like Meta/Facebook and USP (Unique Style Platform), having won awards sponsored by them at UCA’s Business School for the Creative Industries Industry Awards 2022. Both experiences have been eye-opening and gave me experience and guidance on how to make my way into the fast-paced and global creative industry.”
